Independent Auditors' Report

To the Plan Administrator and Participants
of the Trintech, Inc. 401(k) Plan

We were engaged to audit the financial statements and supplemental schedules of the Trintech, Inc. 401(k) Plan ("the Plan") as of December 31, 2011 and 2010, and for the year ended December 31, 2011, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to information summarized in Note 4, which was certified by Delaware Charter Guarantee and Trust Company dba Principal Trust Company ("Principal"), the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that Principal holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from Principal as of December 31, 2011 and 2010, and for the year ended December 31, 2011, that the information provided to the Plan Administrator by Principal is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by Principal, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010 (See Auditors' Report)

NOTE 1 – DESCRIPTION OF PLAN

General **–** The following description of the Trintech, Inc. 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan that was established on May 1, 1998 by Trintech, Inc. covering all eligible employees of Trintech, Inc. and its affiliates (collectively referred to as "the Company" or "Plan Administrator") who are 21 years or older. Certain nonresident aliens who have no earned income from sources within the United States are excluded from Plan participation. The Plan Administrator believes the Plan is designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Administration **–** The Company has appointed certain employees to act as Plan Trustees. An Administrative Committee ("the Committee") manages the operation and administration of the Plan. The Company has contracted with Delaware Charter Guarantee and Trust Company dba Principal Trust Company ("Principal") to act as custodian. The Company has contracted with a third–party administrator to act as the record-keeper and process and maintain the records of participant data.

Participant Contributions **–** Each year, participants may contribute up to 100% of eligible compensation as defined in the Plan, not to exceed the maximum statutory amount. The Plan allows for Roth 401(k) contributions. The Plan was restated and the following change for automatic deferral enrollment was made effective August 1, 2011: automatic deferral provisions apply to all eligible employees except those with salary reduction agreements already in place. The automatic deferral amount is equal to 4% of a participant's compensation each payroll period unless the participant makes a contrary election. Withdrawal of automatic deferral amounts are allowed within 90 days after the date of the first automatic deferral. There are no scheduled increases in the automatic deferral rate.

Participants who are 50 or older can elect to make catch-up contributions to the Plan, not to exceed the maximum statutory amount. Participants are also allowed to make rollover contributions of amounts received from other tax qualified employer sponsored retirement plans.

Employer Contributions – Participants who have completed at least 1,000 hours of service during the Plan year and actively employed on the last day of the Plan year are eligible to receive a discretionary nonelective contribution as determined by the Board of Directors. The Plan also allows for a discretionary match contribution at the option of the Company. No discretionary employer contributions were made for 2011.

Participant Accounts – Each participant's account is credited with the participant's contribution and Company contributions (if any), and an allocation of Plan earnings or losses, and administrative expenses as applicable to the Plan. Allocations of the discretionary Company nonelective contribution are based on participant compensation. Plan earnings and losses are credited or charged to participant accounts based on individual participant investment choices. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All contributions/investments are participant directed.

Certain investment and fund fees are charged to the funds and are included in Plan investment income and losses and charged to participant accounts. Participants should refer to the funds' prospectuses for further information on these fees.

Vesting – Participants are immediately vested in their contributions and rollover amounts, if any, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of credited service at a rate of 20% per year beginning at the end of the second year. A participant is 100% vested after six years of credited service. Participants become fully vested in the event of death, permanent disability, normal retirement age or Plan termination.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. Participants are limited to two outstanding notes at any time. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with the prevailing rates of commercial lenders for similar notes and shall be determined by the Committee. The outstanding notes carry interest rates which range from 4.25% to 7.00% and from 4.25% to 8.50% at December 31, 2011 and 2010, respectively. Principal and interest is paid ratably through payroll deductions. Notes must be repaid within a five-year period, unless used for the purchase of a principal residence, in which case the maximum repayment period may be

longer. The specific terms and conditions of such notes are established by the Plan Administrator.

