Independent Auditors' Report

Plan Administrator
UtahAmerican Energy Employee Personal Retirement Plan

We were engaged to audit the financial statements of the UtahAmerican Energy Employee Personal Retirement Plan (the "Plan") as of October 1, 2009 and December 31, 2008, and for the period from January 1, 2009 to October 1, 2009. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note 4, which was certified by Merrill Lynch Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee held the Plan's investment assets and executed investment transactions. The Plan Administrator has obtained a certification from the trustee as of October 1, 2009 and December 31, 2008, and for the period from January 1, 2009 to October 1, 2009, that the information provided to the Plan Administrator is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

UtahAmerican Energy Employee Personal Retirement Plan**Notes to Financial Statements****October 1, 2009 and December 31, 2008****Note 1: Description of Plan**

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General

The Plan was a defined contribution plan covering substantially all employees of UtahAmerican Energy, Inc.; ANDALEX Resources, Inc.; and its subsidiaries, GENWAL Resources, Inc. and WEST RIDGE Resources, Inc. (the "Company"), who had completed one hour of service and were not covered by a collective bargaining agreement or were not temporary salaried employees. The Plan was adopted July 1, 1985. The Plan was subject to the provisions of the Employee Retirement Income Security Act ("ERISA").

Effective October 1, 2009, the Plan was merged into a related plan (Note 11).

Contributions

Each year, participants contributed up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants also contributed amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants directed the investment of their contributions into various investment options offered by the Plan. The Plan offered registered investment companies, a common/collective trust, and cash equivalents as investment options for participants. The Company contributed 100 percent of the first 8 percent of base compensation that a participant contributed to the Plan. Additional profit sharing amounts were able to be contributed at the option of the Company. Contributions were subject to certain limitations.

Participant Accounts

Each participant's account was credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that could have been provided from the participant's vested account.

Vesting

Participants were vested immediately in their contributions, plus actual earnings thereon. Participants that had entered the Plan as of June 30, 2004 were immediately 100 percent vested in the Company contribution portion of their accounts. Participants that entered the Plan after June 30, 2004 were vested in the Company's contribution portion of their accounts based on years of continuous service. A participant was 100 percent vested after five years of credited service. Participants were 100 percent vested upon reaching early retirement age (55).

UtahAmerican Energy Employee Personal Retirement Plan**Notes to Financial Statements****October 1, 2009 and December 31, 2008****Note 1: Description of Plan (continued)**Participant Loans

Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans were secured by the balance in the participant's account. Interest rates on outstanding loans ranged from 4.25 percent to 9.50 percent, which were commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest were paid in level payments through after-tax payroll deductions on at least a quarterly basis.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant could have elected to receive a lump sum payment equal to the value of the participant's account, if not greater than \$5,000. If the participant's account was greater than \$5,000, the distribution was made by lump sum payment or by periodic payments. For termination of service for other reasons, a participant could have received the value of his or her account as a lump sum distribution or as an automatic rollover.

Forfeited Accounts

At October 1, 2009 and December 31, 2008, forfeited non-vested accounts totaled \$0 and \$155,245, respectively. Forfeited amounts were used to reduce employer contributions. During the period January 1, 2009, to October 1, 2009, employer contributions were reduced by \$156,519 from forfeited non-vested accounts.

Note 2: Summary of Significant Accounting PoliciesBasis of Presentation

On September 30, 2009, the Plan adopted authoritative guidance issued by the Financial Accounting Standards Board ("FASB") which established the FASB Accounting Standards Codification ("ASC") as the single source of authoritative accounting principles generally accepted in the United States of America. The Plan has modified its disclosures in this report to comply with the requirements. Accordingly, references to authoritative accounting principles after the effective date will reference the codification and not the previous accounting guidance. The adoption of the guidance did not have a material effect on the Plan's statements of net assets available for benefits or the statement of changes in net assets available for benefits.

Basis of Accounting and Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America required management to make estimates and assumptions that affected the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

UtahAmerican Energy Employee Personal Retirement Plan**Notes to Financial Statements****October 1, 2009 and December 31, 2008****Note 2: Summary of Significant Accounting Policies (continued)**Basis of Accounting and Use of Estimates (continued)

In accordance with the “Financial Services” topic of the FASB ASC, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invested in investment contracts through a common/collective trust. Contract value for this collective trust is based on the net asset value of the fund as reported by the investment advisor. As required by the ASC, the statement of net assets available for benefits presents the fair value of the investment in the common/collective trust, as well as the adjustment of the investment in the common/collective trust from fair value to contract value related to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Payment of Benefits

Benefits were recorded when paid.

