R.F. MACDONALD COMPANY 401(k) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2009

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the R.F. MACDONALD COMPANY 401(k) RETIREMENT SAVINGS PLAN (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan was established on January 1, 1992 to provide retirement benefits for employees of R.F. MACDONALD COMPANY (the "Company" or "Sponsor"). The Plan is a defined contribution plan covering all eligible employees who have attained twenty-one years of age and have completed one full calendar quarter of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

The Plan provides for a Plan administrator who is responsible for keeping accurate and complete records with regard to the Plan's operations, informing participants of changes or amendments to the Plan, ensuring that the Plan conforms to the law and to government regulations, and providing participants with any reports and documents required by law.

Participant Contributions – Participants may voluntarily contribute up to 20% of their annual compensation, limited to $16,500 of pretax compensation for the year ended December 31, 2009. Participants age 50 or older may elect to defer additional "catch-up contributions" limited to $5,500 for the year ended December 31, 2009. Participants may rollover amounts representing distributions from an eligible retirement plan subject to approval by the Plan administrator.

Employer Contributions – The Company may, at its sole discretion, match participant contributions. Contributions made by the Company are allocated based on the participants' compensation and employee contributions. For the year ended December 31, 2009, the Company contributed an amount equal to 50% of employee contributions up to 6% of compensation. Participants must complete one year of service with at least 1,000 hours to be eligible for the matching contribution. Employer matching contributions to the Plan amounted to $455,370 for the year ended December 31, 2009.

In addition, the Company may also make discretionary profit sharing contributions. These contributions made by the Company are allocated based on the participants' compensation. For the year ended December 31, 2009, the Company contributed an amount equal to 3% of eligible compensation. Participants must complete one year of service with at least 1,000 hours to be eligible for the profit sharing contribution. Profit sharing contributions to the Plan amounted to $397,302 for the year ended December 31, 2009.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Participant Accounts – Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan investment earnings or losses. Allocations are based on participant earnings or account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that may be provided from the participant's vested account.

Vesting – Participants are immediately vested in their voluntary contributions and rollover contributions plus actual earnings thereon. Employer contributions and earnings thereon vest according to the following schedule:

Years of Service	Vested Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Investment Options – Upon enrollment in the Plan, a participant may direct the investment of his or her account balance into the various mutual funds and a collective trust fund offered through the Plan.

Participant Loans – Participants may borrow from their vested account balances provided they meet the Plan's eligibility requirements. The minimum loan amount is $1,000 and the maximum amount is the lesser of one-half of the participant's vested account balance or $50,000. The duration of the loan is not to exceed five years, except for loans used to finance the purchase of a primary residence, which could be for a longer period. The loans are secured by the balance in the participant's account. Principal and interest are paid ratably through payroll deductions and loans are due immediately upon termination of employment. At December 31, 2009, interest rates ranged from 4.25% to 9.25%, and maturity dates ranged from April 2010 to December 2038.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Payment of Benefits – Upon termination of service, death, disability or retirement, a participant may receive a lump-sum distribution or a direct rollover distribution into a qualified plan. At the time of retirement or termination of employment, if a participant's balance is in excess of $5,000, the participant may delay the receipt of distributions. If a terminated participant's balance is between $1,000 and $5,000 and no instructions have been received from such participant, the amount will be rolled over to an individual retirement account plan as designated by the Plan administrator. A balance less than $1,000 will be distributed directly to the participant as a lump-sum payment. Participants may also elect to receive a pre-retirement distribution if the participant is 100% vested in the amount being distributed, and has reached 59½ years of age.

Forfeited Accounts – The non-vested portion of a terminated participant's account balance is forfeited. Forfeited accounts are applied to reduce employer contributions. Forfeited non-vested accounts amounted to $4,700 and $7,154 at December 31, 2009 and 2008, respectively. Forfeitures amounting to $4,091 were used to reduce employer contributions for the year ended December 31, 2009.

Administrative Expenses – The Company has elected to fund all administrative costs other than those associated with certain participant directed transactions, such as participant loan fees.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan prepares its financial statements under the accrual basis of accounting, in conformity with accounting principles generally accepted in the United States of America.

As described in the *Plan Accounting – Defined Contribution Pension Plans* topic of the FASB ASC (formerly Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and Statement of Position 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined Contribution Health and Welfare and Pension Plans*), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a collective trust. As required by the standard, the Statement of Net Assets Available for Benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

New Accounting Pronouncements – On June 30, 2009, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles (as amended).* This standard established the FASB Accounting Standards Codification ("FASB ASC") as the single source of authoritative accounting principles generally accepted in the United States of America recognized by the FASB to be applied by nongovernmental entities. Substantially all previous United States generally accepted accounting principle standards issued by a standard setter are superseded and are codified into the FASB ASC. The FASB ASC is effective for financial statements issued for periods ending after September 15, 2009. Adoption of the FASB ASC had no impact on the Plan's net assets available for benefits or changes in net assets available for benefits.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

New Accounting Pronouncements (Continued) – In May 2009, the FASB issued SFAS No. 165, *Subsequent Events*, now codified in the *Subsequent Events* topic of the FASB ASC. This new standard establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before the financial statements are issued or are available to be issued. The Plan has adopted this standard in 2009 and the Plan has evaluated subsequent events through August 2, 2010, the date the financial statements were available to be issued.

In September 2009, the FASB issued Accounting Standards Update ("ASU") No. 2009-12, *Investment in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* ASU No. 2009-12 permits the use of net asset value per share, without further adjustment, to estimate the fair value of investments in investment companies that do not have readily determinable fair values as defined by FASB. The accounting guidance in ASU No. 2009-12 is effective for periods ending after December 15, 2009, and early adoption is permitted. The Plan adopted these amendments effective January 1, 2009. The adoption did not have an impact on the Plan's financial statements.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results may differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of Benefits – Benefits are recorded when paid.

NOTE 3 – FAIR VALUE MEASUREMENTS

The *Fair Value Measurements and Disclosures* topic of the FASB ASC (formerly SFAS No. 157, *Fair Value Measurements*), provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual Funds: Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

Collective Trust Fund: Valued at the NAV of the units held by the Plan at year-end.

Participant Loans: Valued at amortized cost, which approximates fair value.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Mutual Funds:

NOTE 5 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated August 4, 2005, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for income taxes has been recognized in the Plan's financial statements.

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination among the funds sponsored by Prudential. Investment securities are exposed to various risks, such as interest rate, market fluctuation and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in investment value in the near term would materially affect the participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and in the Statement of Changes in Net Assets Available for Benefits.

The underlying securities of the Plan's investments could include securities with contractual cash flows, such as, but not limited to, asset backed securities, collateralized mortgage obligations, and commercial mortgage backed securities and real estate. The value, liquidity and related income of these securities may be particularly sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by real or perceived difficulties of the issuers, changes in interest rates and conditions in financial markets.

NOTE 7 – PLAN TERMINATION

The Company has established the Plan with the expressed intention and expectation that it will continue the Plan. However, if circumstances make it impossible or inadvisable to continue the Plan, the Company reserves the right to terminate it at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Benefits will be held in the trust fund which will remain in existence until the Company requests the discontinuance of the trust agreement.

NOTE 8 – EXCESS CONTRIBUTIONS PAYABLE

As of December 31, 2009, excess contributions amounting to $15,741 were recorded as a liability in the accompanying Statements of Net Assets Available for Benefits due to failing the 2009 non-discrimination test. Excess contributions were recorded as a reduction of employee contributions for the year the Plan failed the test.
