NOTE 1 DESCRIPTION OF PLAN

The following description of The Morgan Firm PA 401(k) Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of The Morgan Firm P.A. (the Company) who have six months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Contributions – Each year, participants may contribute from 1% to 75% of annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their account into various investment options offered by the Plan. The Plan currently offers a money market fund and various mutual funds as investment options for participants. During 2009, the Company contributed 25% of the first 5% of compensation that a participant contributed. During 2008, the Company contributed 50% of the first 15% of compensation that a participant contributed. Contributions are subject to certain limitations.

Contributions received in 2009 and 2008 are net of payments of $222,652 and $202,535 made in 2010 and 2009, respectively, to certain active participants to return to them excess contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. These amounts are also included in the Plan's statements of net assets available for benefits as excess contributions payable at December 31, 2009 and 2008.

Participant Accounts – Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant begins to vest in year two (20%) and increases ratably until fully vested in year six.

Participant Loans – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

NOTE 1 DESCRIPTION OF PLAN – Continued

Payment of Benefits – On termination of service, a participant may elect to receive a lump-sum amount equal to the value of his or her account, periodic installments, or an annuity contract.

Forfeited Accounts – At December 31, 2009 and 2008, forfeited nonvested accounts totaled $102,723 and $115,589, respectively. These amounts will be used to reduce future employer contributions. During 2009 and 2008, forfeitures of $11,020 and $35,567, respectively, were used to reduce employer contributions and forfeitures of $31,082 and $26,111, respectively, were allocated to eligible participants pro-rata based on compensation.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits – Benefits are recorded when paid.

Operating Expenses – Certain expenses of maintaining the Plan are paid by the Company.

Subsequent Events – The Company has evaluated subsequent events through August 10, 2010, the date which the financial statements were available to be issued.

	2009	2008
Mutual funds	$ 3,427,032	$ (7,341,445)

NOTE 5 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB), *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in an active market; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 5 FAIR VALUE MEASUREMENTS – Continued

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Money market fund: Valued based on the quoted prices in active markets for identical assets.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

Assets at Fair Value as of December 31, 2009

NOTE 6 RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by MATC. MATC is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

NOTE 8 TAX STATUS

The Plan and Trust has adopted the Paychex *Volume Submitter Profit Sharing Plan with CODA* documents and adoption agreement. The prototype plan sponsor, Paychex, Inc., obtained a favorable determination letter dated March 31, 2008; however, such letter is only applicable to Paychex, Inc. The Plan administrator has adopted all Plan provisions within the prototype document and believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with credit investment securities, changes in the values of investment securities could occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
