Note A – Description of Plan

The following description of the EPCF 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution safe harbor plan that was established effective March 1, 1998 and amended on March 1, 2009. Effective March 1, 1998, employees of Emergency Physicians of Central Florida, LLP (the Company or the Employer) are eligible to participate after completing 3 consecutive months of service and attaining age 21. Employees become participants on the earliest quarterly-annual date coincident with or immediately following their meeting the above described eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration of the Plan

The accounting records are maintained by the Company. The Plan's assets were held and managed by MG Trust Company as of and for the year ended December 31, 2008 until October 16, 2009. From October 17, 2009 to December 31, 2009, the assets were being maintained by Frontier Trust Company, an Ascensus company (the Trustee). Contributions are held by the Trustee, who invests cash received, interest and dividend income, as directed by the participant, and makes distributions to participants.

Contributions

Participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, subject to Internal Revenue Code (IRC) limitations. Participants may also contribute amounts representing distributions from other qualified retirement plans. Participants who will be at least 50 years of age by the end of the year are able to make catch-up elective deferral contributions up to the maximum allowable amounts. Participants direct the investment of their contributions and Employer contributions into various investment options offered by the Plan. The Company makes safe harbor non-elective contributions of 3% of the participant's eligible compensation for the plan year. The Company also makes discretionary profit sharing contributions to the Plan during the year. Employees may receive profit sharing contributions if the eligibility requirements for participation in the Plan have been met.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's profit sharing or non-elective safe harbor contribution and performance sharing amounts, if applicable. Each participant's account shall be allocated earnings, gains, expenses, and losses with respect to the investments of the participant's account. Allocations of Plan earnings or losses are based on each participant's investment fund balance in proportion to the total investment fund balance.

Note A – Description of Plan (continued)

Vesting

Participants are vested immediately in their contributions plus actual earnings or losses thereon. Participants are also immediately vested in employer profit sharing and non-elective safe harbor contributions.

Investment Options

Under the Plan, Participants may currently direct investments to any of 25 investment options. Participants may change their investment elections daily through a telephone access system or online system.

Participant Loans

Participant loans are not available under the Plan.

Distribution of Benefits

On termination of service due to death or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, as defined in the Plan agreement. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Participants will be eligible for unlimited in-service distributions when they reach retirement age.

Forfeitures

Since the all participant, employer non-elective safe harbor, and profit sharing contributions are immediately vested in eligible employees' accounts, there are no forfeitures in the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant's account will become fully vested and nonforfeitable. All appropriate accounting provisions of the Plan will continue to apply until the accounts of all participants have been distributed.

Note B – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

As described in Financial Accounting Standards Board(FASB) Staff Position *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Plan had no fully benefit-responsive investments as of December 31, 2009.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes in net assets available for benefits and disclosure of contingent assets and liabilities during the reporting period. Actual results could differ from these estimates.

Valuation of Investments

The Plan's investments in mutual funds, separately managed accounts (SMA) investment funds, and SMA common stock are stated at fair value, which is based on quoted market prices at year-end as reported by the Trustee.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan pays all administrative expenses. Investment transaction fees are paid by the participants who incur such fees. For the year ended December 31, 2009, the Plan paid administrative expenses totaling approximately $17,948.

Note B – Summary of Significant Accounting Policies (continued)

Fair Value Measurements

The FASB has established establishes a framework for measuring fair value, *Fair Value Measurements*. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

At December 31, 2009 and 2008, all of the Plan's assets were maintained in either money market fund, mutual fund or common stock accounts. All of the aforementioned assets qualify as Level I assets, in that their valuation inputs are observable with active markets supporting fair value measurements.

Note C – Investments

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Trustee, except for comparing such information to the related information included in the financial statements and supplemental schedule. The plan administrator has obtained a certification from MG Trust as of and for the year ended December 31, 2008 and for the period from January 1, 2009 to October 16, 2009 and Frontier Trust Company, an Ascensus company, the trustee of the Plan, as of December 31, 2009 and for the period from October 17, 2009 to December 31, 2009 that the information provided to the plan administrator is complete and accurate with exception to the SMA Common Stock account. For all certified assets such information includes all investments excluding investment income and the information in the supplemental schedule of assets (held at end of year).

Each of these investments represents 5 percent or more of the Plan's net assets available for benefits as of December 31:

	2009	(unaudited) 2008
American Century LIVESTRONG 2025 A	$ 4,121,946	$ 2,639,588
American Century LIVESTRONG 2035 A	3,497,319	2,562,644
Ameritrade Self-Directed Investment Fund	9,659,414	6,330,875
Ameritrade Self-Directed Cash Fund	2,782,746	2,243,353
American Century LIVESTRONG 2015 A	N/A	855,343

During 2009, the Plan's investments (including gains on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2009
Mutual funds, at fair value	$ 1,794,374
SMA investment fund, at fair value	2,001,305
SMA money market fund, at fair value	638,784
Money market funds, at fair value	(518)
SMA common stock, at fair value	(206,500)
	$ 4,227,445

Note D – Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated March 31, 2009, stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Note E – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note F – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2009	(unaudited) 2008
Net assets available for benefits per the financial statements	$ 23,849,945	$ 16,774,902
Less: Contributions receivable not recorded in Form 5500	(390,972)	(336,795)
Net assets available for benefits per the Form 5500	$ 23,458,973	$ 16,438,107

The following is a reconciliation of total additions (reductions) per the financial statements to the Form 5500:
