Report of Independent Auditors

To the Participants and Plan Administrator
of the Dash Markets, Inc. 401(k) Profit Sharing Plan

We were engaged to audit the financial statements of the Dash Markets, Inc. 401(k) Profit Sharing Plan (the "Plan") as of and for the years ended December 31, 2011 and 2010, and the supplemental schedules as of and for the year ended December 31, 2011, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Nationwide Trust Company, FSB, the asset custodian, except for comparing such information with the related information included in the financial statements and supplemental schedule of assets (held at end of year). We have been informed by the plan administrator that the asset custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the asset custodian as of and for the years ended December 31, 2011 and 2010 that the information provided to the plan administrator by the asset custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the asset custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Profit Sharing Plan
Notes to Financial Statements
December 31, 2011 and 2010

1. Description of the Plan

The following brief description of the Dash Markets, Inc. 401(k) Profit Sharing Plan (the "Plan") is provided for general information purposes only. For more complete information, participants should refer to the plan agreement.

General – The Plan was established on October 1, 1988 and is sponsored by Dash Markets, Inc. (the "Company"). The Plan is a contributory defined contribution plan which covers substantially all employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Employees become eligible to participate in the Plan on the enrollment date coinciding with or following the date on which they attain age 21 and complete one year of service. The enrollment dates are the first day of each quarter.

Employees are eligible to receive an allocation of discretionary profit sharing contributions if they are both employed on the last day of the year and have completed 1,000 hours of service during the plan year. Employees are also eligible to receive an allocation of profit sharing contributions during a year in which they become disabled, deceased or retired, regardless of the number of hours of service credited in such year.

Contributions – Contributions to the Plan are made by the participants through salary reductions and by the Company through discretionary matching contributions and discretionary profit sharing contributions. Participants may elect to contribute a specified percentage of their compensation between 1% and 100%, subject to certain limitations under Sections 401(k) and 415 of the Internal Revenue Code. Participants may separately elect to defer up to 100% of any bonuses paid. Participants who are age 50 and over are able to elect to contribute an additional amount as a catch-up contribution allowed under Section 414(v). The Company did not elect to make discretionary matching or profit sharing contributions for the years ended December 31, 2011 and 2010.

In 2011 and 2010, the Company was delinquent on certain participant contributions to the Plan. All amounts were subsequently contributed to the Plan prior to the plan year-end. The impact on investment income as a result of the delinquent contributions is not expected to be significant.

Participant Accounts – Individual accounts are maintained for each plan participant. Participant accounts are increased by participant contributions, the Company's discretionary matching and profit sharing contributions, and the participant's share of any plan earnings. Participant accounts are decreased by participant distributions and the participant's share of plan expenses and losses. The allocation of earnings and losses to participant accounts is based on procedures set forth in the plan document. Upon death, disability, retirement or termination of employment, the vested benefits of a participant are calculated based on the valuation of their account at the date of distribution.

1. Description of the Plan (continued)

Investment Allocation – The investments are allocated to any combination of various investment securities, as directed by the participants. During 2011, the Invesco Van Kampen Corporate Bond A Fund, Invesco Energy Investor Fund, Pimco Real Return Inst Fund, Harbor International Investment Fund and Nationwide Destination 2045 A Fund were added as investment options. During 2011, the Invesco Leisure Investor Fund, Oppenheimer Small & Mid Cap Value A Fund, Mutual Shares A Fund, Eaton Vance Dividend Builder A Fund, Invesco High Yield Investor Fund, Invesco Small Cap Equity A Fund and Fidelity Advisor Leveraged Co Stock I Fund were removed as investment options.

Vesting – Participants are fully vested immediately in their contributions plus actual earnings thereon. If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, the participant will vest in their portion of the Company's discretionary matching and profit sharing contributions based on total years of service with the Company. Participants vest 20% per year after two years of service and are 100% vested after six years of service. If a participant is employed by the Company on the participant's normal retirement date (age 65), the date the participant becomes permanently disabled, or the date the participant dies, the participant's vested interest in their account balance will be 100%.

Payment of Benefits and Withdrawals – The Plan does not permit withdrawals during employment from participant accounts. Distributions under the Plan commence immediately if a participant dies or is permanently disabled.

Notes Receivable from Participants – The Plan does not provide for loans to participants.

Income Taxes – The prototype plan sponsor, Sungard Corbel LLC, has obtained an opinion letter dated March 31, 2008 in which the Internal Revenue Service stated that the prototype plan document was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the opinion letter and has not received a determination letter specific to the Plan itself, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in accordance with the Internal Revenue Code. Accordingly, no provision has been recorded for income taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

1. Description of the Plan (continued)

Income Taxes (continued) – The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Plan Termination – The Company may elect to discontinue the Plan at any time. Upon any such termination, the Company will distribute the Plan's assets to participants in accordance with the terms of the plan agreement.

2. Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Valuation of Investments – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion of fair value measurements.

Investment Income – Net appreciation or depreciation in the fair value of investments includes both realized gains and losses and unrealized appreciation and depreciation on the fair value of investments. Investment transactions are accounted for on the trade date.

Benefit Payments – Benefits are recorded when paid.

Party-in-Interest Transactions – Certain plan investments are shares of mutual funds managed by Nationwide Trust Company, FSB, the asset custodian, and accordingly qualify as party-in-interest transactions.

Administrative Expenses – During the years ended December 31, 2011 and 2010, the necessary expenses to administer the Plan were paid primarily out of plan assets.

Management Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits, changes therein, and disclosure of contingent net assets at the date of the financial statements. Actual results could differ from those estimates.

2. Significant Accounting Policies (continued)

Risks and Uncertainties – The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the balances of participant accounts and the amounts reported in the statements of net assets available for benefits.

Subsequent Events – The Plan has evaluated subsequent events through September 24, 2012, the date the financial statements were available to be issued and has identified no subsequent events for recognition or disclosure.

3. Fair Value

The Financial Accounting Standards Board ("FASB's") standard on fair value measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the standard are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

3. Fair Value (continued)

The Plan's investments are stated at fair value, based on the following methodology.

Mutual Funds – Valued at the unit value calculated based on the observable net asset value of the underlying investment.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011.

	Level 1	Level 2	Level 3	Total
Mutual funds	$ -	$ 1,969,170	$ -	$ 1,969,170
Total assets at fair value	$ -	$ 1,969,170	$ -	$ 1,969,170

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010.

	Level 1	Level 2	Level 3	Total
Mutual funds	$ -	$ 1,962,913	$ -	$ 1,962,913
Total assets at fair value	$ -	$ 1,962,913	$ -	$ 1,962,913

Changes in Fair Value Levels – The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2011 and 2010, there were no significant transfers in or out of levels 1, 2 or 3.
