Independent Auditor's Report

We were engaged to audit the statements of net assets available for benefits of Encore Electric, Inc. 401(k) Plan as of December 31, 2011 and 2010 and the related statements of changes in net assets available for benefits for the years then ended and the supplemental schedule of assets (held at end of year) as of and for the year ended December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by Principal Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. The plan administrator has informed us that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2011 and 2010 financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

The following description of Encore Electric, Inc. 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, which became effective October 1, 2006, is a defined contribution plan covering all employees of Encore Electric, Inc. ("the Company") who have thirty days of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation.

Contributions

Each year, participants may contribute an amount per pay period equal to at least 1%, but no more than 100% of annual compensation, as defined in the Plan. Deferral contributions shall not exceed certain limits as set forth by the Internal Revenue Code ($16,500 for 2011 and 2010). The Internal Revenue Service adjusts this limitation each year for cost of living increases. Participants may change their contribution percentage throughout the year and may cease making contributions at any time.

The Company may contribute amounts as a match of participant elective contributions for the Plan year. The amount of the match will equal such an amount as the employer deems appropriate except that a participant's elective contributions in excess of a percentage of compensation for the payroll period as determined by the Company shall not be taken into account.

In addition to match contributions, the Company also has a special provision to comply with the Davis Bacon Wage Act. The company may contribute amounts as determined under the Act.

Rollover contributions transferred from other qualified retirement plans or from Individual Retirement Accounts are accepted as permitted by the Plan.

Participant accounts

Each participant's account is credited with the participant's contributions and allocation of (a) the Company's contribution, and, (b) Plan earnings. In addition, participant accounts are charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (continued)

Vesting

Participants are immediately 100% vested in their contributions plus actual earnings thereon. Vesting in the Company's matching portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested in the Company's matching contributions after one year of continuous service.

Forfeitures

Pursuant to the Plan, forfeitures shall be utilized to offset expenses and employer contributions. Total forfeitures used for these purposes in 2011 and 2010 were approximately $3,300 and $2,700, respectively.

Participant loans

The Plan allows for loans to be taken against the vested benefits of a participant's account. The term of the loan is a maximum of five years unless the loan is for the purchase of a primary residence. A participant may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of 50% of their vested account balance or $50,000 minus the difference of the largest unpaid loan balance during the last twelve months and the unpaid loan balance outstanding the day the loan is made. The interest rate charged for loans are determined by Principal which are similar to commercial lending rates.

As of December 31, 2011 and 2010, there were forty-five and thirty-four outstanding participant loans maturing in five years or less, with principal balances of $301,911 and $162,454, respectively.

Payment of benefits

In the event of termination of services, retirement, disability or death, a participant will receive their accumulated contributions made to the plan, the vested portion of the accumulated contributions made by the Company and the investment earnings that have accumulated on those contributions while they were in the plan. Benefits can be rolled into another qualified plan, received in a lump-sum or paid in installments over a specific period based on age at retirement. Account balances less than $1,000 at termination will be rolled to another qualified plan or paid in a lump sum

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Administrative fees

At the Company's discretion the Company or the Plan is to pay administrative fees.

Investment valuation and income recognition

The Plan's investments are held in pooled separate accounts managed by Principal Life Insurance Company, an investment contract with Principal Life Insurance Company and individual mutual funds. Plan assets are stated at fair value. Investments in pooled separate accounts are valued using the net asset value of the underlying mutual fund investment. The investment contract with Principal Life Insurance Company is valued based on the amount Plan participants would receive were they to withdraw their funds prior to maturity of the contract. Investments in mutual funds are valued at quoted market prices that represent the net asset value of shares held by the Plan at year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Payment of benefits

Benefits are recorded when paid.

4. Fair Value Measurements

During 2008, the Plan adopted Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC") Topic 820, *Fair Value Measurements and Disclosures*. FASB ASC Topic 820 establishes a single authoritative definition of fair value and sets a hierarchy for measuring fair value. The adoption of FASB ASC Topic 820 has no impact on the Plan's accounting policies for investments, but requires additional disclosures about fair value measurement. The hierarchy for measuring fair value prioritizes the inputs to valuation techniques used to measure fair value and gives the highest priority to unadjusted quoted prices for securities traded in active markets (level 1) and the lowest priority to unobservable inputs (level 3). The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The hierarchies for measuring fair value under FASB ASC Topic 820 are as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for financial instruments traded in active markets.

Level 2 – Inputs to the valuation methodology include quoted prices for financial instruments not traded in active markets, quoted prices for similar financial instruments traded in active markets and inputs other than quoted prices for which all significant inputs are observable, either directly or indirectly. In addition, inputs that are derived principally from or corroborated by observable market data by correlation or other means are also included in the valuation methodology.

Level 3 – Inputs to the valuation methodology include prices or valuations of financial instruments that are not traded in active markets and inputs significant to the fair value measurement are unobservable.

As required by FASB ASC Topic 820, the Plan's portfolio investments as of December 31, 2011 were classified as follows, based on the lowest level of input that is significant to the fair value measurement:

Description	Level 1	Level 2	Level 3	Totals
Guaranteed interest investment contract	$ -	$ -	$ 194,099	$ 194,099
Mutual funds	1,032,950		-	1,032,950
Pooled separate accounts	-	6,775,317	-	6,775,317
Principal U.S. Property separate account	-	-	423,437	423,437
	$ 1,032,950	$ 6,775,317	$ 617,536	$ 8,425,803

4. Fair Value Measurements (continued)

As required by FASB ASC 820, the Plan's portfolio investments as of December 31, 2010 were classified as follows, based on the lowest level of input that is significant to the fair value measurement:

Description	Level 1	Level 2	Level 3	Totals
Guaranteed interest investment contract	$ -	$ -	$ 177,396	$ 177,396
Mutual funds	711,859		-	711,859
Pooled separate accounts	-	6,546,814	-	6,546,814
Principal U.S. Property separate account	-	-	409,244	409,244
	$ 711,859	$ 6,546,814	$ 586,640	$ 7,845,313

Total portfolio investments of the Plan classified within level 3 total $617,536 and $586,640 as of December 31, 2011 and 2010, respectively, which consist of the Plan's guaranteed interest investment contract and the U.S Property separate account. Such amounts represent approximately 7% of the Plans' net assets available for benefits as of December 31, 2011 and 2010, respectively.

