INDEPENDENT AUDITOR'S REPORT

To the plan trustee and participants of
Government Contractors Savings Plan & Master Trust 401(K) Pension Plan
as adopted by Alante Security Group Inc.
Westbury, New York

We were engaged to audit the accompanying statements of net assets available for plan benefits of Government Contractors Savings Plan & Master Trust 401(K) Pension Plan #002 as adopted by Alante Security Group Inc. (the "Plan") as of December 31, 2011, and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2011 and the supplemental schedule (Page 11) of plan assets held for investment purposes. These financial statements and supplemental schedule are the responsibility of the plan's trustee.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) rules and regulations for reporting and disclosure under the employee retirement income security act of 1974 (ERISA), the plan trustee instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information reported in the financial statements, which was certified by Hartford Life Insurance Company, the custodian of the plan's assets held for investment purposes, except for comparing such information with the related information included in the financial statements and supplemental schedule.

Because of the significance of the information that we did not audit, we are unable to and do not express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other that that derived from the information certified by the custodian of the plan's assets held for investment, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's rules and regulations for reporting and disclosure under ERISA.

401(K) SAVINGS PLAN # 002
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011

NOTE 1 – DESCRIPTION OF PLAN

History and Purpose

The plan, as adopted by Alante Security Group Inc. (the "Company") became effective June 1, 2004. The plan's principal purpose is to enhance the retirement benefits of the Company's eligible employees. Such plan is funded by the participant's contribution and the employer's contributions, if any. In addition, the plan is for the exclusive benefit of eligible employees of the Company and their beneficiaries.

Participants should refer to the plan agreement, with amendments, if any, for more complete description of the plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who are qualified, in accordance with plan's requirements, and have satisfied eligibility requirements. Non-resident aliens are not qualified. The administration of the plan is the responsibility of the plan's trustee.

Plan Administration

Investment fees incurred by the plan are reflected as a reduction of the return on each fund. Administrative costs are reflected as a net asset deduction.

Contributions

Each year the participants and employer may contribute a certain amount of pre-tax compensation, as defined in the plan agreement, as limited by the Internal Revenue Service. Further, participants may also contribute amounts representing distributions from other qualified defined benefit or contributions plans (direct rollover). Contributions are invested in the plan funds, following the respective participant's instructions.

NOTE 1 – DESCRIPTION OF PLAN (continued)

Vesting

Participants are immediately vested in their pre-tax contributions plus actual earnings thereon.

Withdrawals

During employment, a participant may withdraw amounts applicable to vested company and employee contributions and earnings or losses thereon, for any reason upon attaining the age of 59 ½. Certain withdrawals preclude the participant from making further contributions or further withdrawals under the plan for various periods of time.

Payment of Benefits

Participants are eligible for payment of benefits upon retirement, death, termination, or permanent disability. Participants are entitled to receive their vested account balance in a single payment or may elect to defer payment over a period not to exceed the participant's life expectancy. However, participants with a vested balance of less that $5,000 are automatically paid a lump sum distribution. The plan allows for in-service withdrawals due to financial hardship, as defined.

The benefit to which a participant is entitled is limited to the vested balance of the participant's account.

Loans to Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer from the participant investment fund to the participant loan receivable category. Loan terms range from one to five years and are secured by the balance in the participant's account. Interest rates are based on the prime rate on the first business day of the month in which the loan originated. Principal and interest are repaid through periodic payroll deductions. All loans are required to be paid within five (5) years of the date of the loan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when received. Dividends are recorded on the ex-dividend date. Net increase or decrease in net assets change in fair market value of investments includes the plan's gains and losses on investments bought and sold as well as held during the year.

As described in financial accounting standards board (FASB) accounting standards codification (ASC) 962, Plan Accounting – Defined Contribution Pension Plans, investment contracts held by a defined contribution plan are required to be reported at fair value.

However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by FASB ASC 962, the statement of net assets available for benefits presents the fair value of the SEI stable asset as well as the adjustment of the investment in the common collective trust from fair value to contract value related to the fully benefit-responsive investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan trustee to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in those net assets during the reporting period. Actual results could differ from those estimates.

NOTE 3 – SUBSEQUENT EVENTS

The plan has evaluated events and transactions for potential recognition or disclosure through October 12, 2012, the date the financial statements as of December 31, 2011 and for the year then ended were available to be issued.

NOTE 4 – FAIR MARKET VALUE MEASUREMENTS

FASB ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 Measurements) and the lowest priority to unobservable inputs (Level 3 Measurements). The three levels of the fair market value hierarchy under FASB ASC 820-10 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

NOTE 4 – FAIR MARKET VALUE MEASUREMENTS (continued)

Level 2 – Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in active markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011.

- Common stock, corporate bonds, and U.S. Government securities. Valued at the closing price reported on the active market on which the individual securities are traded.
- Mutual funds. Valued at the net asset value of shares held by the plan at year-end.
- Participant loans. Valued at amortized cost, which approximates fair value.
- Guaranteed investment contract. Valued at fair market value by discounting the related cash flows based on current yields of similar instruments with comparable durations, considering the creditworthiness of the issuer.

NOTE 4 – FAIR MARKET VALUE MEASUREMENTS (continued)

The preceding methods described may produce a fair market value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Please refer to Page 12, "Supplemental Schedule of Assets Held for Investment Purposes" for the plan's assets hierarchy at fair value as of December 31, 2011.

NOTE 5 – FUND MANAGEMENT

Plan assets held for investment purposes and managed by Hartford Life Insurance Company serving as custodian, accordingly, plan contributions are deposited with Hartford Life Insurance Company and invested in one or more funds, as directed by each participant.

The custodian has certified the plan's assets held for investment purposes as of December 31, 2011 and the interest, dividends and net appreciation or depreciation in fair market value of investments as complete and accurate.

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonable possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 6 – FORFEITURES

Upon termination of a participant's employment, the Company's non-vested contributions are placed in a separate account and will become a forfeiture when the participant incurs a break-in-service, as defined. All forfeited amounts can be used to reduce the Company's discretionary contributions or pay plans expenses.

NOTE 7 – PLAN TERMINATION

The plan has no termination date, however, the Company may terminate, amend, modify or suspend the plan at any time it may deem advisable. Upon any full or partial termination of the plan or upon complete discontinuance of contributions by participants and the employer, all of the amounts credited to participant's accounts will immediately become 100% vested.

NOTE 8 – TAX STATUS

The plan administrator believes that the plan is designed and is being operated in compliance with the applicable requirements of ERISA and the Internal Revenue Code and, therefore, fulfills the criteria for exemption from Federal and State income taxes.

NOTE 9 – RECONCILIATION OF FINANCIAL STATEMENTS TO FEDERAL FROM 5500

There are no differences between the financial statements and Federal form 5500 as of December 31, 2011.
