INDEPENDENT AUDITORS' REPORT

Neuroscience & Spine Associates
401(k) Profit Sharing Plan
Fort Myers, Florida

We were engaged to audit the financial statements of Neuroscience & Spine Associates 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2011 and 2010, and for the years then ended, and the supplemental schedules as of December 31, 2011 and 2010, as listed in the accompanying index. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 3, 4 and 5, which was certified by John Hancock Life Insurance Company (U.S.A.), the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following description of the Neuroscience & Spine Associates (the "Company") 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was originally established by the Company in 2000. The Plan was amended and restated effective August 2009 in accordance with the Economic Growth and Tax Relief Reconciliation Act of 2001. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is a defined contribution plan covering all employees, except employees covered under a collective bargaining agreement or who are non-resident aliens who do not receive any compensation from U.S. sources. All other employees must complete one year (1,000 hours) of service in order to become eligible to participate. There is no minimum age for eligibility. An employee will become a participant on the plan entry date (if employed on that date) immediately following the date the employee completes the eligibility conditions. Plan entry dates are January 1 and July 1.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, subject to the limitations set forth under Internal Revenue Code ("IRC") 415. Participants who have attained age 50 by year-end may also make catch-up contributions of $5,500 in 2011 and 2010. There is no minimum employee deferral required. Participants may also contribute amounts representing "rollover contributions" from other qualified plans.

For each plan year, the employer will determine in its sole discretion how much, if any, it will make as an employer contribution. Additionally, the employer may contribute to the Plan a safe harbor contribution of 3% of plan compensation. Effective January 23, 2010, the Company amended the Plan to discontinue all future safe harbor contributions. All employer contributions must be in cash. An employee must be credited with at least 1,000 hours of service during the year in order to receive an allocation of the employer contribution, unless the employee dies during the year, terminates due to becoming disabled, or terminates after attaining normal retirement age (65).

The employer is also authorized to make discretionary matching contributions or discretionary qualified matching contributions under the Plan.

Note 1. Description of Plan (Continued)

Contributions (continued)

All salary deferrals are eligible for matching contributions, however, an employee must be credited with at least 1,000 hours of service during the year and be employed on the last day of the year, unless the employee dies during the year, terminates due to becoming disabled, or terminates after attaining normal retirement age (65).

Participant directed accounts

Each participant's account is credited with the participant's contribution and the allocated portion of the Company's contribution and charged with an allocation of administrative expenses. Allocations of administrative expenses are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their compensation deferral and safe harbor employer contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their account plus actual earnings thereon is based on years of continuous service. A participant is 100% vested upon six years of credited service, or upon death, termination due to disability or termination after attainment of normal retirement age.

Participant loans

Effective February 1, 2010, participants may borrow from their fund accounts a minimum of $1,000, but no more than $50,000 or 50% of their non-forfeitable account balance, whichever is less. The loans are secured by the balance in the participant's account and shall bear a reasonable rate of interest. Loans shall provide for repayment by biweekly payroll deductions or by check over a reasonable period of time, not to exceed five years unless the purpose of the loan is to acquire or construct the participant's primary residence.

There were $65,281 and $84,564 in outstanding participant loans at December 31, 2011 and 2010, respectively. Interest rates were 4.25% at December 31, 2011 and 2010.

Payment of benefits

On separation from service, a former participant or the designated beneficiary may elect to receive the value of the vested interest of the account as a lump-sum distribution, in periodic installments, or to rollover the vested account balance to another qualified retirement plan.

Note 1. Description of Plan (Continued)

Payment of benefits (continued)

The Plan has provided that if a participant's employment is terminated and the participant's vested interest in the Plan does not exceed $5,000, a lump sum distribution may be made to the participant as soon as administratively practicable subject to the automatic rollover provisions.

In-service distributions are permitted on a limited basis for hardship reasons and to comply with qualified domestic relations orders. In-service distributions are also permitted upon attaining age 59½.

Forfeited accounts

At December 31, 2011 and 2010, the balance of forfeited non-vested accounts was zero. Forfeitures, if any, shall be used first to pay plan expenses, and then reduce the contribution of the employer for the plan year in which such forfeitures occur. There were no forfeitures during 2011 and 2010.

Note 2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting. Furthermore, since the Company's Board of Directors have decided to terminate the Plan, as described in Note 8, the accompanying 2011 financial statements have been prepared on the liquidation basis of accounting using current market values as of December 31, 2011.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Note 2. Summary of Significant Accounting Policies (Continued)

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

The trustee of the Plan, John Hancock Life Insurance Company (U.S.A.), holds the Plan's investments. The Plan's investments are stated at fair value (see Note 5). Investments in pooled separate accounts are stated at estimated fair values, which have been determined based on the unit values of the funds. Unit values are determined by John Hancock, the insurance company sponsoring the funds, based upon the net asset value of the underlying securities held by the funds. The value of the guaranteed interest contracts is estimated using a market approach based on market prices of similar contracts.

