REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Participants and Plan Administrator of the
King Street Capital Management, L.P. 401(k) Plan

We were engaged to audit the financial statements of the King Street Capital Management, L.P. 401(k) Plan (the "Plan") as of December 31, 2011 and 2010 and for the year ended December 31, 2011, and the supplemental schedule as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Nationwide Trust Company, FSB, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the certified Plan assets and executes the related transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America established by the American Institute of Certified Public Accountants and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF THE PLAN

General

The King Street Capital Management, L.P. 401(k) Plan (the "Plan") is a defined contribution plan subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA") and is sponsored by King Street Capital Management L.P. ("King Street" or the "Sponsor"). The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Eligibility Requirements

An employee becomes eligible to participate in the Plan on the entry date which coincides with the employee's date of hire as long as the employee contemplates the completion of 1,000 hours of service. Otherwise, an employee will be eligible to become a participant on the entry date that coincides with the completion of one service year as defined in the Plan document.

Contributions

Eligible employees may contribute up to an annual maximum contribution permitted by the Internal Revenue Service of $16,500 in 2011 and 2010. Participants may also transfer amounts representing distributions from other qualified defined benefit or defined contribution plans.

Eligible employees may designate some or all of their deferral contribution as a Roth Deferral Contribution at the time they make their deferral election. Once made, this election will be irrevocable (that is, Roth Deferral Contributions cannot later be re-characterized as pre-tax deferral contributions). If eligible employees elect to make a Roth Deferral Contribution, the amount of their contribution will be included in their income for tax purposes.

In addition, the Sponsor may contribute a discretionary profit sharing contribution in an amount to be determined at year-end. There was no discretionary profit sharing contribution made for the year ended December 31, 2011.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that could be provided from the participant's vested account.

Participants' Investment Options

Upon enrollment in the Plan, participants' contributions are invested and all dividends and interest income are reinvested by Nationwide Trust Company, FSB ("Nationwide" or the "trustee") as directed by the participants. Earnings on amounts held in the investment funds are allocated to individual accounts daily, based on the proportion each account bears to the total of all account balances.

Benefits

Benefit payments are determined and disbursed by the trustee after receiving notice from the Sponsor that a participant's beneficial interest has matured due to death, disability, retirement or separation. Participants can elect to receive a lump-sum distribution, in cash or in the form of a rollover to another qualified plan, monthly installments or some combination of lump sum and monthly installments.

Vesting

Participants are 100% vested in pre-tax employee contributions, Roth Deferral Contributions, rollover account and earnings thereon.

Participants with account balances derived from Sponsor discretionary profit-sharing contributions and earnings are vested in accordance with the following schedule:

Years of Vesting Service	Percentage Vested
Less than one	0 %
Two	33 %
Three	67 %
Three or more	100 %

Forfeited amounts are retained in the Plan and used to reduce future Sponsor contributions. The Plan had unapplied forfeitures in the amount of $9,751 as of December 31, 2011.

Notes Receivable from Participants

Participants may make a written application to the Plan administrator to borrow from the Plan an amount ranging from $1,000 to the lesser of $50,000 or 50% of their vested balance. As of December 31, 2011, the interest rate on outstanding loans was 4.25%. All loans shall be evidenced by a written note, shall bear a reasonable rate of interest, shall be secured by the participant's account, shall be amortized in level payments made at least quarterly over the term of the loan and shall be repaid by the participant over a five-year period. Loans used in connection with the purchase of a participant's principal residence may be repaid over a term of up to ten years.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The Plan invests in mutual funds. The mutual funds are valued at the net value of the participation units as determined by Nationwide. The net value of the participation units are generally based on a computed value using certain observable inputs from the underlying investment. Participant loans are valued at cost, which approximates fair value. Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Benefit Distributions

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses incurred by the Plan are paid by the Sponsor, except those related to participant loans.

Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America ("US GAAP") requires the Plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

3. INVESTMENTS

The following assets represent 5% or more of the Plan's net assets as of December 31, 2011 and 2010:

	2011	2010
Nationwide Money Market Institutional Fund	$ 1,038,897	$ 1,233,766
Prudential Jennison Natural Resources Fund	782,718	626,841
Nationwide Investor Destinations Moderate Fund	689,830	586,996
PIMCO Real Return A Fund	675,904	611,489
Oppenheimer Developing Markets A Fund	672,480	618,481
Nationwide S&P 500 Index Fund	582,329	485,582

During 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated by $489,987 pertaining to depreciation in mutual funds.

4. CERTIFIED INFORMATION

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Nationwide Trust Company, FSB, the custodian of the Plan, has certified that the following information in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2011 and 2010.

- Net investment income and interest income on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2011.

- Schedule H, Line 4i - schedule of assets (held at end of year) as of December 31, 2011.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. FAIR VALUE MEASUREMENTS

FASB ASC 820, "Fair Value Measurements and Disclosures," provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2011:

Mutual Funds: Valued at the net value of participation units as determined by Nationwide. The net value of the participation units are based on computed value using certain observable inputs from the underlying mutual funds.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. During 2011, there was no transfer between the three levels of the fair value hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

	Assets at Fair Value as of December 31, 2011			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds				
International funds	$ -	$ 582,422	$ -	$ 582,422
Small/mid/large cap funds	-	1,082,018	-	1,082,018
Growth funds	-	825,296	-	825,296
Money market funds	-	1,038,897	-	1,038,897
Fixed-income funds	-	5,860,036	-	5,860,036
Total assets at fair value	$ -	$ 9,388,669	$ -	$ 9,388,669

Subsequent to the issuance of the 2010 financial statements, the Plan determined that the mutual fund offerings included in the Plan were not valued using market prices, but rather used unit values as determined by Nationwide. The change in valuation methodology had no impact on the amounts reported in the 2010 financial statements, but did impact certain fair value disclosures. Plan management believes the impact on the fair value disclosures are not significant and as such has updated the 2010 fair value disclosures included herein to reflect the change in valuation methodology. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	Assets at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total
Mutual funds				
International funds	$ -	$ 572,915	$ -	$ 572,915
Small/mid/large cap funds	-	940,331	-	940,331
Growth funds	-	627,113	-	627,113
Money market funds	-	1,233,766	-	1,233,766
Fixed-income funds	-	5,026,028	-	5,026,028
Total assets at fair value	$ -	$ 8,400,153	$ -	$ 8,400,153

6. TAX STATUS OF THE PLAN

The Internal Revenue Service ("IRS") has determined and informed King Street by a letter dated February 1, 2006, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Nationwide. Nationwide is the record keeper and trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

8. PLAN TERMINATION

While King Street has not expressed any intent to discontinue its contributions or to terminate the Plan, it may do so at any time. In the event of termination, the Plan administrator will facilitate the distribution of account balances under the provisions of the Plan and Trust Agreement until all assets have been distributed by the trustee. Each participant in the Plan, upon Plan termination, will automatically become 100% vested in their account balance.

9. RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination of mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

10. SUBSEQUENT EVENTS

Subsequent events have been evaluated through October 4, 2012, which is the date the financial statements were available to be issued. There were no subsequent events that would require recognition of additional disclosure in the Plan's financial statements.
