Independent Auditor's Report

Profit Sharing and Savings Plan Committee
Gold Eagle Company Profit Sharing and Savings Plan
Chicago, Illinois

We were engaged to audit the financial statements of **Gold Eagle Company Profit Sharing and Savings Plan** as of December 31, 2011, and for the year then ended, and the supplemental schedule as of December 31, 2011, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management. Blackman Kallick, LLP was engaged to audit the financial statement of the plan as of December 31, 2010 and their report dated July 25, 2011, expressed a disclaimer of opinion on those statements for the same circumstances indicated below. Blackman Kallick, LLP subsequently merged into Plante & Moran, PLLC.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2011, and for the year ended December 31, 2011, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2011 financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the 2011 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of Gold Eagle Company Profit Sharing and Savings Plan (the Plan), as amended, provides only certain information regarding the Plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a contributory profit sharing plan and a 401(k) savings plan covering all eligible employees of Gold Eagle Company (the company). An employee becomes eligible to participate in the 401(k) savings portion of the Plan immediately upon employment, while an employee becomes eligible to participate in the profit sharing portion of the Plan upon completion of one year of service (at least 1,000 hours of service). The profit sharing portion of the Plan is funded by discretionary contributions made by the company. The 401(k) savings portion of the Plan permits voluntary contributions by participants of up to 30% of their compensation. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to the limitations of the Internal Revenue Code.

Participant Accounts

One account is maintained for each participant detailing employee assets originating from company profit sharing contributions, employee 401(k) voluntary contributions, company 401(k) discretionary matching contributions and qualified rollover contributions. Effective May 1, 2007, eligible employees will be automatically enrolled in the Plan 30 days following the participant's hire date, unless the eligible employee elects otherwise.

Each participant's account can be changed by the following:

Type of Change	Method of Allocation
Company profit sharing contribution	Eligible compensation for the year, as a percent of total eligible compensation
Employee 401(k) voluntary contribution and qualified rollover contribution	Credited to participant's own account
Company 401(k) matching contribution	For every $1 contributed by the participant, a company contribution of $.50 up to a maximum of total eligible compensation, not to exceed $1,000 for the Plan year
Forfeitures of terminated participants	Eligible compensation for the year, as a percent of total eligible compensation
Earnings or losses, net of administrative expenses	Quarterly, on a fund-by-fund basis based on the participant's proportionate prior quarter fund balance after adjustment for distributions, contributions and employee loans made during the current quarter

Note 1 - Description of Plan (Continued)

Vesting

Vesting in the company profit sharing contribution portion of participant accounts, for participants who are active on or after September 1, 2010, is as follows:

Number of Completed Years of Service	Vested Portion of Account Balance
Less than one year	0%
At least one year but less than two years	10
At least two years but less than three years	20
At least three years but less than four years	40
At least four years but less than five years	60
At least five years but less than six years	80
Six years or more	100

Vesting in the company profit sharing contribution portion of participant accounts prior to September 1, 2010, was as follows:

Number of Completed Years of Service	Vested Portion of Account Balance
Less than one year	0%
At least one year but less than two years	10
At least two years but less than three years	20
At least three years but less than four years	30
At least four years but less than five years	40
At least five years but less than six years	60
At least six years but less than seven years	80
Seven years or more	100

In the event of death, permanent disability or retirement, a participant's company profit sharing contribution portion of his or her account becomes fully vested. Participants are immediately vested in their 401(k) voluntary contribution and the company 401(k) matching contribution portions of their accounts.

Note 1 - Description of Plan (Continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as transfers to (from) the investment fund from (to) the participant loan fund. Loan terms range from one to five years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a fixed rate as determined by the Plan administrator, based on the prevailing interest rates charged by lending institutions. Principal and interest are paid ratably through monthly payroll deductions. A participant may have a maximum of two loans outstanding at any given time.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a 10-year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeiture

The Plan maintains a forfeiture suspense account for each participant who is less than 100% vested and has terminated his or her employment with the company. Participant forfeitures are used to reduce administrative expenses or to reduce employer contributions. For the years ended December 31, 2011 and 2010, forfeitures in the amount of $15,223 and $16,000, respectively, were used to reduce employer contributions.

