NOTE 1 - Description of the Plan

The following description of the Cambridge Brands, Inc. Retirement & Savings Plan (the "Plan") provides only general information. Users of these financial statements should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Cambridge Brands, Inc. (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All full-time permanent employees, as defined in the plan document, are eligible to participate in the Plan immediately, upon their date of hire. Eligibility for Company match and discretionary contributions requires completion of one year of service. Upon enrollment in the Plan, a participant may direct employer and employee contributions to any combination of various investment options.

Contributions

Each year, participants may contribute up to 100% of annual compensation (salary reduction contributions), on a pre-tax or after tax basis, as defined in the plan document. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). The Company is required to match 100% of the first 3% of the participant's compensation that a participant contributes to the Plan. Additionally, the Company may make discretionary contributions on behalf of all eligible employees in an amount equal to 4% of their annual compensation up to the Social Security taxable wage base and 8% in excess of this base. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, rollover contributions and an allocation of the Company's contributions and plan earnings or losses (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balance, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary reduction and rollover contributions plus earnings thereon. Company matching contributions and earnings thereon vest in accordance with provisions of the plan document as follows:

Vesting Years of Service	Percentage Vested
1	20%
2	40%
3	60%
4	80%
5	100%

Effective January 1, 2007, a five-year graded vesting schedule was effective on the Company discretionary contributions and earnings thereon. Participants who leave the Plan because of death, normal retirement, or total and permanent disability, as defined in the Plan, are considered 100% vested.

NOTE 1 - Description of the Plan (cont.)

Forfeited Accounts

As of December 31, 2009 and 2008, forfeited nonvested accounts totaled $12,771 and $6,529, respectively. These accounts will be used to reduce future Company contributions. Also, in 2009, Company contributions were reduced by $7,185 from forfeited nonvested accounts.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the plan document. The Plan provides for normal retirement at age 65. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment, installments or partial withdrawal. In-service distributions are allowed if the participant has reached age 59-1/2. Participants experiencing financial hardship may withdraw a portion of their account balance as defined in the plan document.

Termination of Plan

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Participant Loans

Participant loans are not permitted.

Administrative Expenses

The Company has borne substantially all of the Plan's administrative expenses.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value using quoted market prices. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. The unallocated insurance contract has imbedded guaranteed investment contracts which are fully benefit responsive. The contract is presented at fair value, which is the amount paid when funds are withdrawn prior to maturity, and is based on current market yields of similar instruments with comparable durations and generally will not be less than the contract's maturity value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

According to financial accounting standards regarding the reporting of fully benefit-responsive investment contracts held by certain investment companies subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans, investment contracts held by a defined-contribution plan are required to be reported at fair value, which is consistent with the Plan's valuation of the unallocated insurance contract. Also according to the standards, however, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan has adopted the standards, however, since the difference in contract value to fair value is not material to the financial statements it has not been presented on the Statements of Net Assets Available for Benefits as of December 31, 2009 and 2008 or the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2009.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Company has evaluated subsequent events occurring through July 16, 2010, the date that the financial statements were available to be issued, for events requiring recording or disclosure in the Plan's financial statements.

NOTE 3 - Fair Value of Financial Instruments

Effective January 1, 2008, the plan adopted recently enacted accounting standards which provide a framework for measuring, reporting, and disclosing fair value under generally accepted accounting principles. These regulations apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis. There was no effect on net assets available for benefits on January 1, 2008 upon adopting these new rules.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Quoted market prices in active markets for identical assets or liabilities.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3 - Unobservable inputs that are not corroborated by market data.

The plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services.

The table below presents the balances of assets measured at fair value on a recurring basis by level within the hierarchy.

	December 31, 2009			
	Total	**Level 1**	**Level 2**	**Level 3**
Investments	$10,264,813	$ 4,388,048	$ -	$ 5,876,765

NOTE 4 - Information Prepared and Certified by Trustee (unaudited) (cont.)

During the year ended December 31, 2009, the Plan's interest and dividend income was $262,933 and the Plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value as follows:

Registered investment companies	$ 810,465

Investments, in general, are subject to various risks, including credit, interest rate, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 5 - Amount Owed to Participants Withdrawing From the Plan

There are no amounts owed to participants who have withdrawn from the Plan as of December 31, 2009, that have not been paid and therefore included in net assets available for benefits.

NOTE 6 - Parties-In-Interest

Certain plan investments are shares of mutual funds managed by the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 7 - Tax Status

The Plan adopted a prototype defined contribution plan and trust sponsored by ING, effective June 1, 2000. The Internal Revenue Service has determined and informed ING on March 31, 2008 that the Plan is qualified and tax exempt under the appropriate sections of the Internal Revenue Code ("IRC"). The Plan has been amended since ING received the determination letter. The plan administrator believes that the Plan, as amended, is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt at the financial statement date.

NOTE 8 - Plan Amendments

Effective January 1, 2008, the Plan's definition of compensation for allocations to participants' accounts was amended to comply with final Section 415 regulations of the IRC. Compensation will include amounts paid after a participant terminates employment with the employer, as defined in the IRC, provided they are made within the later of 2 1/2 months after termination of employment or the end of the year that includes the date of termination of employment. Amounts paid to participants who are permanently and totally disabled will be included provided the payments do not continue beyond 6 months.

Effective February 1, 2008, the Plan was amended to permit participants to make Roth (after tax) deferral contributions and to allow Roth direct rollover contributions to the Plan. The amendment allows Roth contributions to be withdrawn for hardship or in service distributions subject to the same conditions that apply to pre-tax elective deferrals.

NOTE 9 - Subsequent Events

Effective June 1, 2010, the Plan was amended to replace the Lord Abbett Affiliated Fund Class A with American Mutual Fund Class R-4.
