TEXAS INDEPENDENT BANCSHARES, INC.
EMPLOYEES' PROFIT-SHARING/401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2011 AND 2010

(1) SUMMARY DESCRIPTION OF PLAN:

General -

The following description of the Texas Independent Bancshares Employees' Profit-Sharing/401(k) Plan (the "Plan") is provided for general information purposes only. The Plan is sponsored by Texas Independent Bancshares, Inc. ("TIB" or the "Company"). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan was effective January 1, 1976, restated January 1, 2010, and is a defined contribution plan covering all employees of the Company, except nonresident aliens. Employees are immediately eligible to participate in employee deferrals and are eligible for employer contributions upon completion of one year of service with 1,000 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company has contracted with The Allocation Company to serve as the third-party administrator of the Plan. The Plan Trustee is the Vice Chairman of The Board of Texas First Bank.

Contributions -

Participant -

Participants may elect to contribute a percentage of their eligible compensation into the Plan after the eligibility requirements are met. For contributions withheld from compensation, the percentage is subject to an annual limit of the lesser of 100% of eligible compensation or $16,500 (the maximum annual salary deferral contribution limit as set forth by the Internal Revenue Code ("IRC") for 2011 and 2010, respectively) in a calendar year. Participants may enroll or change their contribution election twice a year, on January 1 and July 1. Some or all of a participant's contribution may be designated as a Roth Deferral Contribution. Roth Deferral Contributions are made on an after-tax basis; however, such contributions will not be taxed at the time of a distribution. All participants who were eligible to make salary deferral contributions under the Plan and who have attained age 50 before the close of the Plan year were eligible for catch-up contributions of up to $5,500 during 2011 and 2010. Participants may also make rollover contributions from other qualified plans.

Employer -

The Employer may contribute to the Plan a discretionary matching percentage of salary deferrals, which percentage will be determined each year and applied to participants' accounts each payroll period. In 2011, the Employer made discretionary matching contributions of approximately $239,587. There was no such match made during 2010.

The Employer may also contribute to the Plan a discretionary profit-sharing contribution in an amount to be determined at the Plan year end by the 401(k) Committee. Profit-sharing contributions made to the Plan by the Employer will be allocated to each participant's account in the ratio that a participant's compensation bears to the total eligible compensation paid to all eligible participants. There were no discretionary profit-sharing contributions in 2011 and 2010.

(1) SUMMARY DESCRIPTION OF PLAN: (Continued)

Participant Accounts -

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, forfeitures, and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a Participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting -

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service as follows:

Periods of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Payment of Benefits -

Distributions to participants are payable through lump-sum payments. Payments can be made to participants or their beneficiaries upon termination of employment, retirement, disability, or death. Employee elective deferral contributions may be withdrawn during employment after the employee reaches age 59½ or upon showing immediate and substantial financial hardship. Normal retirement age is 65.

On termination, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or elect to receive a partial amount of their vested interest in his or her account. If the participant chooses to leave their account under the Plan, it will continue to participate in the Plan investments and provide benefits when they retire or die.

Disposition of Forfeitures -

Forfeitures are retained in the Plan and are to be allocated to participants. Non-vested accounts totaling $29,053 and $17,129 were forfeited during the years ended December 31, 2011 and 2010, respectively, and allocated to participant account balances. None of this amount was used to reduce Company contributions. Plan forfeitures available for use in accordance with the Plan document totaled $49,021 and $40,977 as of December 31, 2011 and 2010, respectively.

(1) SUMMARY DESCRIPTION OF PLAN: (Continued)

Investment Options -

Participants may direct the investment of their funds into any of the pooled separate accounts or a stable value fund offered by the Plan. Alternatively, Participants have an option to retain the Trustee-directed investments or, up to four times, transfer a portion of the balance to the participant-directed investments.

Plan Expenses -

Administrative expenses may be paid by the Company or the Plan at the Company's discretion. All expenses of maintaining the Plan other than direct investment expenses are paid by the Company.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting -

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates -

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Contributions -

Contributions from the Company and participants are accrued as they become obligations of the Company, as determined by the Plan's Administrator, and in the period in which they are deducted, in accordance with salary deferral agreements.