Administration of the Plan and Trust

The Gold Eagle Company Profit Sharing and Savings Plan Committee, which is appointed by the company's board of directors, administers the Plan. Fidelity Management Trust Company (the trustee), acts as custodian for the Plan's assets, which are held in a trust. According to an agreement between the trustee and the company, the trustee invests the assets of the trust and makes payments to participants as directed by the Plan's participants. Certain expenses incurred in connection with the administration of the Plan are paid by the company.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Note 2 - Summary of Significant Accounting Policies (Continued)

Fidelity Managed Income Portfolio

Under accounting principles generally accepted in the United States of America (GAAPUSA), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. GAAPUSA requires investments in fully benefit-responsive investment contracts to be presented at fair value in the statement of net assets available for benefits, and that the amount representing the difference between fair value and contract value of these investments also to be presented as a separate line item in the statement of net assets available for benefits. The Fidelity Managed Income Portfolio qualifies as a fully benefit-responsive investment contract under the provisions of GAAPUSA. Therefore, the statement of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. See Note 3 for a discussion of fair value measurements.

Participants may change their investment options on a daily basis. The assets, which are participant-directed, are currently invested in 52 investment options (49 as of December 31, 2010) of the Fidelity Investments Trust for Employee Benefits Plan.

Effective January 1, 2011, the Plan adopted new guidance that requires the reconciliation of changes in Level 3 fair value measurements to present purchases, sales and settlements separately on a gross basis rather than as a net amount. The adoption of this guidance did not have an impact on the Plan's financial statements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan's investments are exposed to various risks, such as interest rate, credit and overall market volatility. Due to these risk factors, it is reasonably possible that changes in the value of investments will occur in the near term and could materially affect the amounts reported in the financial statements.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Note 2 - Summary of Significant Accounting Policies (Continued)

Management Estimates

The preparation of financial statements in conformity with GAAPUSA requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid**.**

Subsequent Events

The Plan sponsor has evaluated subsequent events through October 2, 2012, the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

GAAPUSA defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal market or, in the absence of a principal market, the most advantageous market accessible to the reporting entity as of the measurement date. Under GAAPUSA, the principal market is the market in which the reporting entity would sell the asset or transfer the liability with the greatest volume and level of activity. The most advantageous market, which may be a hypothetical market, is the market in which the reporting entity would sell the asset or transfer the liability with the price that maximizes the amount that would be received for the asset or minimizes the amount that would be paid to transfer the liability, considering transaction costs in the respective market.

GAAPUSA describes three approaches to measuring fair value: the market approach, the income approach and the cost approach. Each approach includes multiple valuation techniques. GAAPUSA does not prescribe which valuation technique should be used when measuring fair value, but does establish a fair value hierarchy that prioritizes the inputs used in applying the various techniques based on the degree to which such inputs are observable to market participants. Inputs broadly refer to the assumptions that market participants use to make pricing decisions, including assumptions about risk.

The Plan's investments are classified in one of the following three categories based on the inputs used to determine their respective fair values.

- Level 1 - Quoted prices (unadjusted) for identical assets or liabilities in active markets as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.

Note 3 - Fair Value Measurements (Continued)

- Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data. These inputs may include quoted prices for similar assets or liabilities in active markets as well as quoted prices for identical or similar assets or liabilities in inactive markets.

- Level 3 - Unobservable inputs that cannot be corroborated by market data. These inputs reflect management's best estimate of fair value using its own assumptions about the assumptions a market participant would use in pricing the asset or liability.

When the inputs used to value an investment fall into more than one level, the investment is classified in its entirety based on the lowest level input that is significant to that investment's fair value measurement. Management's assessment of the significance of a particular input to the fair value measurement requires judgment and is dependent on factors specific to the investment. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

As of December 31, 2011 and 2010, the following methodologies have been used to value the Plan's investments:

- Mutual funds - Valued at the reported NAV of the shares held by the Plan at year-end.

- Common collective trusts - Valued at the net asset value (NAV) per unit as determined by the manager or administrator of the trust. Such NAV is based on the value of the underlying assets and liabilities of the trust. The investment objective of the trust held by the Plan is to preserve principal and provide a stable return over the life of the investment. Participants may transfer funds in and out of the trust on a daily basis without any prohibitive restrictions.

