INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
Bend Research, Inc. Employees' Qualified
Savings & Retirement Plan

We were engaged to audit the financial statements and supplemental schedule - modified cash basis of the Bend Research, Inc. Employees' Qualified Savings & Retirement Plan (the "Plan") as of December 31, 2009 and 2008 and for the year ended December 31, 2009 and the supplemental schedule as of December 31, 2009, as listed in the accompanying table of contents. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Standard Insurance Company, the Custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the Custodian holds the Plans' investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Custodian as of and for the year ended December 31, 2009 and 2008, that the information provided to the Plan Administrator by the Custodian is complete and accurate.

As described in Note 2, these financial statements and supplemental schedules were presented on a modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Bend Research, Inc. Employees' Qualified Savings & Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a 401(k)-type defined contribution pension plan covering all employees of Bend Research, Inc. and its wholly owned subsidiaries (the "Company") as defined by the Plan. Matching contributions are allocated to eligible employees who make elective contributions, accrue 250 hours of service during the calendar quarter and are age 21 or older as defined by the Plan. Discretionary profit sharing contributions are allocated to eligible employees. No minimum number of accrued hours of service during the plan year is required for eligible employees for profit sharing contributions. The Plan's Administrators control and manage the operation and administration of the Plan. Standard Insurance Company serves as custodian to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may contribute a percentage of pre-tax compensation, as defined by the Plan up to the limit allowed by law. The Company may match contributions to the Plan with 50% for each dollar contributed. Deferrals exceeding 4% of eligible compensation are not matched.

Participant Accounts

Each participant's account is credited with the participant's contributions and withdrawals, as applicable, and allocation of (a) the Company's contributions and (b) Plan earnings, net of an allocation for administrative expenses. Allocation of Plan earnings are based on account balances. Allocations of Company contributions are based on participant contributions or participant compensation, depending upon whether the Company contributions are designated as a matching contribution or a non-elective contribution. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts plus actual earnings thereon is based on years of credited service. A participant is 100% vested after six years of credited service.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions in any of the twenty seven options. Participants may change or transfer their investments on a daily basis.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements were presented on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Transactions are recorded on a cash basis. Investments are recorded at fair and contract value.

Investment Valuation

The Plan's investments are stated at fair value except for its benefit-responsive investment contract which is valued at contract value (Note 3). Quoted market prices are used to value investments. Share of mutual funds are valued at the net asset value of shares held by the Plan at year end. Participant loans are valued at their outstanding balances, which approximate fair value.

Income Recognition

The difference in market value from one period to the next and realized gains or losses during the year are recognized as net appreciation (depreciation) in fair value of investments in the accompanying statement of changes in net assets available for plan benefits.

**BEND RESEARCH, INC. EMPLOYEES' QUALIFIED
SAVINGS & RETIREMENT PLAN**

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income Recognition (Continued)

Interest and dividend income is recorded on the modified cash basis.

Purchases and sales of securities are recorded on a trade-date basis.

Payment of Benefits

Benefits paid to participants are recorded when paid.

Plan Expenses

Except for certain custodian administration expenses, the Plan's expenses are paid by the Company, at its discretion, as provided by the Plan document.

Participant Loans

Participants may borrow from their accounts up to a maximum amount allowed by law. The loans are secured by the balance in the participants account and bear interest ranging from 3.75% to 7.75%, which is commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent Events

Subsequent events have been evaluated through July 16, 2010, which is the date the financial statements were issued.

NOTE 3 – INVESTMENT CONTRACT

The Plan has available a benefit responsive investment contract with Standard Insurance Company. Standard Insurance Company maintains contributions in one general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported by Standard Insurance Company. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The average yield and credited interest rates were approximately 3.68% and 3.57% for the years ended December 31, 2009 and 2008, respectively. The credited interest rate is based on a formula agreed upon by the issuer. Such interest rates are reviewed on a monthly basis.

SAVINGS & RETIREMENT PLAN**

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

NOTE 5 - INFORMATION CERTIFIED BY THE ASSET CUSTODIAN OF THE PLAN

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The following information included in the financial statements and required supplemental schedules was provided and certified by the Plan's Trustee as complete and accurate:

- Cash
- Investments
- Interest and dividends
- Net appreciation in fair value of investments
- Schedule H, Line 4i - Schedule of Assets - Held at Year End

NOTE 6 - TAX STATUS

The Plan obtained its latest determination letter on October 10, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 7 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the established framework are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

**BEND RESEARCH, INC. EMPLOYEES QUALIFIED
SAVINGS & RETIRMENT PLAN**

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2009 AND 2008

NOTE 7 – FAIR VALUE MEASUREMENTS (CONTINUED)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value of measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year-end.

Participant loans: Valued at amortized cost, which approximates fair value.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Investment Contract: Valued at contract value in accordance with Standard Insurance Company's determination that the contract is exempt from fair value reporting requirements.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009 and 2008:

	Assets at Fair Value as of December 31, 2009