Purchases and sales of securities are recognized on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

Realized and unrealized appreciation (depreciation) in the fair value of investments is based on the difference between the fair value of the investments at the beginning of the year, or at the time of purchase for investments purchased during the year, and the related fair value on the day investments are sold with respect to realized appreciation (depreciation), or on the last day of the year for unrealized appreciation (depreciation). All realized and unrealized appreciation (depreciation) in the fair value of pooled separate accounts is shown in the accompanying statements of changes in net assets available for benefits as net appreciation (depreciation) in fair value of pooled separate accounts.

Receivables

Contribution receivables are recorded at cost, net of an estimated allowance for doubtful accounts (i.e. net realizable value). Generally, the Plan does not require collateral to support these receivables. The Plan records an allowance for doubtful accounts in an amount approximating anticipated losses from estimated uncollectible amounts. Receivables are periodically evaluated for collectability based on past credit history and its aging. Individual amounts are written off against the allowance when deemed uncollectible and all collection efforts have been exhausted. The allowance for doubtful accounts was $-0- at December 31, 2011 and 2010.

Note 2. Summary of Significant Accounting Policies (Continued)

Receivables (continued)

Accounting principles generally accepted in the United States of America require that loans to participants be classified as notes receivable from participants and be measured at their unpaid principal balances plus any accrued, but unpaid, interest. Interest income on notes receivable is recognized over the terms of the notes and is calculated using the simple-interest method on principal amounts outstanding.

Notes receivable from participants are considered delinquent if a participant fails to repay a participant loan according to the loan's terms. A deemed distribution occurs when the participant defaults on the loan. If a repayment violation occurs, the amount of the deemed distribution is the entire outstanding balance of the loan, including principal and interest accrued, at the time of the violation. Deemed distributions are recorded as benefits paid to participants in the accompanying statements of changes in net assets available for benefits. The notes receivable are collateralized by the balances in the participants' accounts.

Payments of benefits

Benefits are recorded when paid.

Note 3. Information Certified by the Plan's Trustees (Unaudited)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company (U.S.A.), the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2011 and 2010, and the schedules of assets (held at end of year) as of December 31, 2011 and 2010, and the related investment activity reflected in the statement of changes in net assets available for benefits for the years ended December 31, 2011 and 2010.

Note 4. Investments (Unaudited)

The following presents investments, as reported by the trustee, that represent 5% or more of the Plan's net assets at December 31, 2011 and/or 2010:

	2011	2010
Pooled separate accounts:		
John Hancock USA Lifestyle Balanced	$ 528,242	$ 496,327
John Hancock USA Lifestyle Growth	301,884	303,220
John Hancock USA U.S. Government Securities	281,849	159,697
John Hancock USA Lifestyle Aggressive	208,129	205,507
BlackRock Global Allocation	177,879	247,669
John Hancock USA Lifestyle Moderate	164,128	180,693
Money Market Fund *	127,079	70,392
Other pooled separate accounts and GIC	413,520	535,235
	$ 2,202,710	$ 2,198,740

* Amount represents less than 5% of Plan's net assets at December 31, 2010, but is included for comparative purposes.

All investments are in participant directed accounts managed and held by John Hancock Life Insurance Company (U.S.A.) at December 31, 2011 and 2010.

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $46,092 for the year ended December 31, 2011 and appreciated in value by $236,962 for the year ended December 31, 2010.

Note 5. Fair Value Measurements (Unaudited)

Accounting principles generally accepted in the United States of America establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available.

Note 5. Fair Value Measurements (Unaudited) (Continued)

The three levels of the fair value hierarchy under accounting principles generally accepted in the United States of America, along with the valuation methodologies used for assets measured at fair value in the accompanying statements of net assets available for benefits, are described below:

Level 1 measurements – Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access. The Plan's investments in marketable securities are stated at fair market value determined by quoted market prices.

Level 2 measurements – Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. Pooled separate accounts generally follow written procedures for establishing the unit value on a periodic basis and are not traded on an established market. However, unit values are determined based upon the net asset value of the underlying securities held by the funds. Therefore, the inputs are observable but do not solely rely on quoted market prices to establish fair value.

Level 3 measurements – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The guaranteed investment contracts with John Hancock Life Insurance Company are not actively traded and significant other observable inputs are not available. The fair value of the guaranteed investment contracts is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Fair Value Measurements (Unaudited) (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

	Assets at Fair Value as of December 31, 2011

Note 5. Fair Value Measurements (Unaudited) (Continued)

For the year ended December 31, 2011, Level 2 assets depreciated in fair value by $46,092 and Level 3 assets depreciated in fair value by $80. For the year ended December 31, 2010, Level 2 assets appreciated in fair value by $236,962 and Level 3 assets depreciated in fair value by $166.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets (guaranteed investment contracts) for the years ended December 31:

	2011	2010

Net unrealized losses	(80)	(166)
Purchases	3,171	7,558
Sales	(2,294)	-
Transfers	1,998	(8,616)
Balance, end of year	$ 17,482	$ 14,635

During 2011 and 2010, transfers consisted of the issuance and repayment of participant loans.

