NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the Palisades Holdings, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

- A. General: The Plan is a defined contribution plan covering all employees of Palisades Holdings, Inc. and its wholly owned subsidiaries (the Company or Employer) that have at least three months of service and are age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act (ERISA).
- B. Contributions: Employees may elect to defer up to the maximum amount allowed by the Internal Revenue Service (IRS) (designated salary deferrals) which is contributed to the Plan on the employees' behalf. Participant's who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Contributions are subject to certain limitations.
- C. Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of the Plan's earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.
- D. Vesting: Participants are vested immediately in their contributions, plus actual earnings thereon.
- E. Payment of Benefits: On termination of service due to death, disability, or retirement, a participant will receive a lump sum amount equal to the value of the participant's balance in his or her account. In service withdrawals are permitted for participants who have attained the Plan's normal retirement age of 65. The Plan also allows for hardship withdrawals.
- F. Plan Expenses: The Employer absorbs a significant portion of the administrative expenses of the Plan.

2. Summary of Accounting Policies

- A. Basis of Accounting: The financial statements of the Plan are prepared under the accrual method of accounting.
- B. Use of Estimates: The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.
- C. Payment of Benefits: Benefits are recorded when paid.
- D. Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between the market participants at the measurement date. See note 4 for further discussion of fair value measurements.

PALISADES HOLDINGS, INC. 401(K) PLAN
BAKER, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

2. Summary of Accounting Policies (continued)

D. Investment Valuation and Income Recognition (continued):

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully-benefit responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

- E. Recent Accounting Pronouncement: Effective July 1, 2009, the Plan adopted new accounting guidance related to U.S. GAAP. This guidance establishes Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) as the source of authoritative U.S. GAAP recognized by FASB to be applied by nongovernmental entities. FASB will no longer issue new standards in the form of Statements, FASB Staff Positions or Emerging Issues Task Force Abstracts. Instead, it will issue Accounting Standards Updates (ASUs), which will serve to update FASB ASC, provide background information about the guidance and provide the basis for conclusions on the changes to FASB ASC. FASB ASC is not intended to change U.S. GAAP. This guidance is effective for the Plan as of December 31, 2009.

3. Investments (unaudited)

Investments that represented 5 percent or more of the Plan's net assets are as follows at December 31, 2009 and 2008:

	<u>2009</u>	<u>2008</u>

NOTES TO FINANCIAL STATEMENTS

3. Investments (unaudited) (continued)

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) in pooled separate accounts appreciated in value by \$1,003,503.

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Pooled separate accounts: Each pooled separate account invests its assets solely in the shares or units of an underlying mutual fund, and the investment objective of each subaccount corresponds to the investment objective of the underlying fund. The value of each subaccount is determined using various inputs, such as the net asset value (NAV) of the shares of the underlying mutual fund held at year end adjusted for administrative expense and other charges.

General account: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See note 5).

BAKER, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

4. **Fair Value Measurements** (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan administration believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

NOTES TO FINANCIAL STATEMENTS

5. Investment Contract with Insurance Company

Certain events limit the ability of the Plan to transact with the issuer at contract value. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

The crediting interest rate is based on a formula agreed upon with the issuer. Guaranteed interest rates are announced annually and are guaranteed against change for the year. The crediting interest rate and average yield were 2.75% and 3.05%, respectively, for the year ended December 31, 2009. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

6. Income Tax Status

The Plan is relying on an Internal Revenue Service (IRS) determination letter dated, January 31, 2006, for the sponsor's Prototype Standardized Plan. The Plan and related trust are designed in accordance with application sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

On January 1, 2009, the Plan adopted the recent accounting guidance related to accounting for uncertainty in income taxes, which sets out a consistent framework to determine the appropriate level of tax reserves to maintain for uncertain tax positions. The Plan administration has evaluated its position regarding the accounting for uncertain income tax positions. Plan administration recognizes the effect of income tax positions only if the positions are more likely than not of being sustained. Recognized income tax positions are recorded at the largest amount that is greater than 50% likely of being realized. Changes in the recognition or measurement are reflected in the period in which the change in judgment occurs. Plan administration does not believe that it has any material uncertain tax positions. With few exceptions, the Plan is no longer subject to federal, state, or local tax examinations by tax authorities for years before 2006.

7. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

PALISADES HOLDINGS, INC. 401(K) PLAN
BAKER, LOUISIANA

NOTES TO FINANCIAL STATEMENTS

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Related Party Transactions

The Plan invests in units of pooled separate accounts managed by the custodian. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

10. Information Prepared and Certified by the Custodian

As permitted by CFR 2520.203-8, the Plan qualified for a limited scope audit. Information relating to investment assets, investment transactions, investment earnings, and the schedule of assets held for investment purposes was certified as complete and accurate by the custodian, ING Life Insurance and Annuity Company, as of and for the year ended December 31, 2009 and 2008.

11. Subsequent Event

Management has evaluated subsequent events through the date that the financial statements were available to be issued, July 30, 2010, and determined that no additional disclosures are necessary. No subsequent events occurring after this date have been evaluated for inclusion in these financial statements.
