THOMPSON/HANSON, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF THE PLAN

The following brief description of the Thompson/Hanson, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was adopted by Thompson/Hanson, Inc. (the Company or the Employer) on January 1, 1997. The Plan is a defined contribution plan covering all employees of the Company who have completed one hour of service, been employed for six consecutive months, and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was most recently amended in July 2008. See Note 11 for subsequent event.

The Plan consists of pooled separate accounts and a guaranteed investment contract with Transamerica Life Insurance Company (Transamerica). Contributions to the Plan, including participant salary deferrals, matching contributions, and rollovers from other plans, can be invested in any fund or combination of funds included in the Plan and are participant directed. A participant may change his or her investment options at any time via a telephone service or the internet, once enrolled.

During 2009, there was a change in the custodian of the Plan. Transamerica and Great-West Life and Annuity Insurance Company (Great-West), the Custodians, held the Plan's investment assets and executed investment transactions from October 1, 2009 to December 31, 2009, and from January 1, 2008 to September 30, 2009, respectively. The applicable Custodians have provided certifications as to the completeness and accuracy of the information provided to the Plan sponsor. Accordingly, the Plan has elected to instruct the auditors not to perform any auditing procedures with respect to the information prepared and certified by the Custodians, pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for reporting and disclosure under ERISA. This limited scope exemption applies only to the Plan's investment assets, income and related transactions and supplemental schedule of assets.

Contributions

Each year, a participant may contribute a portion of their compensation, in specified whole percentages or dollar amounts, not to exceed the deferral limitation as specified in section 402(g) of the Internal Revenue Code (IRC). The deferral limitation is $16,500 for 2009. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan provides that the Company may make a discretionary matching contribution to all eligible participants. The discretionary matching contribution is a uniform percentage, as determined by the Company, of participant contributions. For 2009, matching contributions were 50% of each participant's contribution up to a maximum of 6% of the participant's salary.

NOTE 1. DESCRIPTION OF THE PLAN – CONTINUED

Contributions – Continued

The Company may also elect to make a non-elective, discretionary contribution, allocated based on compensation, in addition to the discretionary matching contribution. For 2009, the Company did not make a non-elective, discretionary contribution to the Plan.

The Economic Growth and Tax Relief Reconciliation Act of 2001 includes a "catch up" provision for employee benefit plans. This provision became effective as of January 1, 2002, and allows employees who are 50 years old or older and who contributed the maximum amount allowed by law to their account to contribute an additional $5,500 for 2009.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings thereon, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of service. A participant is 100 percent vested after five years of credited service, except that upon death or total permanent disability, the participant becomes 100 percent vested.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25 percent to 9.25 percent, which are commensurate with local prevailing rates as determined by the Plan administrator.

Participant loans must be payable within a period not exceeding five years from the date the participant received the loan, unless the loan is for the purchase of the participant's principal residence, in which case the loan must be payable within a reasonable time commensurate with the repayment period permitted by commercial lenders for similar loans. Loan repayments must be made through payroll withholding, except to the extent the Plan administrator determines payroll withholding is not practical, given the level of the participant's wages, the frequency with which the participant is paid, or other circumstances.

NOTE 1. DESCRIPTION OF THE PLAN – CONTINUED

Payment of Benefits

On termination of services due to death, disability, retirement, or any other reason, a participant may elect to either receive a lump-sum distribution of the entire value of his or her vested account balance, or a single sum distribution of a portion of his or her vested account balance. Payment of benefits may be made in installments to satisfy required minimum distribution amounts.

Forfeitures

Nonvested benefits of terminated participants are forfeited. Forfeitures are reallocated as additional Company discretionary contributions to eligible participants in the Plan. Forfeitures for the years ended December 31, 2009 and 2008 were $884 and $1,193, respectively.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

All investments in the Plan are participant directed. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded when paid. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES – CONTINUED

Investment Valuation and Income Recognition – Continued

As of December 31, 2009, the Plan participates in a group annuity contract with Transamerica via an investment in the Stable Value Advantage Option. As of December 31, 2008, the Plan participated in a group annuity contract with Great-West via an investment in the Guaranteed Portfolio Fund. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Asset Available for Benefits present the fair value of the investment contracts, with an adjustment of the fully benefit-responsive investment contracts from fair value to contract value (if necessary). The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. As of December 31, 2009 and 2008, fair value approximates contract value. Therefore, no adjustment to contract value is necessary.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All reasonable expenses related to the Plan administration will be paid from Plan assets, except to the extent the expenses are paid by the Company.

