Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Participants
Doble Engineering Company Retirement Income Plan
Marlborough, Massachusetts

We were engaged to audit the financial statements and supplemental schedule of **Doble Engineering Company Retirement Income Plan** (the Plan) as of October 1, 2009 and December 31, 2008, and for the period from January 1, 2009 to October 1, 2009, and for the year ended December 31, 2008, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Principal Life Insurance Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee held the Plan's investment assets and executed investment transactions. The plan administrator has obtained a certification from the trustee as of October 1, 2009 and December 31, 2008, and for the period from January 1, 2009 to October 1, 2009, and for the year ended December 31, 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As further discussed in Notes 1 and 7 to the financial statements, Doble Engineering Company, the Plan's sponsor, was acquired by ESCO Technologies Inc. (ESCO) and voted to freeze the Plan as of December 31, 2008 and to merge the Plan with ESCO Technologies Inc. Retirement Plan (ESCO Retirement Plan) during 2009. On October 1, 2009 the Plan assets were merged into ESCO Retirement Plan.

1. Plan Description

The following description of Doble Engineering Company Retirement Income Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was a defined benefit plan covering all eligible employees of Doble Engineering Company (the Company, as defined in the Plan). The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

During November 2007 the Company was acquired by ESCO Technologies Inc. (ESCO). On October 1, 2009, the Plan was merged with the ESCO Technologies Inc. Retirement Plan and the Plan's assets were transferred into the ESCO plan.

Eligibility

To participate in the Plan an employee had to attain the age of 21 and have completed one year of service of at least 1,000 hours, as defined in the Plan.

Contributions

The Company made contributions to the Plan in such amounts and at such times as was required by its funding policy.

Pension Benefits

Eligible participants with five or more years of service were entitled to pension benefits beginning at normal retirement age of 65. The Plan permitted early retirement upon reaching age 60, with reduced benefits, for participants who had completed at least 10 years of service. The normal form of a pension distribution was a monthly payment to the participant during his or her lifetime or, for married participants, a 50 percent joint and survivor annuity. Terminating or retiring vested participants may have also elected to receive their pension benefits in various prescribed forms including a lump-sum distribution.

Death and Disability Benefits

If a fully vested participant died prior to his or her annuity start date, a pre-retirement death benefit would be payable to the participant's spouse. This benefit was payable monthly commencing as early as the first day of the month on or after the earliest date retirement benefits could have been paid to the participant had he or she ceased employment on the date of death and survived to retire, but no later than December 31 of the calendar year in which the participant would have reached age 70 1/2. If the spouse died before the qualified pre-retirement survivor annuity started, no death benefits were payable.

Continued --

1. Plan Description (Continued)

Death and Disability Benefits (Continued)

An inactive participant who suffered a total permanent disability before normal retirement date and was entitled to receive payments under the employer's long-term disability income plan would continue to accrue additional benefits under the Plan.

Vesting

A participant had a fully vested interest in the accrued benefit upon completion of five years of Plan service or after the earlier of age 65 or the date of eligibility for early retirement. If employees terminated before rendering five years of Plan service, they forfeited the right to receive their accumulated plan benefits.

2. Summary of Significant Accounting Policies

Accounting Standards Codification

Effective July 1, 2009 the Financial Accounting Standards Board's (FASB) Accounting Standards Codification (ASC) became the single official source of authoritative, nongovernmental U.S. generally accepted accounting principles (GAAP). The historical GAAP hierarchy was eliminated and the ASC became the only level of authoritative GAAP. The Plan's accounting policies were not affected by the conversion to ASC. However, the references to specific accounting standards in the notes have been changed to refer to the appropriate ASC topics in certain instances or otherwise omitted.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with GAAP.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation

The Plan's investments were stated at fair value, based upon quoted market prices, as determined by the trustee of the Plan. Purchases and sales of securities were recorded on a trade-date basis. Dividends were recorded on the ex-dividend date. Interest income was recorded on the accrual basis.

Continued --

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation (Continued)

The change in the fair value of investments and realized gains (losses) reflected in the accompanying statement of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments. The realized gain or loss on investments is the difference between the proceeds received and the fair value of the investment sold at the beginning of the Plan year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits were the future periodic payments, including lump-sum distributions, which were attributable under the Plan's provisions to the service employees had rendered. Accumulated plan benefits included benefits that were expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who had died and (c) present employees or their beneficiaries. Benefits under the Plan were based on employees' compensation during their highest ten consecutive years of credited service ending on the date as of which the benefit information was presented (the valuation date), calculated as defined in the Plan. Benefits payable under all circumstances were included to the extent they were deemed attributable to employee service rendered up to the valuation date. Benefits that were provided via annuity contracts were excluded from Plan assets and accumulated plan benefits.

