Collins Electrical Company, Inc.
401(k) Profit Sharing Plan
Notes to the Financial Statements
December 31, 2009 and 2008

Note 1: Description of Plan:

The following description of Collins Electrical Company, Inc. (the Company) 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution Plan covering all employees of the Company not covered by a collective bargaining agreement. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

The Plan has an automatic enrollment provision (3% salary deferral) whereby employees must elect out of the Plan if they do not wish to participate. Each year, participants may contribute a percentage of pretax annual compensation, as defined in the Plan. The maximum contribution of pretax annual compensation for the year ended December 31, 2009 was $16,500. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company matches 100% of the participant's contribution, not to exceed 10% of the participant's compensation. Additional profit sharing amounts may be contributed at the discretion of the Company's Board of Directors. Effective October 1, 2009, the Company elected to suspend employer match until further notice.

Participant Accounts:

The Plan administrator maintains a separate account for each participant and each type of contribution. Each participant may select from a series of investment options designated by the Company and Plan administrator. Earnings on each investment selection are credited to the participant's account.

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contributions is based on covered years of service as defined. A participant is fully vested after six completed covered periods of service. A covered period of service is a twelve-month period during which a participant works at least 1,000 hours. A participant is also fully vested upon reaching normal retirement age, upon death, or upon becoming totally and permanently disabled.

Note 1: Description of Plan, continued:

Investment Options:

Upon enrollment in the Plan, a participant directs the contributions to their account balances between a choice of the following investment options in multiples of 1%. If the participant fails to designate an investment selection, funds are invested into the American Funds Target Date Fund whose target date most closely matches the participant's anticipated retirement date under the terms of the Plan.

- Alliance Bernstein Small Cap Growth Fund
- American Funds 2010 Target Date Fund
- American Funds 2015 Target Date Fund
- American Funds 2020 Target Date Fund

Note 1: Description of Plan, continued:

Loans to Participants:

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the vested portion of their account balance. Loan terms range up to five years or longer for the purchase of a primary residence. The loans are secured by the balance in the participants' accounts and bear interest at rates that range from 4.25% to 9.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through weekly payroll deductions.

Forfeitures:

Forfeitures of terminated participants' nonvested accounts may be used to reduce employer contributions. At December 31, 2009 and 2008 forfeited nonvested accounts totaled $11,036 and $1,186 respectively. Also, in 2009, employer contributions were reduced by $35,210 from forfeited nonvested accounts.

Payment of Benefits:

On termination of service, death, disability, or retirement, a participant will receive either a lump-sum amount or a series of installments over a period of time equal to the value of the participant's vested interest in his or her account. Hardship distributions will be distributed as a lump-sum.

Costs:

Except for $2,033 in administrative fees for the year ended December 31, 2009, all expenses of administration of the Plan are paid by the Company.

Note 2: Summary of Significant Accounting Policies:

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition:

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits:

Benefits are recorded when paid.

Concentration of Credit Risk:

The Plan invests cash as directed by participants in uninsured money market accounts with national brokerage firms.

Date of Management Evaluation:

Management has evaluated subsequent events through July 27, 2010, the date on which the financial statements were available to be issued. No subsequent events requiring disclosure existed as of this date.

Note 3: Information Prepared and Certified by Custodians:

The following information, included in the accompanying financial statements and supplemental schedules, was obtained from data that has been prepared and certified as complete and accurate by the custodians. Note 4: Fair Value Measurement of Investments:

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC), *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4: Fair Value Measurement of Investments, continued:

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Money market funds: Valued at cost, which approximates fair value.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be as indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009:

	Investments at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total

Purchases, sales, issuances and settlements (net)	17,244
Balance, end of year	$ 249,511

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2008:

	Participant Loans
Balance, beginning of year	$ 159,759
Purchases, sales, issuances and settlements (net)	72,508
Balance, end of year	$ 232,267

Note 5: Net Assets Available for Benefits:

Net assets available for benefits as of December 31, 2009 and 2008 include $2,976,634 and $1,485,649, respectively, allocated to the accounts of persons who, as of that date, had withdrawn from participating in the earnings and operations of the Plan. The amount is payable to the former participants as provided under the terms of the Plan. This amount has not been recorded as a liability as of December 31, 2009 and 2008.

Note 6: Tax Status:

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7: Transactions with Parties-in-Interest:

The Company provides to the Plan certain accounting and administrative services for which no fees are charged.

Note 8: Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan. In the event of Plan termination, participants will become fully vested in their account balances.

Note 9: Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
