Report of Independent Certified Public Accountants

To the Plan Administrator
King Engineering Associates, Inc. Savings Plan
Tampa, Florida

We were engaged to audit the accompanying statements of net assets available for benefits of the King Engineering Associates, Inc. Savings Plan (the "Plan") as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011 and the supplemental Form 5500, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Principal Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the trustee as of December 31, 2011 and 2010, and for the year ended December 31, 2011, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information in the Plan's financial statements and supplemental schedule that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 – Plan description

General - The following description of the King Engineering Associates, Inc. Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

The Plan is a defined contribution plan covering all full-time permanent employees of King Engineering Associates, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). There are no age or service requirements to become a participant.

Contributions - Participants may contribute to the Plan based on amounts specified in participant salary deferral agreements. The Plan allows participants to contribute amounts based on total eligible employee compensation up to a maximum dollar amount determined annually by the Internal Revenue Service ("IRS"). The Company may contribute qualified non-elective contributions and other Company contributions at its discretion.

Participant Accounts - Each participant's account is credited with the participant's contribution, employer contribution, if any, and Plan earnings. Participant accounts are charged with withdrawals, an allocation of Plan losses and investment expenses. Contract investments are self-directed by the participants and Plan earnings are credited to the participants' respective accounts. Discretionary contributions made by the Company are allocated to participants based on an integrated formula, as defined in the Plan document.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contributions plus earnings is based on years of service. A participant is 100% vested after six years of credited service based upon the following schedule:

Years of Service	Vesting Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Payments of Benefits - Upon termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her vested account, or annual installments over a period not exceeding the life expectancy of the participant or the life expectancy of the participant and a designated beneficiary. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or in the form of a direct transfer to an individual retirement account or any qualified plan described in Section 401(a) of the Internal Revenue Code ("IRC"). On termination of service due to death or disability, as defined by the Plan, a participant shall become 100% vested in the Plan. The Plan also provides for certain hardship withdrawals and non-emergency withdrawals.

Note 1 – Plan description (Continued)

Notes Receivable from Participants - Participants may borrow from their individual accounts a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of their vested account balance, whichever is less. The notes are secured by the vested portion of the participant's account balance. Each note shall be repaid within a specified period of time, in accordance with the Plan document. The notes bear interest at a rate commensurate with local prevailing rates as determined annually by the Plan administrator. Principal and interest is collected ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the Plan document. Total notes receivable from participants in default, recorded as deemed distributions, were approximately $27,554 for the year ended December 31, 2011, including accrued interest if applicable.

Forfeitures - When certain terminations of participation in the Plan occur, the non-vested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures are used to reduce employer contributions or can be reallocated to participants. As of December 31, 2011 and 2010, the Plan had $52,933 and $150,492, respectively, in forfeitures available to apply to future contributions or reallocations to participants. The forfeitures available at December 31, 2011 were reallocated to participant accounts subsequent to December 31, 2011.

Note 2 – Summary of significant accounting policies

Basis of Presentation - The financial statements of the Plan are prepared under the accrual basis of accounting.

Investments, Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value determinations are made based upon a hierarchy that prioritizes the inputs to valuation techniques. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

Three levels of inputs may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and,

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

Note 2 – Summary of significant accounting policies (Continued)

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Guaranteed Interest Accounts - These investments are made by the Plan in a group annuity contract issued by Principal Life Insurance Company, which guarantees a fixed interest rate. The fair value of these accounts is the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity. Guaranteed interest accounts are classified within level 3 of the valuation hierarchy.

Pooled Separate Accounts - These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Mutual Funds - These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Limited Partnership Interests - These partnerships invest in undeveloped land, and the fair value of these partnership interests are based upon the fair value of the underlying land times the Plan's percentage ownership interest in the respective partnerships. Fair value for the land is defined as the most probable price for which a property will sell in a competitive market under all conditions requisite to a fair sale. Determination of this fair value involves significant judgment and for this reason, these investments are classified within level 3 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses - The Plan pays for all administrative services except for outside accounting fees, which are paid by the Company ($10,200 during the year ended December 31, 2011).

Note 2 – Summary of significant accounting policies (Continued)

New Accounting Pronouncements - In January 2010, the Financial Accounting Standards Board ("FASB") issued guidance to improve disclosures regarding fair value measurements. This update, insofar as it relates to the year ended December 31, 2011, requires entities to present separately (i.e., on a gross basis rather than as one net number) information about purchases, sales, issuances, and settlements in the roll forward of changes in Level 3 fair value measurements. As this guidance is only disclosure related, it did not have any effect on the carrying value of the investments on the Statement of Net Assets Available for Benefits as of December 31, 2011.

Upcoming Accounting Pronouncements - In May 2011, the FASB issued guidance to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between generally accepted accounting principles in the United States ("GAAP") and International Financial Reporting Standards. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. This guidance is effective for annual periods beginning after December 15, 2011 (the 2012 Plan year) and should be applied prospectively. Plan management is currently evaluating the impact of the pending adoption of this update on the Plan's financial statements.

Payment of Benefits - Benefits are recorded by the Plan when processed and paid.

Accounting Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Subsequent Events - Management has evaluated subsequent events through September 24, 2012 in connection with the preparation of these financial statements, which is the date the financial statements were available to be issued.

Note 3 – Investments held by trustee (Unaudited)

The following is a summary of the Plan's financial information and data certified by Principal Trust Company, the trustee of the Plan, as of December 31, 2011 and 2010, respectively, and for the year ended December 31, 2011, as complete and accurate in accordance with 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA:

Note 4 – Fair value of financial instruments, carried at fair value (Continued)

The table below sets forth a summary of changes in the fair value of the Plan's level 3 investment assets for the year ended December 31, 2011:

	Guaranteed Interest Accounts*	Limited Partnership Interests
Beginning fair value	$ 1,188,837	$ 49,212
Purchases	3,432	-
Settlements	(186,412)	-
Net appreciation/(depreciation)	31,929	(863)
Total	$ 1,037,786	$ 48,349

* Unaudited, see Note 3.

Note 5 – Investment contracts with insurance company

The Plan invests in guaranteed interest accounts and pooled separate accounts with Principal Life Insurance Company ("Principal"). Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution and Plan earnings, and is charged for Plan withdrawals. Former participants are charged with administration fees related to maintenance of their accounts as charged by Principal.

The guaranteed interest accounts provide a guaranteed interest rate for a specified period of time. The crediting interest rates ranged from 0.6% to 1.08% for the year ended December 31, 2011. The fair market value of the account is the value paid when funds are withdrawn prior to their maturity.

Note 6 – Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7 – Tax status

The Plan obtained its latest determination letter dated March 31, 2008, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7 – Tax status (Continued)

Plan Management has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan Management believes it is no longer subject to income tax examinations for years prior to 2008.

Note 8 – Party-in-interest transactions

Certain Plan investments are guaranteed interest accounts and pooled separate accounts managed by Principal, an affiliate of Principal Trust Company, the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants are also considered to be party-in-interest transactions because they are transacted with Plan participants. Fees paid for accounting and other services rendered by parties-in-interest were based on customary and reasonable rates for such services.

Note 9 – Risks and uncertainties

The Plan provides for various investment options in investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.