The actuarial present value of accumulated plan benefits was determined by an actuary and was the amount that resulted from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawals or retirement) between the valuation date and the expected date of payment.

Significant actuarial assumptions used in the valuations as of December 31, 2008 were:

Valuation interest: active participants	8%, net of expenses
Valuation interest: retired participants	8%, net of expenses
Actuarial cost method	Entry age normal - frozen initial liability
Normal retirement age	65
Mortality table	RP-2000 Combined Mortality Table

The foregoing actuarial assumptions were based on the presumption that the Plan would continue. Were the Plan to terminate, different actuarial assumptions and other factors might have been applicable in determining the actuarial present value of accumulated plan benefits.

Payment of Benefits

Benefit payments to participants were recorded upon distribution.

3. Funding Policy

The Company's funding policy was to make annual contributions to the Plan sufficient to satisfy the minimum/maximum funding requirements of ERISA.

4. Information Prepared and Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The investment information included in the accompanying financial statements and supplemental schedule was obtained from data that has been certified as complete and accurate to the plan administrator by Principal Life Insurance Company (Principal), the trustee of the Plan, at October 1, 2009 and December 31, 2008. Incorporation of this financial information in the accompanying financial statements and supplemental schedules is based solely on that certification.

Investments that represent 5% or more of the Plan's net assets at October 1, 2009 and December 31, 2008 are as follows:

	2009	2008
Principal Bond and Mortgage	$ -	$ 2,258,353
Principal Partners Large-Cap Value I	-	1,070,999
Principal Partners Large-Cap Blend I	-	1,021,985
Principal U.S. Property	-	845,544
Principal Partners Large Company Growth I	-	808,137
Principal Large Company Growth	-	792,389
Principal Partners International	-	727,290
Principal International Growth	-	716,258

The investment income reported in the statements of changes in net assets available for benefits for the period from January 1, 2009 to October 1, 2009 and for the year ended December 31, 2008 was also certified by Principal.

5. Related Party Transactions

Certain investment securities are shares of pooled separate accounts managed by Principal Life Insurance Company. Principal is the trustee of the Plan, and therefore these transactions qualify as exempt party-in-interest transactions.

6. Tax Status

The Plan obtained its latest determination letter on March 27, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan had been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. Plan Termination

In conjunction with the acquisition of the Company by ESCO, the Company froze the Plan effective December 31, 2008 to exclude all post-2008 newly eligible employees from participating. Participants' accrued benefits were determined on the basis of their accrued service, average compensation and integration level as of December 31, 2008. No additional benefits were accrued under the Plan as of December 31, 2008. However, participants continued to accumulate vesting service. The rights of all participants to benefits became non-forfeitable to the extent funded or as guaranteed by the Pension Benefit Guaranty Corporation (PBGC), a United States Government agency.

8. Allocated Funds for Retirement Benefits

Funds allocated and applied to purchase annuities from Principal were excluded from the Plan's assets. The actuarial present value of retirement benefits related to the funds allocated for retirees was $2,307,060 at December 31, 2008.

As of October 1, 2009 Principal was unconditionally obligated to pay benefits to named employees or their beneficiaries under these annuity contracts. These contracts were transferred to ESCO Technologies, Inc. Retirement Plan.

9. Administrative Expenses

Administrative expenses were paid by the Plan. The Company provided certain accounting and administrative services to the Plan at no charge and paid for the annual audit.

10. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants, as of the measurement date. Authoritative guidance establishes a hierarchy of valuation techniques based upon whether the inputs to those valuation techniques reflect assumptions other market participants would use based upon market data obtained from independent sources (also referred to as observable inputs). The following summarizes the fair value hierarchy:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Continued--

10. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The determination of where assets and liabilities fall within this fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in the methodologies for the year ended December 31, 2008 and the period from January 1, 2009 to October 1, 2009.

Pooled separate funds: Valued at the net asset value of shares held by the Plan at year end.