Investment Valuation and Income Recognition -

The investments of the Plan are stated at fair value as of the end of the year and are subject to market or credit risks customarily associated with equity investments. Fair value measurements are determined in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic No. 820, Fair Value Measurements, which defines fair value, establishes a framework for measuring fair value, and expands disclosures about assets and liabilities measured at fair value. See Note 8 for information related to the Plan's valuation methodologies under FASB ASC Topic No. 820.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits -

Benefits are recorded when paid.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

Recently Issued Accounting Pronouncements -

In May, 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs.* ASU 2011-04 amended ASC 820, to converge the fair value measurement guidance in U.S. generally accepted accounting principles and International Financial Reporting Standards. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures will not be required for nonpublic entities like MEIT. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

(3) INVESTMENTS:

Company Stock -

The fair value per share of Company stock is annually determined as of Plan year end by an independent appraiser. Annual valuations are based on actual results as of December 31, 2011 and 2010. (4) PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to suspend or discontinue contributions at any time or terminate the Plan, subject to the provisions of ERISA. In the event of complete or partial Plan termination, participants will become 100% vested in their accounts.

Upon such termination of the Plan or complete discontinuance of Company contributions, Plan assets shall be distributed to the Participants within a reasonable period of time following issuance by the Internal Revenue Service of a determination letter regarding the qualified status of the Plan. The Plan committee shall direct the Trustee to distribute a Participant's vested accounts to the Participant or to the Participant's designated beneficiary as specified in Note 1.

(5) TAX STATUS:

The Internal Revenue Service has determined and informed the administrator by a letter dated March 31, 2008, that the prototype plan is designed to be in accordance with applicable sections of the Internal Revenue Code (IRC) and, therefore, the Plan is tax-exempt. The letter also states that an employer who adopts the prototype plan may rely on the letter in respect to qualification of its plan under Internal Revenue Code section 401(a).

The Company has not requested an individual determination letter on the Plan.

The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes it is no longer subject to income tax examination for years prior to 2008.

(6) RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

(7) FAIR VALUE MEASUREMENTS:

FASB ASC Topic No. 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a three-tier hierarchy that is used to identify assets and liabilities measured at fair value. The hierarchy focuses on the inputs used to measure fair value and requires that the lowest level input be used. The three levels defined in FASB ASC Topic No. 820 are as follows:

Level 1 - observable inputs that are based upon quoted market prices for identical assets or liabilities within active markets.

Level 2 - observable inputs other than Level 1 that are based upon quoted market prices for similar assets or liabilities, based upon quoted prices within inactive markets, or inputs other than quoted market prices that are observable through market data for substantially the full term of the asset or liability.

Level 3 - inputs that are unobservable for the particular asset or liability due to little or no market activity and are significant to the fair value of the asset or liability. These inputs reflect assumptions that market participants would use when valuing the particular asset or liability.

FASB ASC Topic No. 820 requires that management describe the methodologies used to measure the fair value of assets and liabilities. The methodology used to measure each major category of assets and liabilities is described below. There have been no changes in the methodologies used at December 31, 2011 and 2010.

- *Pooled Separate Accounts*: Valued based on the number of shares held of the respective underlying fund at the closing net asset value per share quoted by that fund.

- *Plan Sponsor Common Stock*: Valued at estimated fair value based on independent appraisal.

- *Debt and Equity Securities*: Valued at the closing price reported on the active market on which the individual securities are traded.

- *Stable Value Fund*: The fair value is based on the net asset value of units held by the Plan at December 31, 2011 and 2010.

(7) FAIR VALUE MEASUREMENTS: (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at Fair Value as of December 31, 2011

(7) FAIR VALUE MEASUREMENTS: (Continued)

These items are classified in their entirety based on the lowest priority level of input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the placement of assets and liabilities within the levels of the fair value hierarchy.

TEXAS INDEPENDENT BANCSHARES, INC.
EMPLOYEES' PROFIT-SHARING/401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2011 AND 2010

(1) SUMMARY DESCRIPTION OF PLAN:

General -

The following description of the Texas Independent Bancshares Employees' Profit-Sharing/401(k) Plan (the "Plan") is provided for general information purposes only. The Plan is sponsored by Texas Independent Bancshares, Inc. ("TIB" or the "Company"). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan was effective January 1, 1976, restated January 1, 2010, and is a defined contribution plan covering all employees of the Company, except nonresident aliens. Employees are immediately eligible to participate in employee deferrals and are eligible for employer contributions upon completion of one year of service with 1,000 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company has contracted with The Allocation Company to serve as the third-party administrator of the Plan. The Plan Trustee is the Vice Chairman of The Board of Texas First Bank.

Contributions -

Participant -

Participants may elect to contribute a percentage of their eligible compensation into the Plan after the eligibility requirements are met. For contributions withheld from compensation, the percentage is subject to an annual limit of the lesser of 100% of eligible compensation or $16,500 (the maximum annual salary deferral contribution limit as set forth by the Internal Revenue Code ("IRC") for 2011 and 2010, respectively) in a calendar year. Participants may enroll or change their contribution election twice a year, on January 1 and July 1. Some or all of a participant's contribution may be designated as a Roth Deferral Contribution. Roth Deferral Contributions are made on an after-tax basis; however, such contributions will not be taxed at the time of a distribution. All participants who were eligible to make salary deferral contributions under the Plan and who have attained age 50 before the close of the Plan year were eligible for catch-up contributions of up to $5,500 during 2011 and 2010. Participants may also make rollover contributions from other qualified plans.

Employer -

The Employer may contribute to the Plan a discretionary matching percentage of salary deferrals, which percentage will be determined each year and applied to participants' accounts each payroll period. In 2011, the Employer made discretionary matching contributions of approximately $239,587. There was no such match made during 2010.

The Employer may also contribute to the Plan a discretionary profit-sharing contribution in an amount to be determined at the Plan year end by the 401(k) Committee. Profit-sharing contributions made to the Plan by the Employer will be allocated to each participant's account in the ratio that a participant's compensation bears to the total eligible compensation paid to all eligible participants. There were no discretionary profit-sharing contributions in 2011 and 2010.

(1) SUMMARY DESCRIPTION OF PLAN: (Continued)

Participant Accounts -

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, forfeitures, and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a Participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting -

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service as follows:

Periods of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Payment of Benefits -

Distributions to participants are payable through lump-sum payments. Payments can be made to participants or their beneficiaries upon termination of employment, retirement, disability, or death. Employee elective deferral contributions may be withdrawn during employment after the employee reaches age 59½ or upon showing immediate and substantial financial hardship. Normal retirement age is 65.

On termination, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or elect to receive a partial amount of their vested interest in his or her account. If the participant chooses to leave their account under the Plan, it will continue to participate in the Plan investments and provide benefits when they retire or die.

Disposition of Forfeitures -

Forfeitures are retained in the Plan and are to be allocated to participants. Non-vested accounts totaling $29,053 and $17,129 were forfeited during the years ended December 31, 2011 and 2010, respectively, and allocated to participant account balances. None of this amount was used to reduce Company contributions. Plan forfeitures available for use in accordance with the Plan document totaled $49,021 and $40,977 as of December 31, 2011 and 2010, respectively.

(1) SUMMARY DESCRIPTION OF PLAN: (Continued)

Investment Options -

Participants may direct the investment of their funds into any of the pooled separate accounts or a stable value fund offered by the Plan. Alternatively, Participants have an option to retain the Trustee-directed investments or, up to four times, transfer a portion of the balance to the participant-directed investments.

