INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Builders Fence Company, Inc.
401(k) Profit Sharing Plan
Sun Valley, California

We have audited the accompanying statement of net assets available for benefits of Builders Fence Company, Inc.'s 401 (k) Profit Sharing Plan (the "Plan") as of December 31, 2011, and the related statement of changes in net assets available for benefits for the year then ended, and the supplemental schedule of Schedule H, line 4i-Schedule of Assets (Held at End of Year) as of and for the year ended December 31, 2011. These financial statements and the supplemental schedule are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit. We were also engaged to audit the accompanying statement of net assets available for benefits as of December 31, 2010 and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management.

Except as discussed in the following paragraph, we conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit of the December 31, 2011 financial statements provide a reasonable basis for our opinion.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Reliance Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that Reliance Trust Company, Trustee, held the Plan's investment assets and executed its investment transactions. The Plan administrator has obtained certification from the trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the Plan administrator by the trustee is complete and accurate.

In our opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had we performed procedures with respect to the information summarized in Note 5, the financial statements referred to above present fairly, in all material respects, the financial status of Builders Fence Company, Inc.'s 401 (k) Profit Sharing Plan as of December 31, 2011 and the changes in its financial status for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit of the 2011 financial statements was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule listed in the accompanying index is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, except for the effects on the supplemental schedule of such adjustments, if any, as might have been determined to be necessary had we performed procedures with respect to the information summarized in Note 5 as described in the third paragraph, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Because of the significance of the information in the Plan's 2010 financial statements that we did not audit, we are unable to, and do not, express an opinion on the Plan's financial statements as of and for the year ended December 31, 2010. The form and content of the information included in the 2010 financial statements, other than that derived from the information certified by the trustee, have been audited by us, in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1

DESCRIPTION OF THE PLAN

The following summary description of the Builders Fence Company, Inc. 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution qualified discretionary plan with a cash or deferred arrangement feature under Section 401(k) of the Internal Revenue Code, for the benefit of eligible employees of Builders Fence Company, Inc. The Plan is sponsored by Builders Fence Company, Inc., (the "Employer") and became effective on July 1, 2005. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Change of Plan Trustee:

On November 22, 2011, the Plan Sponsor authorized the termination of services and transfer of Plan assets from the predecessor trustee to the new trustee. As part of the process, all outstanding investment accounts were terminated and liquidated into cash totaling $1,534,005 as of December 31, 2011. The transfer of the cash balance to the new Trustee was initiated on December 30, 2011.

Eligibility:

In order to be eligible for salary deferral and Employer matching contributions, the participant must have attained age 18, and have completed 6 months of service.

In order to be eligible for Employer discretionary contributions, a participant must have attained age 18, and have completed one year of service. One year of service is completed on the last day of the eligibility computation period in which the participant is credited with 1,000 hours of service.

The "Eligibility Computation Period" is the 12 month period that begins with the date the participant was hired. Thereafter, the Eligibility Computation Period becomes the Plan Year and begins the first day of the Plan Year that began in the participant's initial Eligibility Computation Period. Each subsequent period is the Plan Year.

Participant contributions:

A participant's total contribution for any one calendar year is limited to the maximum annual contribution allowable pursuant to the requirements of section 401(k) of the Internal Revenue Code. The maximum annual contribution limit is $16,500 for 2011 and 2010.

Catch-up contributions:

All employees who are eligible to make elective deferrals under this Plan and who have attained age 50 before the close of a Plan Year shall be eligible to make catch-up contributions from that period forward. Catch-up contributions can occur under three different circumstances as described in the Plan agreement.

Participant accounts:

Each participant's account is credited with the participant's contribution, and allocations of the Employer contributions and administrative expenses. In addition, each participant's account is valued as of each daily valuation date with earnings and losses allocated on the basis of the ratio that a participant's account balance as of the prior valuation date bears to the total account balances of all participants in the same investment, plus any adjustments for transactions since the last valuation date. Each participant is then credited with that percentage of earnings or losses. The benefit to which a participant

is entitled is the benefit that can be provided from the participant's vested account. If a participant receives a distribution from the Plan as of any date other than a valuation date, the value of the participant's account will be the value as of the prior valuation date.

Employer contributions:

Matching

Participants are eligible to receive an allocation of Employer matching contributions regardless of the Hours of Service earned by a participant in any Plan year as long as the participant was employed and participating in the Plan on any day during the Plan year. The amount of match depends on a participant's 401(k) contribution. Each year the Employer will provide a matching contribution at its discretion that will be allocated to each participant's account in proportion to each participant's contribution to total participants' contributions made during the year. Effective for the Plan Year beginning January 1, 2009, the Plan adopted and enacted "Safe Harbor" provisions under Section 1433(a) of the Small Business Job Protection Act of 1996. Under "Safe Harbor" provisions, participants are immediately 100% vested on all Qualified Employer matching contributions. Subsequently, the Plan was modified and discontinued the Employer matching contributions as of April 1, 2009. There were no Employer matching contributions for the years ended December 31, 2011 and 2010, respectively.

Discretionary

The Employer may make discretionary contributions as determined by the Employer. This discretionary contribution is allocated based on employee groups to be determined at the end of each Plan year. Participants are eligible to receive an allocation of Employer discretionary contributions if they complete at least 1,000 hours of service during a Plan Year and are employed on the last day of the Plan Year. There were no discretionary contributions for the years ended December 31, 2011 and 2010.

Vesting:

Participants are immediately vested in their elective contributions, as adjusted for actual earnings or losses thereon. Participants become vested in the Employer's discretionary and matching contributions commencing on the participant's date of hire according to the following schedule:

YEARS OF SERVICE	PERCENT VESTED
less than 2 years	0%
2 but < 3 years	20%
3 but < 4 years	40%
4 but < 5 years	60%
5 but < 6 years	80%
6 or more	100%

Participants are considered fully vested upon attainment of retirement age, retirement due to disability, death, and upon termination of the Plan.

Notes receivable from participants:

Actively employed participants may borrow from their vested accounts a minimum of $1,000 up to the lesser of $50,000 or 50% of the participant's vested account balance. The $50,000 maximum amount will be reduced by the participant's highest outstanding Plan loan balance in the prior twelve months, even if amounts have been repaid. A participant may have no more than one loan outstanding at any one time. Loans are for a period not exceeding five years, except for loans used to acquire a principal residence of a participant. In such cases, the loan is to be repaid within ten years. All loans are secured by no more than 50% of the present value of a participant's vested interest in the Plan. Interest rates will be determined from time to time by the trustee. Until otherwise changed by the trustee, the interest rate will be the prime rate of interest charged by any financial institution as of the

date the loan is funded plus 2%. At December 31, 2011 and 2010, the rates ranged from 5.25% to 7.0%. The current value of loans to participants was $73,836 and $79,875 at December 31, 2011 and 2010, respectively.

Benefit payments:

Benefits are recorded when paid. Benefit payments are made in the form of a lump-sum distribution. Unless a participant chooses to defer receipt of his/her distribution, the Plan must begin disbursing payments within 60 days after the close of the Plan year following the latest of the following:

a) The date on which a participant reached normal retirement age;
b) The 10th anniversary of the year in which a participant became a participant in the Plan; or
c) The date a participant terminated employment with the employer.

Forfeitures:

If a participant terminates service with the Employer, and the participant receives a distribution of the entire vested portion of his/her account balance, the non-vested portion shall be forfeited. If the value of a participant's vested account balance is zero, the participant shall be deemed to have received a distribution of such vested account balance as of his date of termination. Non-vested portions shall be recognized as forfeitures as of the last day of the Plan Year in which the participant's entire vested interest is distributed. As of each anniversary date, forfeitures that arose during the Plan Year shall be reallocated. Forfeitures attributable to Employer contributions shall first be used to restore any participant's account balance that was forfeited and for which the participant has repaid his vested distribution or has made a valid claim. Any remaining forfeitures shall be used by the Employer to offset administrative expenses of the Plan to the extent they are Plan expenses and not Employer expenses. At December 31, 2011 and 2010, forfeited non-vested accounts totaled $0 and $35, respectively.

Reclassifications:

Certain reclassifications have been made to the 2010 financial statements balances to confirm to the 2011 financial statements presentation. These reclassifications have no impact on the statement of changes in net assets available for benefits for the year ended December 31, 2010.

Plan termination:

Although it has not expressed any intent to do so, the employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become one hundred percent vested in the Employer matching and discretionary contributions.

NOTE 2

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting:

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

In preparing these financial statements, we evaluated the period from December 31, 2011 through October 9, 2012, the date the financial statements were available to be issued for material subsequent events requiring recognition or disclosure in the accompanying financial statements.

For the years ended December 31, 2011 and 2010

Use of estimates:

The preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the related amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and assumptions.

Notes receivable from participants:

In September 2010, Financial Accounting Standards Board issued Accounting Standards Update ("ASU") 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*. ASU 2010-25 changed the reporting of loans to participants. Prior to ASU 2010-25, loans to participants were reported as investments at fair value. ASU 2010-25 requires that loans to participants be reported as notes receivable from participants at the unpaid principal balance plus any accrued unpaid interest. ASU 2010-25 is effective for periods ending after December 15, 2010. The Plan adopted ASU 2010-25 in the 2010 financial statements, applied retrospectively for all periods presented. The adoption of ASU 2010-25 was not significant as the unpaid principal balance plus accrued interest of loans to participants approximated fair value.

Investment valuation and income recognition:

The Plan's investments are stated at fair value based upon quoted market prices. Shares of mutual funds are valued at the net asset value of shares held by the Plan at December 31, 2011 and 2010. Any net appreciation or depreciation for the year is reflected in the statements of changes in net assets available for benefits. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fully benefit-responsive investment contracts:

As described by the FASB's guidance on fair value measurements, investment contracts held by a defined-contribution plan are required to be reported at fair value. Contract value is the relevant measurement for the portion of the assets available for benefits of a defined contribution plan attributable to fully benefit –responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Investments in the accompanying statement of net assets available for benefits include fully benefit-responsive investment contracts recognized at fair value with a corresponding adjustment to reflect these investments at contract value.

Costs and expenses:

The costs and expenses of the Plan are paid directly by the Plan and are included in the statement of changes in net assets available for benefits.

NOTE 3

INCOME TAX STATUS

The Plan has adopted a prototype plan approved by the Internal Revenue Service in a latest determination letter dated March 31, 2008. The prototype plan document was determined to be designed in accordance with the applicable section of the Internal Revenue Code ("IRC").

The Plan has since been amended. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

For the years ended December 31, 2011 and 2010

The Plan has adopted guidance on accounting for uncertainty in income taxes issued by the Financial Accounting Standards Board. Management believes that the Plan has taken no uncertain tax positions that require adjustment to the financial statements to comply with the provisions of this guidance. As of December 31, 2011, information returns for years subsequent to 2008 were subject to examination by authorities.

NOTE 4

RISKS AND UNCERTAINTIES

The Plan's investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Valuation of investments:

FASB Accounting Standards Codification ("ASC") 820 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. ASC 820 provides a consistent definition of fair value which focuses on an exit price between market participants in an

orderly transaction. ASC 820 also prioritizes, within the measurement of fair value, the use of market-based information over entity-specific information and establishes a three-level hierarchy for fair value measurements based on the transparency of information used in the valuation of an asset or liability as of the measurement date.

Investments measured and reported at fair value are classified and disclosed in one of the following categories:

Level I – Quoted prices are available in active markets for identical investments as of the reporting date. The type of investments in Level I include listed equities held in the name of the Organization, and exclude listed equities and other securities held indirectly through commingled funds.

Level II – Pricing inputs, including broker quotes, are generally those other than exchange quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies.

Level III – Pricing inputs are unobservable for the investment and includes situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant management judgment or estimation. Investments that are included in this category generally include privately held investments and partnership interests.

In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures*, which amends ASC 820, adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. ASU No. 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010.

The following table summarizes the valuation of the Plan's investments by the ASC 820 fair value hierarchy levels as of December 31, 2011 and 2010:

As of December 31,	2011	2010
Level I		
Mutual funds	-	1,416,456
Total Level I, at fair value	$ -	$ 1,416,456
Level II		
Common collective trust	-	83,860
Total Level II, at fair value	$ -	$ 83,860
Total assets, at fair value	$ -	$ 1,500,316

During the year ended December 31, 2011, the Plan Sponsor was in the process of transferring the trust assets to the new Plan trustee. At December 30, 2011, all the investment positions were liquidated and converted into cash. The cash balance was transferred to the new Plan trustee on December 30, 2011.

NOTE 7

INVESTMENT CONTRACT

The Plan had a benefit responsive investment contract with SEI Trust Company ("SEI"), trustee of the Fixed Fund ("Fund") which is reported as a common collective trust in the statement of net assets available for benefits. Reliance Trust Company, the trustee of the Plan, maintains the contributions in a pooled account. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The underlying assets of the Fund are fully benefit-responsive investment contracts. The guaranteed investment contract issuer

is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Contract value, as reported to the Plan by SEI represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may direct the withdrawal or transfer of all or a portion of their investments at contract value.

The investment contract is fair valued using a discounted cash flow model that considers recent fee bids as determined by recognized dealers, discount rate, and the duration of the underlying portfolio securities. For purposes of benefit responsive withdrawals, investments in investment contracts are valued at contract value, which could be more or less than fair value.

The investment contract accrues interest using a formula called the "crediting rate". Investment contracts use the crediting rate formula to convert market value changes in the underlying assets into income distributions in order to minimize the differences between the market and contract value of the underlying assets over time. Using the crediting rate formula, an estimated future market value is calculated by compounding a portfolio's current yield to maturity for a period equal to such portfolio's duration. The crediting rate is the discount rate that equates the estimated future market value with such portfolio's current contract value. Investment contracts provide a guarantee that the crediting rate will not fall below 0%. The average yield and crediting rate for the years ended December 31, 2011 and 2010 are as follows:

For the years ended December 31,	**2011**	**2010**
Average yield	1.66%	2.33%
Crediting rate	1.17%	1.49%
