MIRABITO HOLDINGS, INC. 401(k) PLAN
(Formerly known as Granite Capital Holdings, Inc. 401(k) Plan)

Notes to Financial Statements

December 31, 2009 and 2008

(1) Description of the Plan

The following description of the Mirabito Holdings, Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering all employees of Mirabito Holdings, Inc. and subsidiaries and Miragas, Inc. (collectively the Company) who have one year of service, worked at least 1,000 hours and are age twenty-one or older. Effective November 2008, Granite Capital Holdings, Inc. changed its name to Mirabito Holdings, Inc. In connection with this change, effective January 2009, Granite Capital Holdings, Inc. 401(k) Plan changed its name to Mirabito Holdings, Inc. 401(k) Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Each year, participants may contribute a percentage of their pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers forty-six pooled separate accounts as investment options for participants. The Company contributes 50% of the first 6% of compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. Any such contributions would be allocated based on the ratio of each participant's compensation to total compensation. Contributions are subject to certain limitations.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contribution and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(Continued)

(1) Description of the Plan, Continued

(d) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested in their employer matching contributions and related earnings after two years of credited service, and is 100% vested in their employer profit sharing contribution and related earnings after five years of credited service.

(e) Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25% to 10.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

(f) Payment of Benefits

All distributions from the Plan will be made in a lump sum payment equal to the value of the participant's vested account balance. On termination of service, participants with balances that exceed $1,000 may defer receiving the lump sum payment until a distribution is required to be made.

(g) Forfeited Accounts

At December 31, 2009 and 2008, forfeited non-vested accounts totaled $3,787 and $6,465, respectively. These accounts will be used to reduce future employer contributions. Employer contributions were reduced by $4,377 in 2009 and $8,419 in 2008 from forfeited nonvested accounts.

(h) Plan Expenses

Plan expenses, except for individual participant investment selection fees, are primarily paid by the Plan sponsor.

(i) Subsequent Events

Subsequent events have been evaluated through July 30, 2010, which is the date the financial statements were available to be issued.

(2) Summary of Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. The current economic environment has increased the degree of uncertainty inherent in those estimates and assumptions.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Excess Contributions

Excess contributions represent salary deferrals from participants in excess of the IRC limitations that were refunded to participants subsequent to year end and are recorded as a liability on the statement of net assets available for benefits. Excess contributions are netted against contributions in the statement of changes in net assets available for benefits.

(f) Reclassifications

Certain amounts from the 2008 financial statements have been reclassified to conform to the 2009 presentation.

(4) Information Certified by the Plan's Custodian

The plan administrator has elected the method of annual reporting permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the plan administrator has obtained certifications from the custodian, The Guardian Insurance & Annuity Company, Inc., that the following information included in the accompanying financial statements is complete and accurate:

	December 31	
	2009	2008
Investments:		
Pooled separate accounts	$ 11,853,190	10,438,344

	Years ended December 31	
	2009	2008
Investment income:		
Net appreciation (depreciation) in the fair value of pooled separate accounts	$ 1,699,732	(3,378,590)

All information in the supplemental schedule is presented solely upon those certifications.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(Continued)

(5) Fair Value of Financial Instruments

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(Continued)

(5) Fair Value of Financial Instruments, Continued

The Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Pooled Separate Accounts: Valued at the net asset value (NAV) of shares held by the plan at year end.

Participant Loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009 and 2008:

	Assets at fair value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	11,853,190	-	11,853,190
Participant loans	-	-	322,207	322,207
Total assets at fair value	$ -	11,853,190	322,207	12,175,397

	Assets at fair value as of December 31, 2008			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	10,438,344	-	10,438,344
Participant loans	-	-	299,949	299,949
Total assets at fair value	$ -	10,438,344	299,949	10,738,293

The following table sets forth a summary of changes in the fair value of the plan's level 3 assets for the year ended December 31, 2009:

Balance, beginning of year	$ 299,949
Purchases, sales, issuances, and settlements (net)	22,258
Balance, end of year	$ 322,207

(Continued)

(6) Related-Party Transactions

Certain Plan investments are units of pooled separate accounts managed by The Guardian Insurance & Annuity Company, Inc. (Guardian). Guardian is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $61,274 and $64,774 for the years ended December 31, 2009 and 2008, respectively.

(7) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become fully vested in their account balances.

(8) Tax Status

The Plan and trust have been established using a prototype plan designed and maintained by the plan's third party administrator, in accordance with applicable requirements of the Internal Revenue Code (IRC). The prototype plan received a determination letter from the Internal Revenue Service as of December 9, 2004. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

(9) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