Plan Expenses -

Administrative expenses may be paid by the Company or the Plan at the Company's discretion. All expenses of maintaining the Plan other than direct investment expenses are paid by the Company.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting -

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates -

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Contributions -

Contributions from the Company and participants are accrued as they become obligations of the Company, as determined by the Plan's Administrator, and in the period in which they are deducted, in accordance with salary deferral agreements.

Investment Valuation and Income Recognition -

The investments of the Plan are stated at fair value as of the end of the year and are subject to market or credit risks customarily associated with equity investments. Fair value measurements are determined in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic No. 820, Fair Value Measurements, which defines fair value, establishes a framework for measuring fair value, and expands disclosures about assets and liabilities measured at fair value. See Note 8 for information related to the Plan's valuation methodologies under FASB ASC Topic No. 820.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits -

Benefits are recorded when paid.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

Recently Issued Accounting Pronouncements -

In May, 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs.* ASU 2011-04 amended ASC 820, to converge the fair value measurement guidance in U.S. generally accepted accounting principles and International Financial Reporting Standards. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures will not be required for nonpublic entities like MEIT. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

(3) INVESTMENTS:

Company Stock -

The fair value per share of Company stock is annually determined as of Plan year end by an independent appraiser. Annual valuations are based on actual results as of December 31, 2011 and 2010. Participation units outstanding and participants' equity per unit, at December 31, 2011 and 2010, were as follows:

	Year Ended December 31,	
	2011	2010
Company Common Stock -		
Number of shares	40,458	38,958

(4) PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to suspend or discontinue contributions at any time or terminate the Plan, subject to the provisions of ERISA. In the event of complete or partial Plan termination, participants will become 100% vested in their accounts.

Upon such termination of the Plan or complete discontinuance of Company contributions, Plan assets shall be distributed to the Participants within a reasonable period of time following issuance by the Internal Revenue Service of a determination letter regarding the qualified status of the Plan. The Plan committee shall direct the Trustee to distribute a Participant's vested accounts to the Participant or to the Participant's designated beneficiary as specified in Note 1.

(5) TAX STATUS:

The Internal Revenue Service has determined and informed the administrator by a letter dated March 31, 2008, that the prototype plan is designed to be in accordance with applicable sections of the Internal Revenue Code (IRC) and, therefore, the Plan is tax-exempt. The letter also states that an employer who adopts the prototype plan may rely on the letter in respect to qualification of its plan under Internal Revenue Code section 401(a).

The Company has not requested an individual determination letter on the Plan.

The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes it is no longer subject to income tax examination for years prior to 2008.

(6) RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

(7) FAIR VALUE MEASUREMENTS:

FASB ASC Topic No. 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a three-tier hierarchy that is used to identify assets and liabilities measured at fair value. The hierarchy focuses on the inputs used to measure fair value and requires that the lowest level input be used. The three levels defined in FASB ASC Topic No. 820 are as follows:

Level 1 - observable inputs that are based upon quoted market prices for identical assets or liabilities within active markets.

Level 2 - observable inputs other than Level 1 that are based upon quoted market prices for similar assets or liabilities, based upon quoted prices within inactive markets, or inputs other than quoted market prices that are observable through market data for substantially the full term of the asset or liability.

Level 3 - inputs that are unobservable for the particular asset or liability due to little or no market activity and are significant to the fair value of the asset or liability. These inputs reflect assumptions that market participants would use when valuing the particular asset or liability.

FASB ASC Topic No. 820 requires that management describe the methodologies used to measure the fair value of assets and liabilities. The methodology used to measure each major category of assets and liabilities is described below. There have been no changes in the methodologies used at December 31, 2011 and 2010.

- *Pooled Separate Accounts*: Valued based on the number of shares held of the respective underlying fund at the closing net asset value per share quoted by that fund.

- *Plan Sponsor Common Stock*: Valued at estimated fair value based on independent appraisal.

- *Debt and Equity Securities*: Valued at the closing price reported on the active market on which the individual securities are traded.

- *Stable Value Fund*: The fair value is based on the net asset value of units held by the Plan at December 31, 2011 and 2010.

(7) FAIR VALUE MEASUREMENTS: (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:
