LUCK BROS., INC. PROFIT SHARING/401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following brief description of the Luck Bros., Inc. Profit Sharing/401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution and savings plan covering all eligible employees. The Plan is subject to the provisions of the Employer Retirement Income Security Act of 1974 (ERISA).

Eligibility Requirements
Participants who have attained the age 21 are eligible to participate in the Plan. This age eligibility requirement was imposed effective May 1, 1998. Employees who previously entered the Plan as a participant will not be made ineligible to participate based on this requirement.

Vesting
The vested percentage in a participant's account is determined under the following schedule and is based on vesting years of service. All participants, however, are 100% vested upon reaching normal retirement age (age 59 1/2). Also, the portion of each participant account attributable to prevailing wage supplements will always be 100% vested.

A participant has completed a year of service when (s)he has been credited with 1,000 hours of service during a plan year.

Years Of Service	Vesting Percentage
1	33%
2	66%
3	100%

Contributions
The company makes discretionary contributions to the Plan regardless of an employee's participation in salary reduction contributions. Contributions to the Plan are determined based on the employees' designations as follows:

- Prevailing Wage Employees – 23% of gross wages.
- Owners – 25% of gross wages.
- Key Supervisors – 15% of gross wages.
- Non Prevailing Wage Employees – 5% of gross wages.

In accordance with Plan provisions, participants direct all contributions and earnings thereon among the current funds offered by the Plan.

Forfeitures
Forfeitures will be used to reduce the employer's contribution to the Plan.

Participants' Accounts
Participants' accounts are credited with the participant's allocable share of the employer contribution, if any, and Plan earnings or losses. Allocations of contributions are based on participant compensation, as defined by the Plan. Allocation of investment earnings or losses is based on account balances. The benefit to which a participant is entitled is equal to the vested portion of the participant's accounts.

Pension Benefits
Participants are entitled to receive retirement benefits equal to their account balance on attaining age 59 1/2. Distribution options are determined based on marital status as well as the elections a participant and his/her spouse may make. The Plan also provides for early and late retirement benefits, termination benefits, disability benefits, and death benefits.

If a Plan participant terminates employment for any reason other than retirement, death, or disability, he is entitled to receive the vested portion of his account. Any non-vested portion becomes a forfeiture.

Participants direct contributions into several investment options. Participants may change their investment elections at any time. A description of each investment option is as follows:

4. FAIR VALUE MEASUREMENTS

Accounting Standards establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs, because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available. The following table provides further details on the Plan's Level 1 and Level 3 fair value measurements.

		Fair Value Mesurements Using:	
December 31, 2011	**Fair Value**	**Quoted Prices in Active Markets for Identical Assets (Level 1)**	**Significant Unobservable Inputs (Level 3)**
Mutual Funds	$ 10,902,843	$ 10,902,843	$ -
Unallocated Insurance Contract	3,853,912	-	3,853,912
Total	$ 14,756,755	10,902,843	$ 3,853,912
December 31, 2010			
Mutual Funds	$ 11,693,372	$ 11,693,372	$ -
Unallocated Insurance Contract	3,654,139	-	3,654,139
Total	$ 15,347,511	11,693,372	$ 3,654,139

Level 1 Fair Value Measurements

The fair value of mutual funds is based on the quoted net asset values of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements

The Unallocated Insurance Contract is not actively traded and significant other observable inputs are not available. Thus, the fair value of the unallocated insurance contract is equal to the amount determined by the insurance enterprise (contract value). The following table provides further details of the Level 3 fair value measurements.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

	Unallocated Insurance Contract

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following brief description of the Luck Bros., Inc. Profit Sharing/401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution and savings plan covering all eligible employees. The Plan is subject to the provisions of the Employer Retirement Income Security Act of 1974 (ERISA).

Eligibility Requirements
Participants who have attained the age 21 are eligible to participate in the Plan. This age eligibility requirement was imposed effective May 1, 1998. Employees who previously entered the Plan as a participant will not be made ineligible to participate based on this requirement.

Vesting
The vested percentage in a participant's account is determined under the following schedule and is based on vesting years of service. All participants, however, are 100% vested upon reaching normal retirement age (age 59 1/2). Also, the portion of each participant account attributable to prevailing wage supplements will always be 100% vested.

A participant has completed a year of service when (s)he has been credited with 1,000 hours of service during a plan year.

Years Of Service	Vesting Percentage
1	33%
2	66%
3	100%

Contributions
The company makes discretionary contributions to the Plan regardless of an employee's participation in salary reduction contributions. Contributions to the Plan are determined based on the employees' designations as follows:

- Prevailing Wage Employees – 23% of gross wages.
- Owners – 25% of gross wages.
- Key Supervisors – 15% of gross wages.
- Non Prevailing Wage Employees – 5% of gross wages.

In accordance with Plan provisions, participants direct all contributions and earnings thereon among the current funds offered by the Plan.

Forfeitures
Forfeitures will be used to reduce the employer's contribution to the Plan.

Participants' Accounts
Participants' accounts are credited with the participant's allocable share of the employer contribution, if any, and Plan earnings or losses. Allocations of contributions are based on participant compensation, as defined by the Plan. Allocation of investment earnings or losses is based on account balances. The benefit to which a participant is entitled is equal to the vested portion of the participant's accounts.

Pension Benefits
Participants are entitled to receive retirement benefits equal to their account balance on attaining age 59 1/2. Distribution options are determined based on marital status as well as the elections a participant and his/her spouse may make. The Plan also provides for early and late retirement benefits, termination benefits, disability benefits, and death benefits.

If a Plan participant terminates employment for any reason other than retirement, death, or disability, he is entitled to receive the vested portion of his account. Any non-vested portion becomes a forfeiture.

4. FAIR VALUE MEASUREMENTS

Accounting Standards establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs, because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available. The following table provides further details on the Plan's Level 1 and Level 3 fair value measurements.

Total	$ 15,347,511	11,693,372	$ 3,654,139

Level 1 Fair Value Measurements

The fair value of mutual funds is based on the quoted net asset values of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements

The Unallocated Insurance Contract is not actively traded and significant other observable inputs are not available. Thus, the fair value of the unallocated insurance contract is equal to the amount determined by the insurance enterprise (contract value). The following table provides further details of the Level 3 fair value measurements.
