Independent Auditors' Report

To the Plan Administrator of
Foster Wheeler Constructors, Inc. Craft Employees Savings Plan

We were engaged to audit the accompanying statements of net assets available for plan benefits of Foster Wheeler Constructors, Inc. Craft Employees Savings Plan (the "Plan") as of November 3, 2009 and December 31, 2008, and the related statement of changes in net assets available for benefits for the period ended November 3, 2009. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note 3, which was certified by Charles Schwab Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of November 3, 2009 and December 31, 2008 and for the period ended November 3, 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following description of the Foster Wheeler Constructors, Inc. Craft Employees Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan was a noncontributory defined contribution plan covering all non-union, hourly craft employees of Foster Wheeler Constructors, Inc. (the “Company”). The Plan also covered certain non-union, hourly craft employees of Foster Wheeler Zack, Inc. The Company is an indirectly wholly owned subsidiary of Foster Wheeler Inc. The Plan came into effect February 1, 1995 and was subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). Through 2008, employees who were paid on an hourly basis from a craft payroll and who completed 1,000 hours of straight-time service in the Plan year were eligible to participate in the Plan. Employees were eligible to participate on the first day of the Plan year in which the employee met the eligibility requirement.

Effective November 3, 2009, all assets of the Plan were merged into the Foster Wheeler Inc. 401(k) Plan (the “401(k) Plan”) and participants who had not withdrawn the vested value of their accounts or who were not eligible for such withdrawal automatically became inactive participants in the 401(k) Plan; that is, although they are not actively eligible to contribute to the 401(k) Plan, they retain vesting and distribution rights that were provided under this Plan.

Contributions

Through the 2008 Plan year, the Company contributed an amount equal to 3% of each participant’s straight-time earnings during each Plan year in which at least 1,000 hours of straight-time service was completed. Contributions were invested at the election of the participant. If no election was made by the participant, the funds were invested in a money market fund. Effective January 1, 2008, when no election was made, the funds were invested in the Qualified Default Investment Alternative, which was a Target Retirement Fund based on the age and projected retirement date of the participant.

Vesting and Forfeitures

Participants become vested in Company contributions at a rate of 20% for each completed year of service from date of hire, during which they completed at least 1,000 hours of straight-time service. At the end of five such years of service, a participant was 100% vested in the Plan. Service for vesting purposes continues to be considered through the 2009 Plan year and will continue under the affiliated 401(k) Plan where the participant’s account will remain until the benefit is paid.

If an active participant should die prior to completing five years of service, the beneficiary will receive all Plan proceeds as if the participant were fully vested.

In the event a Plan participant’s employment with the Company was terminated, the non-vested portion of the account was forfeited. Forfeitures of \$10,168 were unapplied as of December 31, 2008. Forfeitures and related earnings were used to reduce future employer contributions. During 2009, \$259,896 of forfeitures were applied toward the entire 2008 employer contribution and, as a result, no employer contribution or receivable was included in the 2008 financial statements. Forfeitures at November 3, 2009 in the amount of \$1,105,014 were transferred into the affiliated plan.

The accompanying notes are an integral part of these financial statements.

Distributions and Withdrawals

The Plan allowed withdrawals only upon a participant's retirement, termination of employment, disability or death. The Plan did not allow hardship withdrawals at any time.

The Plan paid all retirement, death or termination distributions in one lump sum.

Vested account balances of less than \$1,000 were distributed as soon as administratively possible after the termination of the participant.

Effective August 1, 2008, terminated participants could receive a distribution immediately after making the last contribution for which the participant was eligible. Also effective August 1, 2008, terminated participants who were eligible to receive distributions with vested account balances greater than \$1,000 but less than \$5,000 must have elected a distribution within 90 days of such eligibility. If no election was made within 90 days, the Plan administrator directed a distribution of the participant's account in the form of a rollover to an Individual Retirement Account in the participant's name.

Income Allocation

Until the Plan was merged with the 401(k) Plan, the Charles Schwab Trust Company (the "Trustee") credited each participant account with the Company's contributions and an allocation of earnings from each fund in which the participant was invested. These allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that could have been provided from the participant's vested account.

Plan Merger

Subsequent to the balance sheet date of December 31, 2008, management decided to merge the Foster Wheeler Constructors, Inc. Craft Employees Savings Plan into the 401(k) Plan. The merger of assets was completed on November 3, 2009 when assets of \$1,623,917 were transferred to the Foster Wheeler Inc. 401(k) Plan.

2. Summary of Significant Accounting Policies**Basis of Presentation**

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Codification

In June 2009, the Financial Accounting Standards Board ("FASB") issued *"The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles – a replacement of FASB Statement No. 162"*, ("FASB ASC") which is effective for reporting periods ending after September 15, 2009. The FASB ASC became the single source of authoritative nongovernmental U.S. generally accepted accounting principles ("GAAP"), superseding existing FASB, American Institute of Certified Public Accountants, Emerging Issues Task Force and related accounting literature. The FASB ASC reorganizes the thousands of GAAP pronouncements into roughly 90 accounting topics and displays them using a consistent structure. The adoption of the FASB ASC did not impact the Plan's financial position or results of operations.

Fair Value of Financial Instruments

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to

The accompanying notes are an integral part of these financial statements.

valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2008.

Money Market and Mutual Funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Investment Valuation and Income Recognition

Investments are carried at fair value. Cost approximates fair value for investments maintained in the Schwab Money Market Fund due to the short-term nature of the investments. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities were recorded on a trade-date basis. Dividend income was recorded on the ex-dividend date. Interest income was recorded on the accrual basis. Net appreciation included the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefit payments were recorded when paid.

The accompanying notes are an integral part of these financial statements.

Administrative Expenses

Expenses of the Plan were paid by the Company, if not paid by the Plan.

Mutual Fund Fees

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940. These sales charges are annual fees deducted to pay for marketing and distribution costs of the funds and are deducted prior to the allocation of investment earnings activity and, thus, not separately identifiable as an expense.

Accounting for Uncertainty in Income Taxes

The FASB issued an interpretation regarding Accounting for Uncertainty in Income Taxes. This interpretation clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB ASC 740, *Accounting for Income Taxes*, and is effective for fiscal years beginning after December 15, 2008. The Plan adopted the provisions of the pronouncement and the adoption did not impact the amounts reported in the Plan's financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and change therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates. Changes in estimates are reflected in the periods in which they become known.

Subsequent Events

The Company evaluated subsequent events through August 12, 2010, which is the date the financial statements were available to be issued.

3. Information Certified by the Trustee of the Plan

The Plan administrator has elected the method of compliance permitted by 29CFR2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Charles Schwab, the trustee of the Plan, has certified to the completeness and accuracy of all investments and related activity in the accompanying financial statements.

4. Investments

The Plan had no net assets remaining at November 3, 2009. The following table represents individual investments of the Plan at December 31, 2008 that represented 5 percent or more of the Plan's net assets:

	December 31, 2008
Schwab Retirement Advantage Money Fund, 2,378,617 shares	\$ 2,378,617

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$15,270. All amounts were maintained within mutual funds.

The accompanying notes are an integral part of these financial statements.

5. Fair Value Measurements

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. There were no assets remaining in the Plan at November 3, 2009. Prior to being transferred, all assets in the Plan were fair valued using level 1 inputs.

6. Tax Status

The Plan obtained its latest determination letter on July 1, 2004, in which the Internal Revenue Service stated that the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan was amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan was designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes was made.

7. Risks and Uncertainties

The Plan invested in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk and credit risk. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in values of investment securities would occur in the near term and that changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

8. Party-In-Interest Transactions

Certain Plan investments were units of money market funds managed by The Charles Schwab Trust Company. The Charles Schwab Trust Company was the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

The accompanying notes are an integral part of these financial statements.
