Walpole, Inc. 401(K) Profit Sharing Plan
Okeechobee, Florida

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of the Walpole, Inc. 401(k) Profit Sharing Plan ("Plan") as of and for the year ended December 31, 2011, in accordance with auditing standards generally accepted in the United States of America, we considered the Plan's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of issuing our report on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

We were engaged to perform a DOL limited-scope audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor's *Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974*. Our audit did not include all of the procedures required by auditing standards generally accepted in the United States of America and did not include a consideration of internal control relating to the information summarized in Note 3 to those financial statements. Because of the significance of the information that we did not audit, we were unable to, and did not, express an opinion on those financial statements.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance that all such deficiencies have been identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the plan's financial statements will not be prevented, or detected and corrected on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in the Plan's internal control to be significant deficiencies:

During our review of employee files, we noted the deferral percentage elected by one of the employees was different than the actual percentage being withheld from the employee's wages. The result was the employee contributed three percent (3%) less than he elected, and he didn't receive the correct employer matching contribution. We suggest the Plan election forms for all actively participating employees are checked against the payroll system to be sure the percentage elected is the percentage actually being deducted from the employee's wages.

During testing of participant contributions, we noted one employee became eligible and started contributing to the Plan during 2011. Both the employee and employer contributions for 2011 were deposited into the account of another participant instead of his own account with Great West because of an error in reporting a social security number. We suggest all individual accounts are verified for newly participating employees to be sure contributions are being allocated to the correct participant, and any differences are corrected immediately.

In addition, we noted other matters involving internal control and its operation that we have discussed with management. Those matters are as follows:

DOL regulations require the employer to remit employee contributions and loan payments to the Plan as soon as they can be reasonably segregated from the employer's general assets. EBSA officials have suggested the timing of contributions should be compared to the employer's remittance of payroll taxes. During 2011, both salary and hourly employee contributions were remitted to the Plan in the month following withholding while the payroll taxes were paid the week following the pay date. Management has researched the issue, and in May 2012, implemented a policy to remit employee contributions in the week following the payroll pay date.

As part of the end of the year testing performed by Great West, the Company is required to submit payroll information for all employees. During our review of the Plan Adoption Agreement, two classes of employees were specifically included as being eligible to participate in the Plan; leased employees and employees of Trading Post & Farmers Market. These two classes of employees were not included in the payroll information submitted to Great West. We suggest the Plan documents are reviewed to determine whether any changes are necessary, or determine whether controls are in place to ensure these classes of employees are given the opportunity to participate in the plan.

This communication is intended solely for the information and use of plan management, the Trustees, and others within the plan, and is not intended to be and should not be used by anyone other than these specified parties.

We were engaged to audit the financial statements and supplemental schedule of Walpole, Inc. 401(K) Profit Sharing Plan (the "Plan") as of December 31, 2011, and for the year then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management. The financial statements of the Plan as of December 31, 2010, were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's *Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974*, the Plan administrator instructed the other auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by Great-West Life & Annuity Insurance Company, the insurance company and the trustee of the Plan. Their report, dated September 16, 2011, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's *Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.*

As permitted by 29 CFR 2520.103-8 of the Department of Labor's *Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974*, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Great-West Life & Annuity Insurance Company, the insurance company and trustee of the Plan, except for comparing the information with the related information included in the 2011 financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2011, that the information provided to the Plan administrator by the trustee is complete and accurate.

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Walpole, Inc. ("Company") 401(K) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General — The Plan is a defined contribution safe harbor plan established effective January 1, 1995 and amended and restated throughout the years to comply with tax legislation. The Plan was most recently amended and restated with an effective date of January 1, 2011. The Plan covers substantially all the Company's employees who have completed at least one year of service, 1,000 hours, and are at least age 21. Plan entry dates are monthly. Employees covered under a collective bargaining agreement may not participate. Independent contractors and nonresident aliens with no U.S. source of income are also not eligible. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Participant Contributions — Participants may contribute up to 100% of pre-tax annual compensation, up to the maximum amount permitted by the Internal Revenue Service. A participant may also defer all or any portion of a bonus payment as long as total annual contributions do not exceed the Internal Revenue Service maximum. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also make a rollover transfer to the Plan in the amount which constitutes (1) an eligible rollover distribution (subject to Sections 402 (c)(4) or 403 (a)(4) of the Code) or (2) a rollover contribution (subject to Section 408 (d)(3) of the Code). Participants direct the investment of their contributions into various investment options offered by the Plan. The investment options include various pooled separate accounts and an insurance company general account.

Employer Contributions — The Company contributes a safe harbor matching contribution equal to 100% of the first 3%, and 50% of the next 2% of gross compensation that a participant contributes to the Plan. Contributions are made monthly. Forfeitures of terminated participants' non-vested accounts may be used to reduce the amount the Company must contribute to participants' accounts. Additional discretionary matching contributions may be contributed at the option of the Company's board of directors. No additional discretionary matching contributions were made during the year ended December 31, 2011. Contributions are subject to certain limitations.

Account Allocation — Each participant's account is credited with the participant's contribution and an allocation of (1) the Company's contribution, (2) Plan earnings or losses, and (3) forfeitures of participants' non-vested accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting — Participants are immediately vested in their contributions, safe harbor matching contributions, and their actual earnings thereon. Vesting in the Company's additional discretionary matching contributions portion of their accounts, as well as the Company's matching contributions prior to January 1, 2011, was based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants — Participants may borrow from their account balances a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the vested portion of the participant's account and bear interest than ranges from 3.25% to 8.25%, which is commensurate with local prevailing rates as determined by the Plan administrator. Loan repayments are amortized over a period not to exceed five years except for the purchase of a primary residence, in which case the term may be fifteen years. Principal and interest is paid ratably through payroll deductions.