The methods described above might produce a fair value calculation that might not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the different methodologies or assumptions used to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

Note 3 - Fair Value Measurements (Continued)

The following tables summarize by level within the fair value hierarchy the Plan's investments accounted for at fair value on a recurring basis as of December 31, 2011 and 2010:

		Fair Value Measurements as of Reporting Date Using:

Note 4 - Investments

The following table presents investments that represent 5% or more of the Plan's net assets as of December 31, 2011 or 2010.

	2011		2010	
	Number of Shares	Fair Value	Number of Shares	Fair Value

Fidelity Balanced Fund	68,428	1,244,027	100,305	1,828,569

For the year ended December 31, 2011, the Plan's investments in mutual funds (including gains and losses on investments bought and sold as well as held during the year) depreciated by $818,427.

The Plan sponsor has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of the plan's investments reflected in the statements of net assets available for benefits as of December 31, 2011 and 2010, the schedule of assets held at end of year as of December 31, 2011 and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2011, as indicated above and in total.

Note 5 - Related Party Transactions

The Plan's investments are shares of mutual funds and a common collective trust managed by Fidelity Management Trust Company in addition to four funds not managed by Fidelity. Fidelity Management Trust Company is the trustee of the Plan and, therefore, such investment transactions and custodial fees qualify as party-in-interest transactions. Fees paid by the Plan for custodial services were $7,089 for 2011.

Note 6 - Plan Termination

Although the company has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7 - Tax Status

The Plan adopted the Fidelity Management & Research Company Prototype Nonstandardized Safe Harbor Profit Sharing Plan with CODA. The Internal Revenue Service has determined and informed Fidelity by a letter, dated October 25, 2000, which was updated on October 9, 2003 for amendments that the Plan qualifies under Section 401(a) of the Internal Revenue Code. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The Plan administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

GAAPUSA requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2008.

Note 8 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of nets assets available for benefits per the financial statements to Form 5500 as of December 31, 2011:

Independent Auditor's Report

Profit Sharing and Savings Plan Committee
Gold Eagle Company Profit Sharing and Savings Plan
Chicago, Illinois

We were engaged to audit the financial statements of **Gold Eagle Company Profit Sharing and Savings Plan** as of December 31, 2011, and for the year then ended, and the supplemental schedule as of December 31, 2011, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management. Blackman Kallick, LLP was engaged to audit the financial statement of the plan as of December 31, 2010 and their report dated July 25, 2011, expressed a disclaimer of opinion on those statements for the same circumstances indicated below. Blackman Kallick, LLP subsequently merged into Plante & Moran, PLLC.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2011, and for the year ended December 31, 2011, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2011 financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the 2011 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of Gold Eagle Company Profit Sharing and Savings Plan (the Plan), as amended, provides only certain information regarding the Plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a contributory profit sharing plan and a 401(k) savings plan covering all eligible employees of Gold Eagle Company (the company). An employee becomes eligible to participate in the 401(k) savings portion of the Plan immediately upon employment, while an employee becomes eligible to participate in the profit sharing portion of the Plan upon completion of one year of service (at least 1,000 hours of service). The profit sharing portion of the Plan is funded by discretionary contributions made by the company. The 401(k) savings portion of the Plan permits voluntary contributions by participants of up to 30% of their compensation. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to the limitations of the Internal Revenue Code.

Participant Accounts

One account is maintained for each participant detailing employee assets originating from company profit sharing contributions, employee 401(k) voluntary contributions, company 401(k) discretionary matching contributions and qualified rollover contributions. Effective May 1, 2007, eligible employees will be automatically enrolled in the Plan 30 days following the participant's hire date, unless the eligible employee elects otherwise.