Excess Contributions Refundable to Participants

To satisfy the relevant non-discrimination provisions of the Plan, the Plan recorded a liability of $14,941 and $2,055 as of December 31, 2009 and 2008, respectively, with a corresponding reduction to contributions from participants. The Plan refunded the above amounts to Plan participants within 2 ½ months of year end.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES – CONTINUED

Income Taxes

On January 1, 2009, the Plan implemented the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 740, *Income Taxes*, relating to accounting for uncertainties in income taxes. The new accounting standard requires recording uncertain tax positions that exist in the Plan's financial statements. The new standard was effective for the Plan as of January 1, 2009. Plan management has determined there are no uncertain tax positions requiring adjustment or disclosure in the Plan's financial statements. The Plan is not a tax paying entity for income tax purposes and, accordingly, no provision has been made for income taxes.

New Accounting Pronouncements

In June 2009, the FASB issued ASC 105, *Generally Accepted Accounting Principles*, which establishes the FASB ASC as the sole source of authoritative generally accepted accounting principles. Pursuant to the provisions of FASB ASC 105, the Plan has updated references to generally accepted accounting principles in its financial statements issued for the year ended December 31, 2009. The adoption of FASB ASC 105 did not impact the Plan's Statements of Net Assets Available for Benefits or Statement of Changes in Net Assets Available for Benefits.

In May 2009, the FASB issued ASC 855, *Subsequent Events*, which establishes general standards of accounting for and disclosure of events that occur after the statements of net assets available for benefits date but before financial statements are issued or are available to be issued. The adoption of this new guidance did not impact the Plan's financial statements. See Note 11 for subsequent event disclosures.

During the year ended December 31, 2009, the Plan's investments (including gains and losses on investments bought, sold and held during the year) appreciated in value as follows:

Pooled separate accounts	$ 183,679

NOTE 4. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Pooled separate accounts: Valued according to the formula in the annuity based on quoted market prices of underlying investments adjusted for expenses stated in the group annuity contract.

Stable value investment: Valued at contract value, which approximates fair value (see Note 5).

Participant loans: Valued at amortized cost, which approximates fair value.

NOTE 4. FAIR VALUE MEASUREMENTS – CONTINUED

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the classification of the securities by level at December 31, 2009:

	Level 1	Level 2	Level 3	Total
Plan Assets				
Pooled separate accounts				
Bond funds	$ -	$ 29,503	$ -	$ 29,503

NOTE 5. INVESTMENT CONTRACTS WITH INSURANCE COMPANIES

The Plan's investments are held in a benefit-responsive group annuity investment contract with Transamerica. The contract includes the Stable Value Advantage Option, which is a general account product. The account is credited with deposits made to the contract, plus interest credited, less any withdrawals and charges or expenses. The issuer is contractually obligated to repay the principal and a specified interest rate established monthly by the issuer.

As described in Note 2, because the Stable Value Advantage Option is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Stable Value Advantage Option. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and charges or expenses. Participants may ordinarily direct the withdrawal or transfer to other investments, except for any competing fixed funds, of all or a portion of their investments at contract value, without incurring any charges or penalties.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Interest is credited, based upon the daily balance, at a rate that is the daily equivalent of the effective annual rate of interest applicable for each month. There is no stated minimum or maximum interest rate for the Stable Value Advantage Option.

Since contract value approximates fair value, the average yield earned by the Plan is equal to the average yield earned by the Plan adjusted to reflect the actual interest rate credited to Plan participants. The average yield for the Stable Value Advantage Option for 2009 is 3.49%.

