AMERICAN TRANSIT INSURANCE COMPANY
401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following description of the American Transit Insurance Company 401(K) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution plan covering all employees who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective July 1, 2007 the Plan was amended and restated to include a 401(K) feature whereby participants may elect to contribute to the plan on a pre-tax basis. The Plan may make additional discretionary employer contributions.

b. Contributions

Each year, participants may contribute up to the Internal Revenue Service prescribed limits of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants are eligible to make salary deferrals upon reaching the age of twenty-one and three consecutive months of service. The Plan permits the Employer to contribute profit sharing contributions and qualified non-elective contributions at the sole discretion of the Employer. Profit sharing contributions will be allocated to eligible employees. In order to be eligible for a profit sharing contribution the employee must be actively employed on the last day of the plan year, reach the age of twenty-one and must have completed 1,000 hours of service during the Plan year. The Employer may make additional qualified non-elective contributions in order to help pass various non-discriminative tests for the 401(K) portion of the Plan. Contributions are subject to certain limitations. A profit sharing contribution in the amount of $300,000 was made for the Plan year ended December 31, 2011.

Note 1. Description of Plan - continued

c. Participant Accounts

Each participant's account is credited or charged with each participant's share of contributions and allocations of the Company's contributions, (if any) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based upon participant earnings or account balances, as defined.

d. Vesting

A participant is one hundred percent (100%) vested after five (5) years of continuous service for Employer profit sharing contributions. Employee contributions and additional qualified non-elective contributions (if made) plus earnings there on are immediately vested.

e. Notes receivable from participants

Participants may borrow up to 50% of their vested portion of their account subject to a maximum of $50,000 and a minimum of $1,000. Loans will bear interest at 2% above prime and principal and interest is to be paid ratably through bi-weekly payroll deductions.

f. Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or may delay the receipt of benefits, unless a distribution is required to be made as per Plan and IRS guidelines. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

g. Forfeited Accounts

At December 31, 2011 and 2010, forfeited non vested accounts totaled $-0- and $98,730, respectively. These accounts may be used to reduce future employer contributions. The Company reallocated $102,764 of participant forfeitures amongst active participants during the plan year.

Note 2. Summary of Significant Accounting Policies

Basis

The financial statements are prepared under the accrual basis of accounting.

Date of Management's Review

Subsequent events were evaluated through August 3, 2012, which is the date the financial statements were issued.

Investment Valuation

The Plan's investments are stated at fair value. If available, quoted market prices are used to value investments. Participant's loans are valued at their outstanding balances, which approximate fair value. The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Fair Value of Financial Instruments

The Plan's Management has estimated the fair value of financial instruments using available market information and other valuation methodologies in accordance with FASB ASC 825-10-50-10 formerly SFAS No. 107, "Disclosures About Fair Value of Financial Instruments". Management of the Plan believes that the fair value of financial instruments, consisting of accounts receivable and payable, approximates carrying value due to the short payment terms associated with its accounts receivable and payable.

In September 2006, the FASB issued FASB ASC 820 (formerly SFAS No. 157), Fair Value Measurements ("SFAS 157"), which defines fair value, establishes a framework for measuring fair value and requires additional disclosures about fair value measurements, SFAS 157 is effective for fiscal years beginning after November 15, 2007 with early adoption permitted; in November, 2007, the FASB agreed to defer the effective date of FASB ASC 820 for one year for all nonfinancial assets and nonfinancial liabilities, except for those items that are recognized or disclosed at fair value in the financial statements on a recurring basis. Generally, the provisions of this statement should be applied prospectively as of the beginning of the fiscal year which this statement is initially applied. The Plan adopted this statement effective January 1, 2008.

Note 2. Summary of Significant Accounting Policies – continued:

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires the plan administrators to make estimates and assumptions that affect certain reported amounts and disclosures at the date of the financial statements. Accordingly, actual results could differ from those estimates.

Payment of benefits

Benefits are recorded when paid.

Note 3. Unaudited Information Prepared and Certified by the Custodians

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the custodian.

Investments, at fair value:	December 31, 2011	December 31, 2010
Common/collective trust	$ 5,329,053	$ 5,029,200
Mutual Funds	1,174,687	892,192
Investment Contracts	152,158	85,912
Dividends and interest	19,961	20,501
Net (depreciation) appreciation of investments	(61,680)	708,351

Note 4. Investment Contract with Insurance Company

In 2010, the plan entered into a benefit-responsive guaranteed investment contract with Principal Life Insurance Company (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

Note 4. Investment Contract with Insurance Company - continued

Because the guaranteed investment contract is benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the plan by Principle, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was $152,158 and $85,912 respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a semiannual basis for resetting.