Principal U.S. Property: Stated at the fair value of shares held by the Plan at year end as determined by a valuation consultant.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assumptions Prescribed by Law	
Mortality	During Benefit Payment Period IRS Prescribed Mortality-Optional Combined Table for Small Plans, male and female. Before Benefit Payment Period IRS Prescribed Mortality-Optional Combined Table for Small Plans, male and female.
Assumptions Selected by Actuary	
Retirement Age	Normal Retirement Age as defined in Plan Provisions
Disability	1987 Commissioner's Group Disability Table, six month elimination period, male and female.
Marriage	75% married; husbands are 3 years older than wives.
Withdrawal	2003 Society of Actuaries Small Plan Age Table, multiplied by 0.70.
Form of Benefit	Participants are assumed to receive their benefits on the normal form at the assumed retirement age.
Methods Prescribed by Law	
Liability Measure	Funding target is the present value of the benefits accrued on the valuation date. Target Normal Cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Methods Selected by Plan Sponsor	
Asset Measure	The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years. The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the Maximum Allowable Rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value. When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.
Yield Curve Rates	Full yield curve. Use the rates from the month preceding the valuation date.

Methods Elected by Actuary	
Retirees	Assets and liabilities for current and future retirees are included.
HCE Benefit Payment Restrictions	A ratio of the market value of assets and funding target is used to determine if restrictions apply. Assets and Funding Target are as of the valuation date and are reduced by: • any retiree benefit index or floor • amounts for HCEs who were previously restricted • an amount for the retiring HCE
PBGC Premium Basis	Premiums are calculated using the special segment rates (no 24-month averaging) in effect on the valuation date.
Assumptions and Methods Elected by Actuary SFAS No.35	
With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular Funding Target and Target Normal Cost.	
Interest Rate Used to Value Liabilities	8.00%

Schedule SB, Line 2a - Explanation of Assets
DOBLE ENGINEERING COMPANY RETIREMENT INCOME PLAN
EIN 041250160 Plan No. 001

Line 2a includes assets allocated for retirees' guaranteed benefits of $1,283,882.

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan signed 12/21/2001 including the 2007 Interim and Benefit Freeze Amendments.

Plan Eligibility	
Age	Attained age 21.
Service	One year of service of at least 1,000 hours worked. Plan participation is frozen as of December 31, 2008.

Normal Retirement Benefit	
Age	Later of attained age 65 or five years after the first day of the plan year in which his/her entry date occurred.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	.98% times final average compensation less than the integration level plus 1.55% times final average compensation greater than the integration level, all multiplied by number of years of accrual service up to 27 1/2 years. Accrued benefits are frozen as of December 31, 2008.

Early Retirement Benefit	
Age	Attained age 60.
Service	Ten years of vesting service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date reduced by 6 2/3% for each year up to five that the early retirement date precedes the normal retirement date.

Late Retirement Benefit	
Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on normal retirement date actuarially increased to late retirement date or accrued benefit on late retirement date.

Termination Benefit	
Vesting Percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Disability Benefit	
A. If not covered under the employers long-term disability plan.	
Age	Attained age 60.
Service	Ten years of vesting service.
Form	Monthly income payable until normal retirement, death, or recovery and a deferred annuity payable at the normal retirement date.
Amount	Accrued benefit on date of disability reduced to reflect payments made prior to normal retirement date.
B. If covered under the employers long term disability plan.	
Eligibility	An active participant who becomes totally and permanently disabled.
Form	Monthly income payable at the normal retirement date.
Amount	Expected benefit at normal retirement age with service and compensation continuing to accrue while disabled.

Survivor Annuity Death Benefit	
Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Definitions	
Final Average compensation	The average annual base salary earned during the highest 10 consecutive years. Average compensation is frozen as of December 31, 2008.
Integration Level	The monthly average of the Social Security Taxable Wage Bases in effect under Section 230 of the Social Security Act for each year in the 35-year period ending with the year the employee attains Social Security Retirement Age.
Optional Forms of Benefit Payments	The optional forms of benefit payments are: • Monthly annuity payable for life, life with Social Security adjustment or 5, 10, or 15 years certain and life • Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75 or 100. The optional form conversion basis is 7.5% interest and the mortality table in Revenue Ruling 95-6 for payments other than lump sums.

Since the last valuation, plan benefits and participation have been frozen.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 25 – Change in Method
DOBLE ENGINEERING COMPANY RETIREMENT INCOME PLAN
EIN 041250160 Plan No. 001

A change in funding method has occurred since last year due to:

- a change in the valuation interest rate to yield curve
- a change in the asset valuation method to use smoothed value
- a change to include an administrative expense estimate in the Target Normal Cost

These are available under Code section 430 and do not need IRS approval.
