Deferred Profit Sharing Plan
Notes to Financial Statements

A. Description of Plan

The following description of the Daniels Tire Service, Inc. (Company) Deferred Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time participants of the Company who have one year of service and are twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Contributions

Each year, participants may contribute pretax annual compensation, as defined in the plan, up to the amount prescribed by the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the plan. The plan currently offers various mutual funds as investment options for participants. The Company contributes 50 percent of the employee's contribution for those participants who contribute up to 4 percent of their compensation, and 2 percent of the employee's contribution for those participants who contribute more than 4 percent.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution, if any, (b) Plan earnings, and (c) forfeitures of terminated participant's nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Participant forfeitures are allocated in the same proportion that each active Participant's Compensation bears to the total Compensation of all active Participants for the Plan Year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after 6 years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of the non-forfeitable account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate as published by the Wall Street Journal plus 1%. Principal and interest is paid ratably through bi-weekly payroll deductions for a term not to exceed 5 years.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a 10 year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2011 and 2010 forfeited non-vested accounts totaled $3,014 and $2,158. These accounts will be used to reduce future employer contributions. Also, in 2011, employer contributions were reduced by $2,458 from forfeited accounts.

B. Summary of Accounting Policies

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the Unites States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities

and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Except for loan origination fees associated with notes receivable from participants, all administrative expenses of maintaining the plan are paid by the company.

C. Investments

The Plan's principle investments are held by an insurance company administered trust fund. Some participant's manage a portion of their funds in individual brokerage accounts.
