1. Description of Plan

The following description of the Barker Management Inc. 401(K) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement and amendments for a more complete description of the Plan's provisions.

(a) General

Barker Management, Inc. (the "Company"), established and adopted the Barker Management, Inc. 401(K) Plan (the "Plan") effective February I, 2002. The Plan is a defined contribution plan covering substantially all employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

(b) Contributions

Participants who are employees of the Company for three months may elect to have the Company contribute on their behalf to the Plan a portion of their compensation for the Plan year. Such salary reduction contributions ("elective deferrals") on a pre-tax basis shall not exceed each participant's annual compensation, as defined, to a maximum of $16,500 for both years ended December 31, 2011 and 2010. Additionally, participants may elect to transfer funds into the Plan from other qualified retirement plans.

The Company also makes contributions to the Plan. Company matching contributions are allocated to participants based on their elective deferrals. The Company's matching contribution consists of an amount equal to 50% of each participant's elective deferrals up to 6% of the participant's eligible compensation. During 2011, the Company made matching contributions in the amount of $86,788. The Company may also make contributions at the discretion of the Company's board of directors. Such contributions are not limited to the Company's profits. No discretionary contributions were made to the Plan in 2011.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contributions, (b) Plan earnings and losses and (c) forfeitures of terminated participants' non-vested accounts and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting and Forfeiture

Participants are immediately vested in their contributions plus actual earnings thereon. Participants become vested in Company matching contributions, including earnings thereon, and based on years of service to the Company. Commencing at the end of the second year of completed service, participants vest at the rate of 20% for each completed year of service to the Company. After completing six years of service, a participant is 100% vested in Company matching contributions and earnings thereon.

In the event a participant withdraws from the Plan before fully vesting, the unvested portion of Company matching contributions, including earnings thereon, is forfeited. Forfeitures are allocated to eligible participants based upon their compensation relative to the total compensation of all eligible participants for a specified period. Commencing in 2007, forfeitures may reduce the amount of future Company matching contributions or may be used to pay for

1. Description of Plan (continued)

administrative expenses of the Plan, at the discretion of the Company's board of directors. There were forfeitures amounting to $4,616 in 2011. During 2011, the Company used forfeitures amounting to $4,707 to reduce matching contributions.

(e) Participant Loans

A participant employed by the Company may borrow from the Plan the lesser of $50,000 or 50% of the value of their vested account balance. The minimum loan amount is $1,000. Loans are repaid in installments not to exceed 60 months (120 months for principal residence loans) and bear interest at fixed interest rates set by the trustees.

(f) Termination of the Plan

The Company has the right under the Plan to suspend or discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, all participants will become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contributions plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents, where applicable, the fair value of the investment contracts as well as the adjustment of the of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared, where applicable, on a contract value basis.

(b) Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at lease reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(c) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

2. **Summary of Significant Accounting Policies (continued)**

(d) Cost Information for Employee Directed Investments

The Department of Labor (DOL) Regulation 2520.103-11(d) allows the exclusion of participant directed transactions from the historical cost entry on the schedule of assets held for investment purposes. The exclusion of these types of transactions is optional. The Plan management decided not to disclose the cost of investments on Schedule H, Line 4i – Schedule of Assets (Held At End of Year).

(e) Payment of Benefits

Benefits are recorded when paid for financial statement purposes.

(f) Administrative Expenses

Expenses related to the administration and record keeping of the Plan is generally paid for from Plan assets. The Company is not obligated to pay any of the Plan's expenses. However, the Company, at its discretion, may decide to pay certain of the Plan expenses in the future.

(g) Subsequent Period Review

The trustees have evaluated events and transactions for potential recognition or disclosure through June 29, 2012, the date the financial statements were available to be issued.

3. **Investments**

The Plan's investment are participant directed and have been certified by the Plan's trustee. Investments that represent 5% or more of the Plan's net assets held at December 31, 2011 and 2010 are summarized as follows:

Pooled separate accounts	$ 15,117	$ 114,275
Guaranteed interest accounts	$ 2,493	$ -
	$ 17,610	$ 114,275

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (*ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Guaranteed interest account: Valued based on the contract value minus early withdrawal charges, as contractually defined.

Participant loans: Valued at amortized costs, which approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of differential methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2011 and 2010.

Assets at Fair Value as of December 31, 2011

	Level 1	*Level 2*	*Level 3*	*Total*

5. Information Certified by the Custodian

The Plan administrator elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian certified that the following information included in the accompanying financial statements are supplemental schedule is complete and accurate:

- Investments, as reflected in the Statements of Net Assets Available for Plan Benefits as of December 31, 2011 and 2010.
- Investment income, as reflected in the Statement of Changes in Net Assets Available for Plan Benefits for the year ended December 31, 2011.
- Investment information for December 31, 2011 and 2010, disclosed in notes 3 and 4 to the financial statements
- Investments, as reflected in Schedules H, line 4i – Schedules of Assets (Held At End of Year) – as of December 31, 2011 and 2010

6. Allocation of Plan Assets

Employee contributions are allocated to various funds based on the elections made by each participant. Net income or loss of each fund is allocated on the basis of the proportionate asset balance of each participant as of the previous valuation date after adjustment for withdrawals, distributions, and other additions or subtractions that may be appropriate. Earnings are allocated on the basis of current shares held in each participant's account and the accounts are valued daily.

7. Loans to Participants

During 2011, loans in the total principal amount of $77,215 were made to participants. Participant loans bear interest ranging from 5.25% to 10.25%. Interest charged on outstanding loans amounted to $7,917 in 2011. As of December 31, 2011 and 2010, the principal balance outstanding on participant loans was $136,729 and $158,039, respectively.

8. Federal Income Taxes

The Internal Revenue Service has determined and informed the Plan, by a letter dated March 31, 2008 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the plan is designed and is currently being operated in compliance with the applicable requirements.

United States of America Generally Accepted Accounting Principles require Plan Management to evaluate tax positions taken by the Plan and recognize a tax liability (or assets) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdiction; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for the years prior to December 31, 2008.

9. Related Party Transactions

At December 31, 2011 and 2010, certain Plan investments were shares of mutual funds and money market funds managed by Principal Financial Group. Principal Financial Group is the custodian of the Plan, as defined by the Plan agreement; therefore these transactions qualify as party-in-interest transactions.

10. Administration of the Plan

The trustees of the Plan are Byron Barker, Peter Barker and Ann Barker, officers of the Company. Administration and record keeping and investment management services were provided in 2011 and 2010 by the Principal Financial Group under an agreement with the Plan.