(Notes continued on next page)

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Payment of Benefits — Upon termination of service due to death, disability, or retirement, a participant or the participant's beneficiary may elect to receive the value of the participant's vested interest in his or her account as a lump sum payment, in the form of an annuity, a roll over distribution, or over a specified installment period as soon as administratively possible or as statutorily required. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as lump sum or a roll over distribution.

Forfeited Accounts — Forfeited non-vested account balances were approximately $15,600 and $13,700 at December 31, 2011 and 2010, respectively. These accounts will be used to reduce future employer (matching) contributions or pay administrative expenses. During 2011 and 2010, none of the forfeiture amounts were used to reduce the Company's required matching contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The financial statements of the Plan are prepared under the accrual method of accounting.

As described in Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 946-210-45, Financial Services - Investment Companies, Balance Sheet, Other Presentation Matters, Fully Benefit-Responsive Investment Contracts, investment contracts held by a defined-contribution plan are required to be reported at fair value.

However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a group annuity contract which is subject to the FSP. The adoption of the FSP did not have a significant impact on the financial statements as the estimated fair value approximates the contract value.

Estimates — The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition — The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Interest income is accrued when earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants — Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as deemed distributions based on the terms of the Plan document.

Payment of Benefits — Benefits are recorded when paid.

Operating Expenses — The majority of expenses of maintaining the Plan are paid by the Plan sponsor, Walpole, Inc.

(Notes continued on next page)

NOTE 3 - INVESTMENTS (UNAUDITED)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Great-West Life & Annuity Insurance Company, the insurance company and trustee of the Plan, has certified to the completeness and accuracy of the notes receivable from participants and all investment information reflected on the accompanying statements of net assets available for benefits as of December 31, 2011 and 2010, the schedule of assets (held at end of year) as of December 31, 2011, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2011.

Investments that represent five percent or more of the Plan's net assets available for benefits at December 31, 2011 and 2010 are separately identified as follows:

Description of Investment	2011	2010
Key Guaranteed Portfolio Fund	$ 630,309	$ 711,468
American Funds - Growth Fund of America Fund R3	$ 115,333	$ 107,836
Fidelity Advisor Leveraged Co Stk - T	$ 202,347	$ 235,603
Maxim Moderate Profile II	$ 192,467	$ 173,027
Maxim T. Rowe Price Equity Income	$ 228,548	$ 227,370
Nuveen Small Cap Select A	$ 111,726 *	$ 117,215
Pimco Total Return Admin	$ 211,992	$ 229,441

* Does not exceed 5% in the year indicated

NOTE 4 - FAIR VALUE MEASUREMENTS

FASB ASC 820-10, *Fair Value Measurements and Disclosures*, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of the unobservable inputs.

(Notes continued on next page)

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value.

Level 2 - Fair Value Measurements

The fair value of the investments in pooled separate accounts is based on the net asset value of units, which are based on observable market prices for the underlying assets, held by the Plan at year end.

The fair value of the investments in the insurance company general account is valued at fair value using an income approach based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011:

	Fair Value	Level 1	Level 2	Level 3
Insurance company general account	$ 630,309	$ -	$ 630,309	$ -
Pooled separate accounts:				
Growth funds	383,808		383,808	-
Income funds	236,857		236,857	-

Total investment assets at fair value	$ 2,152,898	$ -	$ 2,152,898	$ -

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010:

	Fair Value	Level 1	Level 2	Level 3
Insurance company general account	$ 711,468	$ -	$ 711,468	$ -

(Notes continued on next page)

NOTE 5 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2008, the Plan entered into a group annuity contract with Great West Life & Annuity Insurance Company (Great West). Investments in insurance company investment contracts ("GICs") are stated at contract value which is equal to the principal balance plus accrued interest. An investment contract is generally permitted to be valued at contract value, rather than fair value, to the extent it is fully benefit responsive. The fair value of the GIC is calculated using an income approach based on current yields of similar instruments with comparable durations. Fair value approximates contract value.

The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Great West. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average Yields:	2011	2010
Based on actual earnings	2.49%	2.03%
Based on interest rate credited to participants	2.49%	2.03%

NOTE 6 - PLAN TERMINATION

Although it has not expressed intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

NOTE 7 - RELATED PARTY TRANSACTIONS

Certain Plan investments represent shares of pooled separate and guaranteed interest accounts which are managed by Great West Life & Annuity Insurance Company. Great West Life & Annuity Insurance Company is the trustee of the Plan, and, therefore, these transactions qualify as party-in-interest.

Fees paid by the Plan for the investment management services amounted to $781 for the year ended December 31, 2011. In addition, plan participants pay daily fees through all accounts for investment management fees. It is impracticable to estimate the fees directly paid by the participants of the Plan.

(Notes continued on next page)

NOTE 8 - TAX STATUS

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan adheres to the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, Income Taxes (ASC 740). ASC 740 establishes rules for recognizing and measuring tax positions taken in an income tax return, including disclosures of uncertain tax positions (UTPs). ASC 740 mandates that companies evaluate all material income tax positions for periods that remain open under applicable statutes of limitation, as well as positions expected to be taken in future returns. The UTP rules then impose a recognition threshold on each tax position. A plan can recognize an income tax benefit only if the position has a "more likely than not" (i.e. more than 50 percent) chance of being sustained on the technical merits. For the years ended December 31, 2011 and 2010, the Plan has taken no material tax positions on its applicable tax filings that do not meet the more likely than not threshold. As a result, no amount for UTPs has been included in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 9 - RISKS AND UNCERTANTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 10 - DATE OF MANAGEMENT'S REVIEW

In accordance with accounting principles generally accepted in the United States of America, management has evaluated the existence of any subsequent events occurring through August 14, 2012, the date that the financial statements were available to be issued.