Net realized gains of $52 and $92 included in the statements of changes in net assets available for benefits for the years ended December 31, 2011 and 2010, respectively, are reported in interest income and administrative expenses.

Net unrealized losses of $80 and $166 for the years ended December 31, 2011 and 2010, respectively, are not reported in the statements of changes in net assets available for benefits because those statements are prepared on a contract value basis.

Note 6. Guaranteed Investment Contracts

In 2009, the Plan entered into two benefit-responsive guaranteed investment contracts with John Hancock Life Insurance Company (U.S.A.). John Hancock Life Insurance Company (U.S.A.) maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Note 6. Guaranteed Investment Contracts (Continued)

Because the guaranteed investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts.

The guaranteed investment contracts are presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract values, as reported to the Plan by John Hancock Life Insurance Company (U.S.A.), represent contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contracts at December 31, 2011 and 2010 was $17,482 and $14,635, respectively. Interest rates are established on the first day of each calendar month and apply to all regular ongoing contributions made to these accounts in that month. These are called the "new money" regular rates. At the end of each reporting year, a "composite rate" of interest is determined. The composite rate is the effective annual rate earned by all contributions to the guaranteed interest accounts during that reporting year. At the end of each reporting year, contributions made will continue to earn that reporting year's composite interest rate until the end of the guaranteed term. For the years ended December 31, 2011 and 2010, the composite rates ranged from 0.05% to 1.60%. The average yield earned was 0.73% for 2011 and 1.37% for 2010. The current rates were 0.05% and 0.25% at December 31, 2011 and 0.05% and 0.20% at December 31, 2010.

Transfers between a guaranteed interest account and other investment options may be permitted at contract value under the terms of the Plan's contract with John Hancock Life Insurance Company (U.S.A.). Certain conditions apply. Transfers that are initiated on dates other than those specified in the contracts may be subject to an adjustment. Similarly, withdrawals taken from guaranteed interest accounts prior to the end of the guarantee period may be subject to a market value adjustment.

Note 7. Related Party and Party-in-Interest Transactions

At December 31, 2011 and 2010, the Plan held units in various pooled separate accounts of John Hancock Life Insurance Company (U.S.A). These transactions qualify as allowable party-in-interest transactions under the provisions of ERISA. The Plan paid $172 and $84 to John Hancock Retirement Plan Services for the years ended December 31, 2011 and 2010, respectively.

Note 7. Related Party and Party-in-Interest Transactions

The Pension Studio is a pension consulting firm that provides administrative services to the Plan and is considered a party-in-interest. Administrative fees paid by the Plan totaled $1,902 and $7,186 for the years ended December 31, 2011 and 2010, respectively.

Merrill Lynch provides investment management and advisory services to the Plan and its participants and is, therefore, considered a party-in-interest. Sales and base commissions paid totaled $10,838 and $7,668 for the years ended December 31, 2011 and 2010, respectively.

Expenses absorbed by the plan sponsor amounted to $11,500 for each year ended December 31, 2011 and 2010.

Note 8. Plan Termination

On December 1, 2011, the Company's Board of Directors decided to terminate the Plan effective December 31, 2011. Effective December 31, 2011, the Plan was amended to freeze and terminate, and no further contributions were permitted or made under the Plan with respect to plan compensation earned on or after the effective date.

Effective December 31, 2011, upon termination, all participants became 100% vested in their accounts.

Note 9. Concentrations, Risks and Uncertainties

At December 31, 2011, eighty-eight percent (88%) of total notes receivable from participants were due from five participants. Each participant's loan balance comprised of at least 10% or more of the total notes receivable from participants.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan also invests in various investment options that may invest in securities of foreign companies, which involve special risks and considerations not typically associated with investing in domestic companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments.

Note 9. Concentrations, Risks and Uncertainties (Continued)

Moreover, securities of foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable domestic companies.

Note 10. Tax Status

The Company has adopted a Volume Submitter Cross-Tested Profit Sharing 401(k) Plan with a cash or deferral arrangement that received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which states that the Plan and related Trust were designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended and restated since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the United States federal taxing authority. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011 and 2010, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 11. Subsequent Events

Plan management has evaluated subsequent events through October 8, 2012, the date the financial statements were available to be issued.

By May 30, 2012, all Plan assets were fully distributed to its participants in accordance with the Plan's termination amendment which was approved on December 1, 2011 and became effective December 31, 2011.
