Independent Auditor's Report

To the Advisory Committee and Participants
Medical Specialties Distributors, LLC 401(k) Plan

We were engaged to audit the accompany statements of net assets available for benefits of Medical Specialties Distributors, LLC 401(k) Plan as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and the supplemental schedule as listed in the accompanying table of contents. These financial statements and the supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified or provided by ING Life Insurance and Annuity Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. As discussed in Note 3, the Plan Administrator has obtained a certification from the trustee regarding the completeness and accuracy of the investment information provided to the Plan Administrator by the trustee as of December 31, 2009 and 2008, and for the year ended December 31, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America, and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

**Medical Specialties Distributors, LLC
401(k) Plan**

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Medical Specialties Distributors, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a discretionary contribution retirement plan available to all employees of Medical Specialties Distributors, LLC (the "Company"), provided that they are at least 21 years of age and an employee for 30 days. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code (IRC). The Company is the Plan administrator.

Contributions: Participants are allowed to contribute up to 100% of their pretax compensation to the Plan through payroll deductions, not to exceed IRC limitations.

The Company, at its discretion, may make matching and profit sharing contributions to the Plan. During the year ended December 31, 2009, the Company's matching contribution equaled 10% of the first 5% of an individual's compensation contributed to the Plan, subject to certain limitations. The Company chose not to make a profit sharing contribution to the Plan for the year ended December 31, 2009.

An eligible participant may, at the discretion of the Plan administrator, transfer tax free to the Plan a distribution from another qualified plan, provided that the transfer qualifies as a rollover contribution under the IRC.

Participant accounts: Each participant's account is credited with the participant's contribution, the Company's matching contribution, investment earnings and allocations of expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are fully vested in all salary contributions, rollovers and earnings thereon. Employer matching contributions and earnings thereon are vested in accordance with the following schedule:

Years	Vesting Percent
Less than one	0%
One but less than two	25%
Two but less than three	50%
Three but less than four	75%
Four or more	100%

Participants who terminate prior to being 100% vested forfeit the nonvested portion. At December 31, 2009 and 2008, forfeited nonvested accounts totaled \$4,212 and \$1,930, respectively. These accounts will be used to pay Plan expenses.

Withdrawals: Participants are allowed to withdraw certain portions of their account, as defined by the Plan, upon retirement, termination or determination of financial hardship.

Distribution of benefits: Participants are able to elect to receive a lump-sum distribution based upon the valuation of the participant's vested account balance.

See Notes to Financial Statements.

Note 1. Description of Plan (Continued)

Investment options: The trustee for the plan is ING Life Insurance and Annuity Company (ING), which holds the Plan's investments and executes investment transactions. Participants can direct their contributions to a common/collective trust fund and various mutual funds. Participants determine the investment of both Company and participant contributions and any subsequent changes among investments.

Participant loans receivable: Participants may borrow from their accounts any amount greater than \$500, but not more than the lesser of \$50,000 or 50% of their account balance, reduced by the highest outstanding loan balance during the preceding twelve month period. A participant may have three outstanding loans at one time. Loan terms range from one to five years but may be extended to 30 years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at a rate equal to regional bank rates for similar loans. Principal and interest is paid ratably through weekly payroll deductions. Interest rates on outstanding loans range from 3.25% to 8.50%.

Administrative expenses: Administrative expenses are the responsibility of both the Plan and the Company.

Note 2. Summary of Significant Accounting Policies

Method of accounting: The Plan financial statements are prepared on the accrual basis of accounting. Employer and participant contributions are recorded in the period in which the employee payroll deductions are made. Benefits to participants are recorded when paid. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and uncertainties: The Plan provides for various investment options in any combination of common/collective trust funds and mutual funds. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term, and that such changes could materially effect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment valuation: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

The Plan has a common collective trust fund with fully benefit-responsive investment contracts. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The ING Fixed Account has no stated maturity. Interest rates are reset at least annually, during which a new interest rate is applied daily to the total outstanding balance of the investment. For deposit liabilities with no defined maturities, the fair value to be disclosed is the amount payable on demand at the reporting date. Accordingly, the contract value is equal to the fair value of the investment.