Each participant's account can be changed by the following:

Type of Change	Method of Allocation
Company profit sharing contribution	Eligible compensation for the year, as a percent of total eligible compensation
Employee 401(k) voluntary contribution and qualified rollover contribution	Credited to participant's own account
Company 401(k) matching contribution	For every $1 contributed by the participant, a company contribution of $.50 up to a maximum of total eligible compensation, not to exceed $1,000 for the Plan year
Forfeitures of terminated participants	Eligible compensation for the year, as a percent of total eligible compensation
Earnings or losses, net of administrative expenses	Quarterly, on a fund-by-fund basis based on the participant's proportionate prior quarter fund balance after adjustment for distributions, contributions and employee loans made during the current quarter

Note 1 - Description of Plan (Continued)

Vesting

Vesting in the company profit sharing contribution portion of participant accounts, for participants who are active on or after September 1, 2010, is as follows:

Number of Completed Years of Service	Vested Portion of Account Balance
Less than one year	0%
At least one year but less than two years	10
At least two years but less than three years	20
At least three years but less than four years	40
At least four years but less than five years	60
At least five years but less than six years	80
Six years or more	100

Vesting in the company profit sharing contribution portion of participant accounts prior to September 1, 2010, was as follows:

Number of Completed Years of Service	Vested Portion of Account Balance
Less than one year	0%
At least one year but less than two years	10
At least two years but less than three years	20
At least three years but less than four years	30
At least four years but less than five years	40
At least five years but less than six years	60
At least six years but less than seven years	80
Seven years or more	100

In the event of death, permanent disability or retirement, a participant's company profit sharing contribution portion of his or her account becomes fully vested. Participants are immediately vested in their 401(k) voluntary contribution and the company 401(k) matching contribution portions of their accounts.

Note 1 - Description of Plan (Continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as transfers to (from) the investment fund from (to) the participant loan fund. Loan terms range from one to five years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a fixed rate as determined by the Plan administrator, based on the prevailing interest rates charged by lending institutions. Principal and interest are paid ratably through monthly payroll deductions. A participant may have a maximum of two loans outstanding at any given time.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a 10-year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeiture

The Plan maintains a forfeiture suspense account for each participant who is less than 100% vested and has terminated his or her employment with the company. Participant forfeitures are used to reduce administrative expenses or to reduce employer contributions. For the years ended December 31, 2011 and 2010, forfeitures in the amount of $15,223 and $16,000, respectively, were used to reduce employer contributions.

Administration of the Plan and Trust

The Gold Eagle Company Profit Sharing and Savings Plan Committee, which is appointed by the company's board of directors, administers the Plan. Fidelity Management Trust Company (the trustee), acts as custodian for the Plan's assets, which are held in a trust. According to an agreement between the trustee and the company, the trustee invests the assets of the trust and makes payments to participants as directed by the Plan's participants. Certain expenses incurred in connection with the administration of the Plan are paid by the company.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Note 2 - Summary of Significant Accounting Policies (Continued)

Fidelity Managed Income Portfolio

Under accounting principles generally accepted in the United States of America (GAAPUSA), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. GAAPUSA requires investments in fully benefit-responsive investment contracts to be presented at fair value in the statement of net assets available for benefits, and that the amount representing the difference between fair value and contract value of these investments also to be presented as a separate line item in the statement of net assets available for benefits. The Fidelity Managed Income Portfolio qualifies as a fully benefit-responsive investment contract under the provisions of GAAPUSA. Therefore, the statement of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. See Note 3 for a discussion of fair value measurements.

Participants may change their investment options on a daily basis. The assets, which are participant-directed, are currently invested in 52 investment options (49 as of December 31, 2010) of the Fidelity Investments Trust for Employee Benefits Plan.

Effective January 1, 2011, the Plan adopted new guidance that requires the reconciliation of changes in Level 3 fair value measurements to present purchases, sales and settlements separately on a gross basis rather than as a net amount. The adoption of this guidance did not have an impact on the Plan's financial statements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan's investments are exposed to various risks, such as interest rate, credit and overall market volatility. Due to these risk factors, it is reasonably possible that changes in the value of investments will occur in the near term and could materially affect the amounts reported in the financial statements.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Note 2 - Summary of Significant Accounting Policies (Continued)

Management Estimates

The preparation of financial statements in conformity with GAAPUSA requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid**.**

Subsequent Events

The Plan sponsor has evaluated subsequent events through October 2, 2012, the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

GAAPUSA defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal market or, in the absence of a principal market, the most advantageous market accessible to the reporting entity as of the measurement date. Under GAAPUSA, the principal market is the market in which the reporting entity would sell the asset or transfer the liability with the greatest volume and level of activity. The most advantageous market, which may be a hypothetical market, is the market in which the reporting entity would sell the asset or transfer the liability with the price that maximizes the amount that would be received for the asset or minimizes the amount that would be paid to transfer the liability, considering transaction costs in the respective market.