As required by FASB ASC 820, the following is a reconciliation of the changes in the fair value of the Plan's level 3 investment assets for the year ended December 31, 2011:

	Principal U.S. Property Separate Account	Guaranteed Interest Account	Participant Loans	Total
Balance, December 31, 2010	$ 409,244	$ 177,396	$ 162,454	$ 749,094
Total gains, realized and unrealized	11,482	835	-	12,317
Interest	-	4,410	-	4,410
Purchases, issuances and settlements, net	2,711	11,458	139,457	153,626
Balance, December 31, 2011	$ 423,437	$ 194,099	$ 301,911	$ 919,446
Total unrealized gains	$ 12,954	$ 835	$ -	$ 13,789

4. Fair Value Measurements (continued)

In addition to quoted market prices in active markets, valuation techniques for level 3 inputs for Principal U.S. Property Separate Account were based on the appraised fair value of the real estate holdings in the account's portfolio. Level 3 inputs for the Guaranteed Interest Account were based on the amount participants would receive currently if they were to withdraw funds prior to maturity for an event other than death, disability, termination or retirement. This value represents contract value adjusted to reflect current market interest rates to the extent that current market rates exceed the contract crediting rates. Level 3 inputs for participant loans were based on stated interest rates, and payment history of participant loans held by the Plan.

5. Investment Contract with Insurance Company

The Plan entered into a non-benefit responsive investment contract with Principal Life Insurance Company. The contract offers a fixed interest investment option, the Guaranteed Interest Account, and a number of variable investment options held by Principal Life Insurance Company in pooled separate accounts. Participants investing in the pooled separate accounts can select the investment options that reflect their individual investment style and risk tolerance. A distribution from the Guaranteed Interest Account for termination, death, disability or retirement will be paid at contract value; however, there is a possible surrender charge if funds are withdrawn prior to their maturity. If the Plan withdraws or transfers funds prior to their maturity, the Plan would receive fair market value. Fair market value represents contract value adjusted to reflect current market interest rates to the extent that current market rates exceed contract crediting rates.

Contributions allocated to the Guaranteed Interest Account earn interest at the rate in effect on the day when each deposit is directed into the account. All rates credited during a twelve month period are averaged into a single composite rate.

6. Tax Status

Compliance

The Internal Revenue Service has determined and informed Principal Life Insurance Company, the Plan's third party administrator, by a letter dated July 22, 2003 that the prototype Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

6. Tax Status (continued)

Compliance (continued)

The plan was amended effective January 2, 2008 to allow employees to make Roth elective deferral contributions. Participant contributions for December 31, 2008 and future years include pre-tax elective deferral contributions, as permitted by §401(k) of the Internal Revenue Code and Roth elective deferral contributions, which reflect after-tax dollars. Pre-tax earnings deferrals are subject to federal income taxes when distributed to participants. After-tax earnings deferred into a Roth 401(k) account are not subject to federal income taxes when distributed to participants. Earnings from the Plan's investments are not taxable to the participants until partial or complete distribution of such earnings is made. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Uncertain tax positions

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

7. Reconciliation of Financial Statement to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statement at December 31, 2011 and 2010 and the related Form 5500:

	2011	2010
Net assets available for benefits per Form 5500	$ 8,756,858	$ 8,007,767
December contributions received in January	29,452	-
Excess contributions refundable to participants	(3,967)	-
Net assets available for benefits per the financial statements	$ 8,782,343	$ 8,007,767

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their total accounts.

9. Information Prepared and Certified by Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

	2011	2010
Investments at fair value:		
Mutual funds	$ 1,032,950	$ 711,859
Pooled separate accounts	7,198,754	6,956,058
Guaranteed interest fund	194,099	177,396
Net investments available for benefits	$ 8,425,803	$ 7,845,313
Participant loans	$ 301,911	$ 162,454
Investment gain(loss), as certified by trustee	$ (153,204)	$ 975,523

10. Refunds of Excess Contributions

In order to satisfy the relevant non-discrimination provisions of the Plan, excess deferral contributions were refunded to certain participants in 2012 for the year ended December 31, 2011; the amount refunded was $3,967.

11. Risks and Uncertainties

The Plan is required by FASB ASC Topic 825, *Financial Instruments,* to disclose significant concentrations of credit risk regardless of the degree of such risk. At December 31, 2011 and 2010, the financial instruments that potentially subject the Plan to a concentration of credit risk consist principally of investments.

The Plan provides for various investment options. Investment securities, in general, are exposed to various risks, such as interest rates, credit, and overall market volatility risk. Due to the level of risk associated with investment securities, it is reasonably possible that changes in value of investment securities will occur in the near term and that such change could materially affect participants' account balances and amount presented in the statements of net assets available for benefits.

12. Party-In-Interest and Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Principal Life Insurance Company, the asset custodian of the Plan as of December 31, 2011 and 2010. These transactions qualify as exempt party-in-interest transactions.

13. Subsequent Events

Subsequent events have been evaluated by management as of the date of these financial statements. This date represents the date the financial statements were available to be issued.