Accounting for uncertainty in income taxes: The Financial Accounting Standards Board issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Recently issued accounting pronouncements: In June 2009, FASB approved the FASB Accounting Standards Codification ("Codification") as the single source of authoritative nongovernmental U.S. GAAP to be launched on July 1, 2009. The Codification does not change current U.S. GAAP, but is intended to simplify user access to all authoritative U.S. GAAP by providing all the authoritative literature related to a particular topic in one place. All existing accounting standard documents will be superseded and all other accounting literature not included in the Codification will be considered nonauthoritative. The Codification is effective and has been adopted by the Plan as of December 31, 2009. The Codification does not have an impact on the Plan's financial condition. However, because the Codification completely replaces existing standards, it will affect the way U.S. GAAP is referenced within the Plan's financial statements.

In January 2010, the FASB issued an amendment that requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment was effective and adopted for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010, and has not yet been adopted. Management is currently evaluating the impact of the guidance related to Level 3 measurements on financial statement disclosures.

In May 2009, the FASB issued additional guidance addressing the accounting and disclosures of subsequent events not addressed in other pronouncements which require entities to address the accounting and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued

Note 3. Information Certified by ING Life Insurance and Annuity Company

The following is a summary of the investment information as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included throughout the Plan's financial statement and supplement schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following investments is complete and accurate. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by ING Life Insurance and Annuity Company (ING), the trustee of the Plan, except for comparing such information certified by the trustee to information included in the

Plan's financial statements and supplemental schedule related to the following investments. Single investments representing more than 5% of the Plan's net assets as of December 31, 2009 and 2008 are separately identified.

Other mutual funds	282,483	181,620
Common/collective trusts	131,939	124,412
Participant loans	110,815	77,947
	<u>\$ 2,269,367</u>	<u>\$ 1,559,672</u>

*Fund represented less than 5% of total net assets in the prior year.

ING Life Insurance and Annuity Company also certified to the completeness and accuracy of net appreciation in fair value of investments of \$455,571 in 2009 and \$5,054 of interest and dividends related to the aforementioned investments in 2009.

Note 4. Tax Status

The Plan, through its adoption of a volume submitter plan (a prototype plan), has obtained an opinion letter issued to The Angell Pension Group, Inc. on January 23, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter, however, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Notes to Financial Statements

Note 5. Party-In-Interest Transactions

Plan investments include shares of a common/collective trust and mutual funds managed by ING and administrative fees are paid to ING. ING is the trustee, as defined by the Plan, therefore, these transactions qualify as party-in-interest transactions.

Note 6. Guaranteed Investment Contract

The Plan's fixed common/collective trusts are investment contracts with an insurance company, which are renewed annually. The issuing insurance company is ING Life Insurance and Annuity Company. The contributions are maintained in a pooled account. The account is credited with earnings on the underlying investments and charged with Plan withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by ING Life Insurance and Annuity Company because it is fully benefit responsive. Contract value represents contributions made under contract, plus earnings, less participant withdrawals and administrative expenses.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principle and a specified interest rate that is guaranteed to the plan. As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by ING Life Insurance and Annuity Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contracts at December 31, 2009 and 2008 were \$131,939 and \$124,412, respectively. The average yield and crediting interest rates were approximately 2.2% for 2009 and 2.0% for 2008. The crediting interest rate is based on the formula agreed upon with the issuer. Such interest rates are reviewed on at least on an annual basis for resetting.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact a contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 7. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement), a lower priority to significant other observable inputs (level 2 measurements), and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies at December 31, 2009 and 2008.

Mutual Funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Common/Collective Trusts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. See Note 6.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