Investment Valuation and Income Recognition

The Plan’s investments were stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date.

Administrative Expenses

The Company absorbed substantially all administrative expenses incurred by the Plan.

Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through August 3, 2010, the date the financial statements were available to be issued.

Note 3: Administration of Plan Assets

Certain administrative functions were performed by officers and employees of the Company. No such officer or employee of the Company received compensation from the Plan.

UtahAmerican Energy Employee Personal Retirement Plan**Notes to Financial Statements****October 1, 2009 and December 31, 2008****Note 4: Trustee Certification**

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Merrill Lynch Trust Company ("Merrill Lynch"), the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of October 1, 2009 and December 31, 2008; Note 5; and the related investment activity reflected in the statement of changes in net assets available for benefits for the period January 1, 2009 to October 1, 2009.

Note 5: Investments (Unaudited)

The following presents investments that represented five percent or more of the Plan's net assets at:

	October 1, 2009	December 31, 2008
Alliance Bernstein International Growth Fund	\$ -	\$ 1,745,433
American AMCAP Fund	-	2,274,784
Blackrock U.S. Government Income Fund	-	652,749
Calvert Income Fund	-	894,386
John Hancock Classic Value Fund	-	2,229,325
Loomis Sayles Investment Bond	-	658,351
Merrill Lynch Retirement Preservation Trust	-	1,374,572♦

♦Represents contract value

During the period January 1, 2009 to October 1, 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$2,873,892. All appreciation was related to registered investment companies.

Note 6: Fair Value Measurements

The "Fair Value Measurements" topic of the FASB ASC establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the "Fair Value Measurement" topic are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

UtahAmerican Energy Employee Personal Retirement Plan**Notes to Financial Statements****October 1, 2009 and December 31, 2008****Note 6: Fair Value Measurements (continued)**

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Registered investment companies: Mutual funds were valued at the net asset value of shares held by the Plan at year end.

Common/collective trust: Valued based on the fair value of the collective trust's underlying investments as based on information reported by the investment advisor using the audited financial statements of the collective trust at year end.

Participant loans: Valued at amortized cost, which approximated fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan did not hold any assets at October 1, 2009; therefore, a table setting forth by level, within the fair value hierarchy, the Plan's assets at fair value is not presented as of that date.

UEI Financial Statements

UtahAmerican Energy Employee Personal Retirement Plan**Notes to Financial Statements****October 1, 2009 and December 31, 2008****Note 6: Fair Value Measurements (continued)**

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2008:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Registered investment companies	\$ 9,914,127	\$ -	\$ -	\$ 9,914,127
Common/collective trust	-	1,183,503	-	1,183,503
Cash and cash equivalents	446	-	-	446
Participant loans	<u>-</u>	<u>-</u>	<u>547,324</u>	<u>547,324</u>
	<u>\$ 9,914,573</u>	<u>\$ 1,183,503</u>	<u>\$ 547,324</u>	<u>\$ 11,645,400</u>

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for January 1, 2009 to October 1, 2009:

	<u>October 1, 2009</u>
Balance, beginning of period	\$ 547,324
Purchases, sales, issuances, and settlements (net)	109,883
Transfer of loan balances to related plan (Note 11)	<u>(657,207)</u>
Balance, end of period	<u>\$ -</u>

Note 7: Party-in-Interest Transactions

Certain Plan investments were shares of a common/collective trust managed by Merrill Lynch. Merrill Lynch was the trustee as defined by the Plan, and therefore, these transactions qualified as party-in-interest transactions. Fees paid by the Plan for administrative services provided by the trustee amounted to \$240 for the period January 1, 2009 to October 1, 2009.

Note 8: Plan Termination

The Company had reserved the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. As discussed in Note 11, the Company, effective October 1, 2009, merged the Plan into a plan sponsored by a related party of the Company.

Note 9: Tax Status

The Plan obtained its latest prototype determination letter on June 4, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in accordance with the applicable sections of the Internal Revenue Code. Although the Plan had been amended since receiving the determination letter, the Plan Administrator and the Plan trustee believe that the Plan was designed and was being operated in compliance with the applicable requirements of the Internal Revenue Code.
