1. DESCRIPTION OF THE PLAN

The following description of Owens Healthcare 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General The Plan is a defined contribution plan covering substantially all employees of Owens Healthcare (the Company). The Company is a pharmacist-owned healthcare company specializing in the areas of retail pharmacy, compounding pharmacy, infusion services, medical equipment and respiratory services. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was originally established as of January 1, 1991, and has been subsequently amended.

Eligibility Employees are eligible to participate in the Plan upon completing 500 hours of service with the Company and meeting the minimum age requirement of 18.

Contributions Participants may elect to contribute to the Plan, in the form of employee 401(k) salary deferral contributions, up to the lesser of 100% of eligible compensation or the maximum amount allowable by law.

The Plan requires the employer to make mandatory safe harbor matching contributions whereby the employer matches 100% of each participant's deferral up to 3% of the participant's compensation and 50% of each participant's deferral between 3% and 5% of the participant's compensation.

Participant Accounts Each participant's account is credited with the participant's salary deferral contributions, account earnings, and employer contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting Participants are immediately 100% vested in their salary deferral and employer contributions.

Participant Loans Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest. Interest rates on participant loans ranged from 3.25% to 8.25%. Loans shall provide for a level amortization with payments to be made over a period not to exceed five years unless the loan qualifies as a home loan, which may not exceed 10 years.

Payment of Benefits Upon termination of service, a participant may elect to receive payment in the form of a lump-sum distribution, installments paid over a fixed number of years, or any other form of payment that may be permitted under the Plan.

Plan Administration Costs The Company paid administrative costs on behalf of the Plan for the years ended December 31, 2009 and 2008.

Plan Termination Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note below for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Estimates The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Fair Value Measurements Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during the years ended December 31, 2009 and 2008.

Pooled Separate Account: The pooled separate account is made up of a wide variety of underlying investments such as equities, stock, bonds, and mutual funds, and may at times, include one stable value fund in the form of a collective trust, of which the Plan buys and sells units of participation. The net asset value of a pooled separate account is based on the market value of its underlying investments, less certain administration charges (if any). The pooled separate account net asset value is not a publicly quoted price in an active market.

Participant Loans: These loans are valued at amortized cost, which approximates fair value.

Deposit Administration Contracts: The contracts are included in the financial statements at contract value. Contract value approximates fair value as the contract crediting rate resets quarterly. Contract value represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Payment of Benefits Benefits are recorded when paid.

3. INVESTMENTS

The Plan has a deposit administration contract with Standard Insurance Company (Standard). Standard maintains the contributions in an unallocated fund with assets that are invested with other assets in the general account of Standard. Withdrawals from the contract are subject to a market value adjustment and, therefore, are not considered to be fully benefit responsive. The crediting interest rate is based on an agreed-upon formula with the issuer. The average rate was approximately 3.31% and 3.36% for the years ended December 31, 2009 and 2008, respectively. There are no reserves against contract value for credit risk of the contract issues or otherwise.

Standard is the Trustee as defined by the Plan and, therefore, qualifies as a party-in-interest with respect to the pooled separate account and deposit administration contract managed by them. Fees paid by the Plan for investment management services were included as reductions of the return on each fund.

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such an election, the total investments as shown below were not subjected to any auditing procedures. The investments as certified by Standard also represent investments that are 5% or more of the Plan's net assets and are as follows:

	2009	2008
Pooled Separate Account A	$ 2,360,650	$ 1,860,763
Deposit administration contract	1,382,588	1,401,311
Total Investments Certified by Standard	$ 3,743,238	$ 3,262,074

During 2009 and 2008, the pooled separate account certified by Standard appreciated (depreciated) in value by $460,457 and $(1,327,558), respectively.

The tables below set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

5. INCOME TAX STATUS

The Plan adopted a prototype plan established by Sungard Corbel, LLC (Sungard), effective January 1, 1991. The Sungard prototype plan document was granted a determination letter in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the *Internal Revenue Code*. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the *Internal Revenue Code* and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

7. RECENT ACCOUNTING PRONOUNCEMENTS

In January 2010, FASB issued Accounting Standards Update (ASU) No. 2010-06, *Improving Disclosures About Fair Value Measurements*. ASU No. 2010-06 clarifies existing disclosure and requires additional disclosures regarding fair value measurements. Effective for interim and annual reporting periods beginning after December 15, 2009, plans will be required to disclose significant transfers into and out of Level 1 and 2 measurements in the fair value hierarchy and the reasons for those transfers. Effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years, entities will need to disclose information about purchases, sales, issuances and settlements of Level 3 securities on a gross basis rather than as a net number as currently required. The Plan is currently evaluating the impact, if any, that ASU No. 2010-06 will have on its financial disclosures.

8. SUBSEQUENT EVENTS

Management has evaluated the need for disclosures and/or adjustments resulting from subsequent events through July 27, 2010, the date the financial statements were available to be issued. Based on this evaluation, no disclosures or adjustments were required to the financial statements as of December 31, 2009.
