INDEPENDENT AUDITORS' REPORT

To the Administrator of C.W. Roberts Contracting, Inc.
401(k) Retirement Plan

We were engaged to audit the accompanying statement of net assets available for benefits of C.W. Roberts Contracting, Inc. 401(k) Retirement Plan as of December 31, 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental Schedule of Assets Held at the end of the year. These financial statements and supplemental schedule are the responsibility of the Plan's management. The financial statements of the Plan as of December 31, 2010, were audited by other auditors. In their report dated October 11, 2011, they expressed their opinion that such financial statements presented fairly, in all material respects, the financial status of C.W. Roberts Contracting, Inc. 401(k) Retirement Plan as of December 31, 2010, in conformity with accounting principles generally accepted in the United States of America.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by the Principal Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the 2011 financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2011, and for the year then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information in the Plan's 2011 financial statements and supplemental schedule that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2011 financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rule and Regulations for Reporting and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the 2011 financial

401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010

Note 1. Description of Plan

The following brief description of the C.W. Roberts Contracting, Inc. 401(k) Retirement Plan ("Plan") is provided for general information purposes only. Participants should refer to the Plan document for more detailed information.

General: The Plan was adopted on December 1, 1985, and approved by the Internal Revenue Service on December 1, 1985. The Plan was amended March 31, 2008, with amendments effective March 31, 2008.

The Plan is a defined contribution plan covering all full-time employees of C.W. Roberts Contracting, Inc. (the "Company') who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration: C.W. Roberts Contracting, Inc. is the Plan Administrator and controls and manages the operation and administration of the Plan. Principal Financial Group serves as the Trustee.

Contributions: Each year, participants may contribute up to the maximum allowed by IRC 404 and 415 on pretax compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and insurance investment contracts as investment options for participants. The Company contributes 50% of the participants elected deferral amount up to 4%. Amounts contributed by highly compensated employees in excess of the allowable amount, as determined by year-end non-discrimination testing, are required to be refunded. These amounts are shown as corrective distributions on the Statement of Changes in Net Assets Available for Benefits.

Participant Accounts: Each participant's account is credited with the participant's contribution, the employer's matching contribution and an allocation of the Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contribution plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is based on the participant's vesting years of service. A year of vesting service represents a plan year in which at least 1,000 hours were worked. Employees vest in 20% of matching contributions after their second vesting year of service and vest in an additional 20% with each subsequent vesting year of service, and are fully vested after six years of service.

Note 1. Description of Plan, Continued

Notes Receivable from Participants: The Plan does not allow participant loans. Loans reported in the statement of net assets available for benefits represent loans outstanding from another plan which was merged with the Plan during 2008. These loans will be serviced until they are paid in full. No new loans will be made as stipulated by the plan document.

Payment of Benefits: On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account. These benefits are recorded when paid.

Forfeited Accounts: Forfeited amounts of non-vested employer contributions will be used to reduce the employer matching contributions. Forfeited non-vested portions will be held in the participant's account until a one year break in service occurs. Forfeited non-vested amounts were $5,882.

Expenses: The Plan pays investment fees. The Company pays expenses associated with administering the Plan.

Note 2. Summary of Significant Accounting Policies

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Note 3. Investments

The following presents investments that represent 5 percent or more of the Plan's net assets available for benefits at December 31, 2011 and 2010:

	12/31/11	12/31/10
Wells Fargo Money Market	$1,291,315	$ 826,376
Principal Lifetime Strategic Income	4,316,752	4,557,695
Principal Lifetime 2020	1,100,732	1,219,000
Principal Lifetime 2030	612,510	639,500

During 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the period) appreciated (depreciated) in value as follows:

	12/31/11
Mutual Funds	($42,117)
Investment contract with insurance company – Pooled separate accounts	78,702
Investment contract with insurance company – Guaranteed interest contracts	1,058
	$37,643

Note 4. Information Certified by Custodian (Unaudited)

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements, that was prepared by the custodian of the Plan, and furnished to the plan administrator. The custodian as of December 31, 2011 and 2010, was the Principal Trust Company. The plan administrator has obtained certifications from the custodian that such information is complete and accurate:

	2011
Statements of Net Assets Available for Benefits:	
Investments	$10,373,860
Statement of Changes in Net Assets Available for Benefits:	
Investment income (loss)	$ 61,986

In addition to the foregoing, the plan administrator has obtained a certification from the custodian of the Plan that the information contained in the following supplemental schedule accompanying these financial statements is complete and accurate:

Schedule of Assets Held for Investment Purposes

Note 5. Fair Value Measurements

Financial Accounting Standards Board (FASB) ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements), and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level of the asset or liability within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual Funds: Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

Insurance Contracts: Valued at the net asset value ("NAV") of the underlying investments.

Certificate of Deposit: Valued at their surrender value on the date of the financial statements.

Note 5. Fair Value Measurements, Continued

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

December 31, 2011	Level 1	Level 2	Level 3	Total

Total	$ 277,745	$1,610	$ 1,094	$ 71,153	$ 330,802	$(20,800)	$ 1,610

Note 6. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated December 1, 1985, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 7. Guaranteed Investment Contract with Insurance Company

The Plan has entered into a benefit-responsive guaranteed investment contract with Principal Financial Group ("PFG"). PFG maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by PFG, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was $330,802 and $258,057, respectively.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

For the year ended December 31,	2011	2010
Average yields:		
Based on actual earnings	0.4%	0.3%
Based on interest rate credited to participants	0.4%	0.3%

Note 8. Related Party Transactions

Certain Plan investments are shares of mutual funds managed by PFG. PFG is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $5,240 for the year ended December 31, 2011.

Note 9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11. Subsequent Event

The Plan has evaluated subsequent events through July 30, 2012, which is the date of the report.

Note 12. Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of assets available for benefits per the financial statements at December 31, 2011, to the Form 5500:

	12/31/11
Net assets available for benefits per the financial statements	$10,493,574
Adjustment from fair value to contract value	(620)
Rounding difference	1
Net assets available for benefits per the form 5500	$10,492,955

The following is a reconciliation of the change in net assets available for benefits per the financial statements for the year ended December 31, 2011, to the Form 5500:
