NOTE 1. DESCRIPTION OF PLAN

General – The Plan is a defined contribution plan covering substantially all employees of Mesa Vineyard Management, Inc. (the employer) who are at least eighteen years of age and have completed three months of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Organization – Mesa Vineyard Management 401(k) Retirement Plan was organized effective January 1, 1994 to provide a tax deferred savings plan for employees of the employer who become participants of the Plan. The Plan's investments were administered by Standard Insurance Company for 2008 and for the period from January 1, 2009 to September 30, 2009 and by Automatic Data Processing, Inc. (ADP) from October 1, 2009 to December 31, 2009.

The following brief description of the Mesa Vineyard Management 401(k) Retirement Plan (the Plan) is for general information purposes only. Participants should refer to the Plan document for more complete information.

Contributions – Eligible participants may contribute, by voluntary payroll deduction, up to the maximum allowed by sections 415 and 401(k) of the Internal Revenue Code. The Company elected to adopt safe–harbor provisions, and due to changes in third party administrators during the year, the Company changed the matching contributions on October 1, 2009. The Company made a matching contribution to all non highly compensated participants equal to 100% of the first 3% of compensation and 50% of the next 3% of compensation for 2008 and for the first nine months of 2009; for the remaining three months, the Company made a matching contribution equal to 100% of the first 5% of compensation. The Plan also allows eligible participants to rollover amounts from other qualified retirement plans.

Participant Accounts – Each participant's account is credited or debited with (1) the participant's contributions by payroll deduction, (2) the participant's portion of employer contributions, (3) a portion of the net increase or decrease in the net value of the Plan investments which bears the ratio of the total amount of each participant's account in this fund to the aggregate of the balances of all participants' accounts immediately before the quarterly adjustment, (4) any loans made to or repaid by the participant, and (5) an allocation of Plan expenses.

Vesting – Participants are immediately vested in their voluntary and employer contributions plus actual earnings thereon.

Participant Investment Options – Participants are allowed to invest in a variety of investment choices as more fully described in the Plan's literature. Participants may change their allocation several times each quarter.

NOTE 1. DESCRIPTION OF THE PLAN (Continued)

Participant Loans – Loans are available to all participants as described in The Plan's loan policy. Participants may apply to borrow from the Plan a minimum amount of $500 and a maximum equal to the lesser of $50,000, the account balance of the Borrower's Elective Contribution Account, or, 50% of their total account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Loans fund. Most loan funds may be repaid over any reasonable period, not to exceed the fifth anniversary of the date the funds were borrowed, with the exception of loans used for the purchase of a principal residence which can be repaid over a period of up to 30 years. The loans are secured by the balance in the participant's account and bear interest at the Prime Rate plus two percent as published in the Wall Street Journal on the 14th day of each month. Interest rates range from 3.25% to 8.25%. Principal and interest are paid ratably through payroll deductions.

Payments of Benefits – Upon termination of service for any reason, a participant's account is generally distributed in a single lump sum payment. Withdrawals of a participant's account during the participant's employment are limited to elective contributions upon reaching age 59-1/2, and financial requirements meeting the hardship provisions of the Plan or through borrowings under the loan provisions of the Plan.

Administrative Expenses – Expenses to administer the Plan, if not paid by the sponsor, may be paid by the Plan.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting which is in conformity with accounting principles generally accepted in the United States of America.

Valuation of Investments and Income Recognition – Investments are stated at fair value as reported by JP Morgan Chase Bank, the current Plan custodian and Standard Insurance Company, the former Plan custodian. The fair values of the Plan's investments in mutual funds are based on the quoted market value of the underlying assets on the last business day of the Plan year. Participant loans are valued at cost, which approximates fair value.

Interest income is recognized as it is earned and dividends are recorded on the ex-dividend date.

Net appreciation (depreciation) in fair value of investments consist of the net change in unrealized appreciation (depreciation) during the year on investments held at the end of the year.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement and the reported amounts of revenues and expense during the reporting period. Actual results could differ from those estimates.

Payment of Benefits – Benefits are recorded when paid.

Income Taxes – The Financial Accounting Standards Board issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Subsequent Events – The Plan Administrator has evaluated subsequent events through July 23, 2010, the date the financial statements were available to be issued.

NOTE 3. CERTIFIED INVESTMENT INFORMATION

The Plan funds are held by JP Morgan Chase Bank and Standard Insurance Company, the Plan custodians. All investment information disclosed in the accompanying financial statements and schedule, including investments held at December 31, 2009 and 2008 and interest, dividends, and net appreciation (depreciation) of fair value of investments for the years then ended were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Plan custodians.

The following table presents the fair values of investments as certified by JP Morgan Chase Bank and Standard Insurance Company at December 31, 2009 and 2008, respectively. Investments that represent five percent or more of the Plan's net assets are separately identified.

NOTE 4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

NOTE 4. FAIR VALUE MEASUREMENTS (Continued)

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at the year end.

Participant loans: Valued at amortized cost, which approximates fair value.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

NOTE 5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Board of Trustees has the right under the Plan document to terminate this Plan subject to the provisions of ERISA. In the event of termination, each participant, retired participant, former participant and beneficiary shall be entitled to receive any amount credited to that person's account.

NOTE 6. INCOME TAX STATUS

The United States Treasury Department has advised the Company that the Plan constitutes a qualified trust under Section 401(a) of the Internal Revenue Code and is, therefore, exempt from federal income taxes under provision of Section 501(a) of the Code by letter of determination received by the Company in August 1995. The Plan was amended in 2003 to allocate administration fees to the participants. In 2009, the Company adopted the Automatic Data Processing prototype 401(k) and profit sharing plan and amended the Plan to increase the safe harbor contribution. The Company received a letter of determination for this prototype plan dated March 31, 2008. The Plan sponsor believes that the Plan continues to qualify and to operate as designed.

NOTE 7. RISKS AND UNCERTAINTIES

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that change in the value of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

NOTE 8. PARTY – IN– INTEREST

During the years ended December 31, 2009 and 2008, Plan investments were invested in funds held by JP Morgan Chase Bank, the current custodian, and Standard Insurance Company, the former custodian, as described by the Plan, and Automatic Data Processing, Inc. (ADP), the current recordkeeper, and Standard Insurance Company, the former recordkeeper, and therefore, certain transactions qualify as party-in-interest. Fees paid by the Plan to related parties for investment services amount to $4,710 and $4,906 for the years ended December 31, 2009 and 2008, respectively.

NOTE 9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Variations in the timing of the recognition of certain transactions affecting the Plan has resulted in differences between the financial statements and the Internal Revenue Service Form 5500. The following is a reconciliation of these differences:
