It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions - The Plan includes provisions of section 401(k) of the Internal Revenue Code as amended which allows participants to make tax deferred contributes up to the maximum amount allowed by law ($16,500 for the calendar year 2009 for participants under 50 years of age and $22,000 for participants 50 years of age or older) of their pretax annual eligible compensation, as defined in the Plan. The Company may make discretionary matching or profit sharing contributions. Profit sharing contributions for the years ending December 31, 2009 and 2008 totaled $137,444 and $-0-, respectively. Contributions are subject to certain limitations.

3. Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six or more years of credited service.

5. Investment Options - Upon enrollment in the Plan, a participant may direct employee contributions in various percentages in many different mutual funds provided by the custodian. Note 5 includes a list of the investments that represent five percent or more of the Plan's net assets.

6. Loans to Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Loans to Participant fund. Loan terms range from 1-5 years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan's administrator. Interest rates range from 4.25% to 6.00%. Principal and interest is paid ratably through payroll deductions.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

7. Payment of Benefits - On termination of service due to death, disability, retirement or any other reason, a participant with a vested benefit greater than $5,000 may elect to leave the funds in the Plan, or request one of the following - direct rollover into an IRA or other qualified plan which accepts direct rollovers, or receive a lump sum amount. For participants with a vested benefit less than $5,000, a participant will receive the benefits only in a lump sum as soon as administratively practicable after the time of termination.

8. Forfeited Accounts - Forfeited balances of terminated participants' nonvested accounts are used to reduce future company contributions.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting. Form 5500 is prepared using the cash basis of accounting. There are no material differences between the financial statements and the Form 5500 using these two methods of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of pooled separate accounts are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. The Plan's investment in the insurance company's general account (unallocated contracts) is valued at fair value using a market approach based on market prices of similar contracts. Participant loans are valued at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits and Plan Expenses

Benefits are recorded when paid. For the year ended December 31, 2009 the Plan paid $6,299 of the Plan's administrative expenses. For the year ended December 31, 2008, the Company paid $5,963 of the Plan's administrative expenses.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Risk and Uncertainties

The Plan provides for various investment securities, which are exposed to various risks such as interest rates, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 3 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a matter as the Company may determine.

NOTE 4 - TAX STATUS

The Internal Revenue Service has determined and informed the plan administrator by a letter dated January 13, 2003, that the Plan and related trust, as then designed, were in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 5 - INVESTMENTS

The Plan's investments are held by an insurance company administered trust fund. The information regarding investments at fair value included in the accompanying financial statements and supplemental schedule was obtained from data prepared and certified to as complete and accurate by the custodian, in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations for reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). The following table presents the fair value of investments. The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for reporting and Disclosure under ERISA. Accordingly, the plan administrator instructed the plan's independent auditors not to perform any auditing procedures with respect to the investments at fair value.

The custodian also certified to the completeness and accuracy of the Plan's net investment gain from pooled separate accounts, which amounted to $445,781 for the year ended December 31, 2009.

Note 6 - FAIR VALUE DISCLOSURES

Generally accepted accounting principles provides a framework for measuring fair value using a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value based upon whether the inputs to those valuation techniques are observable or unobservable. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical financial instruments and the lowest priority to unobservable inputs. Valuation techniques maximize the use of observable inputs and minimizes the use of unobservable inputs. The financial instrument's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Those inputs are summarized in the three broad levels listed below:

Level 1 - Unadjusted quoted prices for identical financial instruments in active markets that the Plan has the ability to access.

Level 2 - Other significant observable inputs (including quoted prices in active markets for similar financial instruments), or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the financial instruments.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the financial instruments. The fair value of level 3 financial instruments is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Following is a description of the valuation techniques used for assets measure at fair value. There have been no changes in the techniques used during 2009 and 2008.

Interest in pooled separate accounts are valued based on the fair value of the underlying investments.

Participant loans are valued at amortized cost, which approximates fair value.

NOTE 6 - FAIR VALUE DISCLOSURES (CONTINUED)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation techniques are appropriate and consistent with other market participants, the use of different techniques or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair values of investments are categorized as follows at December 31, 2009 and 2008.

	2009			
	Level 1	Level 2	Level 3	Total
Interest in Pooled Separate Accounts	-	$ 2,337,081	-	$ 2,337,081