NOTE 5. INVESTMENT CONTRACTS WITH INSURANCE COMPANIES – CONTINUED

Certain events allow the issuer to terminate the contract and could limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) the Plan is changed so as to significantly affect the issuer's obligations under the contract, (2) the contract can no longer be treated as a Pension Plan Contract, as that term is defined under the IRC, and the issuer determines that it is not practical to continue the provision of benefits under the contract, (3) the Plan is terminated, (4) the Plan fails to comply with the requirements under the contract, (5) the Plan, except by unintentional omission, fails to provide information needed under the contract or to furnish a copy of any amendments to the Plan or annual report records, or (6) the sum of contract account values equals $20,000 or less. The Plan administrator does not believe any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Prior to the change in custodian effective October 1, 2009, the Plan's investments were held in a benefit-responsive group annuity investment contract with Great-West. The contract included the Guaranteed Portfolio Fund, which is a general account product. The account was credited with deposits made to the contract, plus earnings on the underlying investments, and charged with participant withdrawals and administrative expenses. The issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan.

As described in Note 2, because the Guaranteed Portfolio Fund was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Guaranteed Portfolio Fund. Contract value, as reported to the Plan by Great-West, represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants were permitted to ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The methodology for calculating the interest crediting rate was based on the earnings of the underlying assets in the entire medium-long-term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Interest crediting rate was reset quarterly.

Since contract value approximated fair value, the average yield earned by the Plan was equal to the average yield earned by the Plan adjusted to reflect the actual interest rate credited to Plan participants. The average yield for the Guaranteed Portfolio Fund for 2009 and 2008 was 2.96% and 3.33%, respectively.

NOTE 5. INVESTMENT CONTRACTS WITH INSURANCE COMPANIES – CONTINUED

Certain events allowed the issuer to terminate the Guaranteed Portfolio Fund and could have limited the ability of the Plan to transact at contract value with the issuer. Such events included the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) failure to comply with the provisions of the contract, (3) Plan disqualification under the IRC Section 401(a), (4) less than $25,000 in deposits received in the preceding twelve months, (5) drop in sum of all participant annuity account values below $25,000, (6) failure to make deposits deducted from participants' paychecks within 90 days of the date of such deduction, or (7) transfers to investment vehicles outside the group annuity contract in excess of contract limitations. The Plan terminated its contract with the issuer effective September 30, 2009. However, this event did not limit the Plan's ability to transact at contract value with participants.

NOTE 6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

NOTE 7. INCOME TAX STATUS

The Employer has adopted and followed the terms of a prototype plan, as submitted to the Internal Revenue Service (IRS). The Employer has relied on the favorable opinion letter issued by the IRS on November 27, 2001 regarding the acceptability of the prototype plan under section 401 of the IRC as not subject to tax under present income tax laws. Although the prototype plan and the Plan have been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements and accompanying supplemental schedule.

NOTE 9. PARTY-IN-INTEREST

Certain Plan investments for the periods January 1, 2009 to September 30, 2009 and October 1, 2009 to December 31, 2009 are units of pooled separate accounts and stable value investment accounts managed respectively by Great-West and Transamerica, the custodians of the Plan. Therefore, these transactions qualify as party-in-interest transactions.

NOTE 10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Under accounting principles generally accepted in the United States of America, excess contributions refunded within 2 ½ months subsequent to the Plan's year-end are required to be netted against contributions and recorded as a liability on the financial statements of the Plan in the year contributions were originally made. However, Form 5500 requires that all excess contribution refunds be recorded as a distribution in the year they are paid. Excess contribution refunds pertaining to Plan years 2009 and 2008 totaled $14,941 and $2,055, respectively.

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 and 2008 to Form 5500:

	2009	2008
Net assets available for benefits per financial statements	$ 932,672	$ 611,306
Add: Excess contributions refundable to participants	14,941	2,055
Net assets available for benefits per Form 5500	$ 947,613	$ 613,361

The following is a reconciliation of participant contributions per the financial statements for the year ended December 31, 2009 to Form 5500:

Participant contributions per financial statements	$ 90,567
Add: Excess contributions refundable to participants	14,941
Participant contributions per Form 5500	$ 105,508

NOTE 11. SUBSEQUENT EVENTS

Management evaluated all events or transactions that occurred after December 31, 2009 through July 28, 2010, the date the financial statements were available for issuance.

Effective January 1, 2010, the Plan adopted provisions of the Malcolm Thompson and Associates Volume Submitter 401(k) Profit Sharing Plan.