Certain events limit the ability of the plan to transact at contract value with issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the schedule maturity date.

Average yields:	**2011**	**2010**
Based on actual earnings (varied by time period)	2.85 – 2.40%	3.25 – 2.85%
Based on interest rate credited to participants (varied by time period)	2.85 – 2.40%	3.25 – 2.85%

Note 5. Investments:

The following presents investments that represent 5% or more of the Plan's net assets at:

	December 31, 2011	December 31, 2010
Prin Trust Target 2015 Fund R3 37,981 & 38,484 Shares respectively	$ 526,948	$ 523,869
Prin Trust Target 2020 Fund R3 49,835 & 48,271 Shares respectively	689,596	660,230
Prin Trust Target 2025 Fund R3 65,589 & 59,328 Shares respectively	930,130	837,615
Prin Trust Target 2030 Fund R3 78,299 & 74,974 Shares respectively	1,116,799	1,069,809
Prin Trust Target 2035 Fund R3 59,415 & 52,793 Shares respectively	837,312	748,576
Prin Trust Target 2040 Fund R3 --- & 22,618 Shares respectively	---	322,836
Prin Trust Target 2045 Fund R3 25,347 & 22,847 Shares respectively	360,136	329,067

During the year ended December 31, 2011 the Plan's investments (including investments bought, sold and held during the year) decreased in value by $65,166 attributed to its mutual funds and investment contracts.

Note 6. Fair Value of Financial Instruments:

Effective January 1, 2008, The Plan adopted FASB ASC 820 formerly Statement of Financial Accounting Standards No. 157, Fair Value Measurements, which provides a framework for measuring fair value under GAAP. FASB ASC 820-10 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. FASB ASC 820-10 requires that valuation techniques maximize the use of

Note 6. Fair Value of Financial Instruments - continued:

observable inputs and minimize the use of unobservable inputs. FASB ASC 820-10 also establishes a fair value hierarchy, which prioritizes the valuation inputs into three broad levels. The Valuation Hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the Valuation Hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels of the Valuation Hierarchy and the distribution of the Company's financial assets within it are as follows:

- Level 1 – inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 – inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Fair Value Measurements at Reporting Date Using

December 31, 2011	Fair Value	Quote Prices In Active Markets for Identical Assets/Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Common/collective trust	$ 5,329,053	$ ---	$ 5,329,053	$ ---
Mutual Funds	1,174,687	1,174,687	---	---
Investment contracts	152,158	---	---	152,158
Total Assets	$ 6,655,898	$ 1,174,687	$ 5,329,053	$ 152,158

Note 6. Fair Value of Financial Instruments - continued:

		Fair Value Measurements at Reporting Date Using		
December 31, 2010	Fair Value	Quote Prices In Active Markets for Identical Assets/Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Common/collective trusts	$ 5,029,200	$ ---	$ 5,029,200	$ ---
Mutual funds	892,192	892,192	---	---
Investment contracts	85,912	---	---	85,912
Total Assets	$ 6,007,304	$ 892,192	$ 5,029,200	$ 85,912

The investment contract is not actively traded and significant other observable inputs are not available. Thus, the fair value of the investment contract is determined by discounting the related cash flows based on current yield of similar instruments with comparable durations, and the fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements as of December 31, 2011.

	Investment Contract
Beginning balance	$ 85,912
Total gains or losses (realized and unrealized) purchases, sales, issuances, and settlements (net)	66,246
Ending balance	$ 152,158

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8. Tax Status

The Internal Revenue Service has determined that the plan is designed in accordance with applicable sections of the Internal Revenue Code. The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 9. Related Parties

American Transit Insurance Company, the Plan sponsor, absorbs certain plan administrative expenses.

Certain Plan investments are shares of common/collective trusts and mutual funds managed by the Plan's custodian and, therefore, these transactions qualify as party-in-interest transactions.

Certain Plan investments were managed by, an affiliate of the Plan's custodians therefore these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services amounted to $6,686 during the plan year ended December 31, 2011.

Note 10. Risk and Uncertainties

The Plan invests in various investments securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets for plan benefit.