Payment of Benefits – Distributions from the Plan may only be made after specific events have occurred. Participants are eligible for a distribution upon termination of employment, death, disability or retirement, and are paid in accordance with Plan provisions. Participants may be eligible to receive distributions up to their vested account balance in the case of financial hardship. Participants are eligible to receive in-service distributions upon attaining age $59^{1/2}$.

Forfeited Accounts – Forfeitures may first be used to pay any Plan administrative expenses. Any remaining forfeitures will be allocated as an additional discretionary matching contribution. The forfeiture account balance was $0 as of December 31, 2011 and 2010.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments of the Plan are reported at fair value as determined by Principal. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants in the financial statements are measured at their unpaid principal balance plus any

accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses – Substantially all expenses incurred for administering the Plan are paid by the Company; certain participant note and distribution fees are paid by participants and charged to their accounts.

Payment of Benefits – Benefits are recorded when paid.

Accounting pronouncement – In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-04, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards ("IFRS")." ASU 2011-04 amended Accounting Standards Codification ("ASC") 820, "Fair Value Measurement," to converge the fair value measurement guidance in U.S. GAAP and IFRS. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Subsequent Events – The Plan has evaluated subsequent events through October 9, 2012, the date the financial statements were available to be issued.

NOTE 3 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 4 – CERTIFIED INFORMATION

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, information certified below by Principal regarding the current value of the assets held as of December

31, 2011 and 2010, and transactions entered into during the year ended December 31, 2011, was used in the preparation of the accompanying financial statements and supplemental schedules. The following table includes the fair values of investment funds that represent 5% or more of the Plan's net assets available for benefits at December 31:

During the year ended December 31, 2011, dividend and interest income was as follows:

Mutual fund dividends	$ 96,730
Guaranteed account interest	5,937
Dividends and interest income	$102,667
Interest income on notes receivable from participants	$2,174

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value as follows for the year ended December 31, 2011:

Mutual funds	($268,346)

NOTE 5 – FAIR VALUE MEASUREMENTS

FASB ASC 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;

- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end based on closing market prices.

Guaranteed account: Valued at the amount the Plan Sponsor would receive if they terminated the contract at a reporting date, which is book value less an applicable withdrawal charge.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at Fair Value as of December 31, 2011

NOTE 6 – FIXED INCOME GUARANTEED OPTION

The Principal Fixed Income Guaranteed Option account is reported at contract value by Principal. Guaranteed accounts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant

measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts. The guaranteed account is considered fully benefit-responsive. The adjustment between fair and contract value is reflected on the financial statements of December 31, 2011 and 2010. The crediting rate, the average yield to the Plan, and the average yield paid to participants was approximately 2.83% for 2011 and approximately 2.8% for 2010. The minimum crediting interest rate is 3%. Crediting rates are reset on a semiannual basis and is based on the Plan's contract with Principal.

NOTE 7 – RELATED PARTY TRANSACTIONS

Plan investments are managed by the custodian of the Plan. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 8 – PLAN TERMINATION AND/OR MODIFICATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend or terminate the Plan at any time, subject to the provisions of ERISA.

NOTE 9 – TAX STATUS

The Plan has adopted a prototype plan which received an opinion letter dated March 31, 2008 from the Internal Revenue Service ("IRS"). The Plan has been amended since, however, the Plan Administrator believes that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code and state statutes and is exempt from federal income and state franchise taxes.

U.S. GAAP require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by various taxing authorities and government agencies. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years for which the applicable statutes of limitations have expired.

NOTE 10 – NON-EXEMPT TRANSACTIONS

Certain participant contributions and loan repayments in the amount of $55,076 made by participants in 2011 were not deposited with the custodian on a timely basis. Because of the delay in deposit, these amounts are considered prohibited transactions under ERISA. The lost earnings (prohibited transaction amount) of $78 were deposited into the Plan in 2012 and the necessary excise tax filing was made with the IRS in 2012.