GAAPUSA describes three approaches to measuring fair value: the market approach, the income approach and the cost approach. Each approach includes multiple valuation techniques. GAAPUSA does not prescribe which valuation technique should be used when measuring fair value, but does establish a fair value hierarchy that prioritizes the inputs used in applying the various techniques based on the degree to which such inputs are observable to market participants. Inputs broadly refer to the assumptions that market participants use to make pricing decisions, including assumptions about risk.

The Plan's investments are classified in one of the following three categories based on the inputs used to determine their respective fair values.

- Level 1 - Quoted prices (unadjusted) for identical assets or liabilities in active markets as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.

Note 3 - Fair Value Measurements (Continued)

- Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data. These inputs may include quoted prices for similar assets or liabilities in active markets as well as quoted prices for identical or similar assets or liabilities in inactive markets.

- Level 3 - Unobservable inputs that cannot be corroborated by market data. These inputs reflect management's best estimate of fair value using its own assumptions about the assumptions a market participant would use in pricing the asset or liability.

When the inputs used to value an investment fall into more than one level, the investment is classified in its entirety based on the lowest level input that is significant to that investment's fair value measurement. Management's assessment of the significance of a particular input to the fair value measurement requires judgment and is dependent on factors specific to the investment. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

As of December 31, 2011 and 2010, the following methodologies have been used to value the Plan's investments:

- Mutual funds - Valued at the reported NAV of the shares held by the Plan at year-end.

- Common collective trusts - Valued at the net asset value (NAV) per unit as determined by the manager or administrator of the trust. Such NAV is based on the value of the underlying assets and liabilities of the trust. The investment objective of the trust held by the Plan is to preserve principal and provide a stable return over the life of the investment. Participants may transfer funds in and out of the trust on a daily basis without any prohibitive restrictions.

The methods described above might produce a fair value calculation that might not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the different methodologies or assumptions used to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

Note 3 - Fair Value Measurements (Continued)

The following tables summarize by level within the fair value hierarchy the Plan's investments accounted for at fair value on a recurring basis as of December 31, 2011 and 2010:

		Fair Value Measurements as of Reporting Date Using:

The Plan did not have any transfers between Level 1 and Level 2 securities for the year ended December 31, 2011.

Note 4 - Investments

The following table presents investments that represent 5% or more of the Plan's net assets as of December 31, 2011 or 2010.

	2011		2010	
	Number of Shares	Fair Value	Number of Shares	Fair Value

Fidelity Balanced Fund	68,428	1,244,027	100,305	1,828,569

For the year ended December 31, 2011, the Plan's investments in mutual funds (including gains and losses on investments bought and sold as well as held during the year) depreciated by $818,427.

The Plan sponsor has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of the plan's investments reflected in the statements of net assets available for benefits as of December 31, 2011 and 2010, the schedule of assets held at end of year as of December 31, 2011 and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2011, as indicated above and in total.

Note 5 - Related Party Transactions

The Plan's investments are shares of mutual funds and a common collective trust managed by Fidelity Management Trust Company in addition to four funds not managed by Fidelity. Fidelity Management Trust Company is the trustee of the Plan and, therefore, such investment transactions and custodial fees qualify as party-in-interest transactions. Fees paid by the Plan for custodial services were $7,089 for 2011.

Note 6 - Plan Termination

Although the company has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7 - Tax Status

The Plan adopted the Fidelity Management & Research Company Prototype Nonstandardized Safe Harbor Profit Sharing Plan with CODA. The Internal Revenue Service has determined and informed Fidelity by a letter, dated October 25, 2000, which was updated on October 9, 2003 for amendments that the Plan qualifies under Section 401(a) of the Internal Revenue Code. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The Plan administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

GAAPUSA requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2008.

Note 8 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of nets assets available for benefits per the financial statements to Form 5500 as of December 31, 2011:
