INDEPENDENT AUDITORS' REPORT

To the Investment Advisory Committee
Anesthesia Service Medical Group, Inc. 401(k) Profit Sharing Plan
San Diego, California

We were engaged to audit the accompanying statements of net assets available for benefits of Anesthesia Service Medical Group, Inc. 401(k) Profit Sharing Plan as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule of Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of Anesthesia Service Medical Group, Inc. 401(k) Profit Sharing Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the Custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Custodian as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the Plan Administrator by the Custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Description of the Plan

The following description of the Anesthesia Service Medical Group, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General and Eligibility
The Plan is a defined contribution plan covering all employees of Anesthesia Service Medical Group, Inc. (the Company) who have completed four months of service and are 20 ½ years of age or older. The Plan provides participants with a salary deferral option pursuant to Section 401(k) of the Internal Revenue Code. Anesthesia Management Professionals, Inc., a wholly owned management company of Anesthesia Service Medical Group, Inc., serves as the administrator of the Plan. The Plan engages Fidelity Management Trust Company (the Custodian) to hold and invest Plan assets, execute Plan transactions and act as trustee of the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions
Each year participants may contribute up to a specified percent of pretax annual compensation, subject to limits of the tax law as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various core mutual fund investment options or a “self-directed” investment option offered by the Plan. The Company contributes ten times each participant’s salary deferral contribution up to 2.5% of compensation. The Plan also allows the employer to make a discretionary contribution in excess of the employer matching contribution. Contributions are subject to certain limitations.

Participant Accounts
Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are made in a manner which recognizes each participant’s account balance, investment selection and timing of contributions and withdrawals. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are 100% vested at all times.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the participant’s vested account balance. Repayment terms cannot exceed five years unless the loan is used to acquire a principal residence, as defined in the Plan document. Loans must be repaid in equal installments over the life of the loan and may be prepaid at any time without penalty. The loans are secured by the balance in the participant's account. The loans bear interest equal to the prime rate at the time of inception plus 1%. Interest rates range from 4.25% to 9.25%.

Administrative Expenses
Substantially all costs of administering the Plan are paid by the Company. Certain professional fees are paid by Plan participants.

Payment of Benefits
On termination of service, a participant may remain in the Plan or elect a lump-sum payment, an annuity contract, cash-out, or approximately equal periodic installments over a time not exceeding the participant’s life expectancy and the life of the designated beneficiary. Terminated participants with accounts valued at less than $1,000 are subject to an involuntary cash-out.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments Valuation and Income Recognition
The Plan's investments are maintained in individual ("self-directed") accounts and in pooled ("participant directed") funds under a trust agreement that is administered by the Plan's Investment Advisory Committee.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits
Benefits are recorded when paid.

Subsequent Events
The Plan has evaluated subsequent events through October 12, 2012, which is the date the financial statements were available to be issued.

Note 3 - Information Certified by Custodian

Note 5 - Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, Fair *Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: 1) quoted prices for similar assets or liabilities in active markets; 2) quoted prices for identical or similar assets or liabilities in inactive markets; 3) inputs other than quoted prices that are observable for the asset or liability; 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the assets or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Registered investment companies: Valued at quoted market prices in active markets, which represent the net asset value of shares held by the Plan at year end.

Note 5 - Fair Value Measurements, continued

U.S. government securities, corporate bonds, common stocks, and preferred stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Fully benefit-responsive investment contract (common collective trust): These investments are public investment vehicles valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

Insurance contracts (annuities): Valued at the market price of the underlying assets held and managed by the issuer.

Partnership interests: Valued based on information provided by the internal management of each partnership.

Real estate investment trusts: Value is based on either the last price paid to acquire a share in a public offering or determined by an advisor who estimates the value of the shares based upon a number of assumptions.

Real estate: Valued based on the most recent appraisal price along with information provided by the owners and real estate agents.

Other assets (primarily life insurance contracts): Life insurance contracts are valued at the policy's cash surrender value which is based on the terms specific to each individual policy. This includes whole life policies where the value is equivalent to premium payments plus discretionary dividends and predetermined interest less insurance fees, and variable insurance policies tied to the value of mutual funds purchased under the policy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no transfers out of Level 1 into Level 2 or out of Level 2 into Level 1 during the year ended December 31, 2011. Transfers are recognized at the end of the reporting period. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011.

Note 6 - Fully Benefit-Responsive Investment Contract

The Plan has a fully benefit-responsive investment contract participation agreement with Fidelity for Fidelity's Managed Income Portfolio (MIP). The MIP is an open-ended commingled pool dedicated to the management of assets of defined contribution plans. The MIP enters into wrap contracts with third-party issuers who generally agree to make payments to the MIP in certain circumstances. Wrap contracts are also designed to allow the MIP to maintain a constant net asset value. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Wrap contracts limit the ability of the Plan to transact at contract value upon the occurrence of certain events that are typically caused by actions of the Plan sponsor. The participation agreement also requires up to 12 months advance notice for withdrawals directed by the Plan sponsor. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. However, transferred amounts must be held in a non-competing investment option for 90 days before subsequent transfers to a competing fund can occur.

Average yields for the MIP were:

	2011	2010
Average yields		
Based on actual earnings	1.92%	2.68%
Based on interest rate credited to participants	1.39%	1.44%

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8 - Party-in-Interest Transactions

Plan investments include shares of registered investment company funds managed by Fidelity Management Trust Company. Transactions with this entity qualify as party-in-interest transactions. Fees paid by the Plan for recordkeeping services were $13,233 for the year ended December 31, 2011.

Note 9 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2011	2010
Net assets available for benefits per the financial statements	$ 148,630,174	$ 149,240,812
Adjustment from contract value to fair value for fully benefit-responsive investment contract	129,845	45,728
Net assets available for benefits per the Form 5500	$ 148,760,019	$ 149,286,540

The following is a reconciliation of the change in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2011

Change in net assets available for benefits per the financial statements	$ (445,432)
Change in adjustment from contract value to fair value for fully benefit-responsive investment contract	84,117
Change in net assets available for benefits per the Form 5500	$ (361,315)

Note 10 - Tax Status

The Plan obtained its latest determination letter dated October 1, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 11 - Administration of Plan Assets

Certain administrative functions are performed by officers or employees of the Company. No such officers or employees receive compensation from the Plan.

Note 12 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
