Note A - Description of Plan

The following description of PUSAN PIPE AMERICA, INC. EMPLOYEE PROFIT SHARING & SAVINGS PLAN (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of the Pusan Pipe America, Inc. (the "Company"), who have provided 12 consecutive months of service or 1,000 hours of service and attained the age of 21. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The Company's eligible employees may contribute up to the limitations as defined by the IRC, each year on a pre-tax basis by salary reduction. Effective January 1, 2011, the Plan has amended that a participant shall have an automatic election to defer 4% of their compensation. A participant may elect not to make Elective Deferrals or to defer a different amount of their compensation at any time. Each eligible participant receive an allocation equal to a percentage of the matching contribution up to 6% of their compensation for the Plan year. Prior to January 1, 2011, the Company made a discretionary matching contribution, a discretionary profit sharing contribution and/or a discretionary safe harbor profit sharing contribution without regard to the Company's current or accumulated profits as determined each year by resolution of the Company's Board of Directors.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in participant contributions, including rollover contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. One year of service is defined as 1,000 or more hours of service. The vesting schedule is as follows:

Vesting Schedule	
Years of Service	Percentage
Less than 1 year	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

Note A - Description of Plan (continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to the lesser of one-half of their vested account balance or $50,000 and can have one loan outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at prime rates on the issuance date plus 2%. As of December 31, 2011, interest rates on loans to participants ranged from 4.25% to 9.25%. Principle and interest is paid ratably through each pay period's payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a single lump-sum amount equal to the value of the participant's vested interest in his or her account.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties

The Plan utilizes various investment instruments including mutual funds and investment contracts. These investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). The fair value of the Plan's mutual fund investments are determined by quoted market prices on the last day of the Plan year. Notes Receivable from participants are stated at cost, which approximates fair value. Investment transactions are recorded as of the trade date. The Plan's investments are valued at investment market value, which represent the net asset value of shares held by the Plan at year-end. Interest income is recorded on the accrual basis.

Payment of Benefits

Benefits are recorded when paid.

Note B - Summary of Significant Accounting Policies (continued)

Administrative Expenses

Certain expenses of maintaining the Plan are paid out of the Plan assets.

Forfeited Accounts

Forfeited non-vested accounts of terminated participants are allocated first to the participants that are entitled by reason of re-employment to restoration of a prior forfeiture and any remaining forfeitures are used to reduce Company contributions for the applicable year. As of December 31, 2011 and 2010, forfeited non-vested matching contributions accounts totaled approximately $2,100 and $5,000, respectively.

Recent Pronouncements

In December 2011, the FASB issued ASU No. 2011-11, Balance Sheet (Topic 201): Disclosures about Offsetting Assets and Liabilities, issued in December 2011, is effective for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods. An entity should provide the disclosures required by the amendments in this ASU retrospectively for all comparative periods presented. The amendments in ASU No. 2011-11 require an entity to disclose information about offsetting and related arrangements to enable users of its financial statements to understand the effect of those arrangements on its financial position. Under the amendments in ASU 2011-11, entities with financial instruments and derivatives that are either offset on the balance sheet or subject to a master netting or similar arrangement are required to disclose the following information separately for assets and liabilities in a tabular format: a. the gross amounts of recognized assets and liabilities. b. the amounts offset to determine the net amounts presented in the balance sheet. c. the net amounts presented in the balance sheet. d. the amounts subject to an enforceable master netting arrangement or similar agreement that were not already included in the disclosure by (b) above, including (i) instruments that either (a) management makes and accounting policy election not to offset, or (b) the amounts do not meet some or all of the guidance in either section ASC 210-20-45 or section 815-10-45 (ii) the amounts related to financial collateral. e. the net amount after deducting the amounts in (4) from the amounts in (3) above. In addition to the tabular disclosure described above, entities are required to provide a description of the rights of setoff associated with an entity's assets and liabilities subject to an enforceable master netting arrangement or similar agreement. ASU 2011-11 includes implementation guidance and examples that address the application of the disclosures for derivative instruments and other financial instruments. The Company is in the process of evaluating the impact of the adoption of this update on the Plan's financial statements.

In May 2011, the FASB issued ASU No. 2011-04, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS." ASU 2011-4 is intended to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRS. The amendments are of two types: (i) those that clarify the Board's intent about the application of existing fair value measurement and disclosure requirements and (ii) those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The update is effective for annual periods beginning after December 15, 2011. The update is effective for annual periods beginning after December 15, 2011. The adoption of ASU 2011-04 did not have a material effect on the financial statements.

Note B - Summary of Significant Accounting Policies (continued)

In September 2010, the Financial Accounting Standards Board issued Accounting Standards Update No. 2010-25, Reporting Loans to Participants by Defined Contribution Pension Plans (ASU 2010-25). Prior to the issuance of ASU 2010-25, Notes Receivable from participants in defined contribution pension benefit plans were classified as investments within the plan financial statements in accordance with the guidance in Accounting Standards Codification (ASC) 962-325, which requires most investments held by a plan (including Notes Receivable from participants) to be presented at fair value. The amendments in ASU 2010-25 require that Notes Receivable from participants be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest (i.e. amortized cost). ASU 2010-25 is to be applied retrospectively to all prior periods presented, effective for fiscal years ending after December 15, 2010. Therefore, the Plan is required to segregate the participant notes receivable from the plan investments within the Statements of Net Assets Available for Benefits for all periods presented. Accordingly, the Statements of Net Assets Available for Benefits reflect these changes. The change in measurement basis from fair value to amortized cost did not have an impact on the valuation of the receivables due to the fact that these two measurements approximate one another. However, participant notes receivable are no longer included in the Fair Value Measurements footnote to the Plan's financial statements since fair value is no longer the basis of measurement. . The adoption of ASU 2010-25 did not have a material effect on the financial statements.

In January 2010, the FASB issued "Fair Value Measurements and Disclosures—Improving Disclosures about Fair Value Measurements" ("ASU 2010-06"), which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1, 2 and 3. ASU 2010-06 also clarifies that fair value measurement disclosures are required for each class of financial asset and liability, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, ASU 2010-06 is effective December 31, 2010, for the Plan. New guidance related to Level 3 measurements is effective for fiscal years and interim periods beginning on or after December 15, 2010 (i.e., the year ending December 31, 2011, for the Plan). The adoption of ASU 2010-06 did not have a material effect on the financial statements.

Reclassifications

Certain amounts in the accompanying 2010 financial statements have been reclassified to conform with the 2011 presentation.

Note C – Insurance Contracts

Guaranteed Interest Account

The Plan participates in a contract with The ING Life Insurance and Annuity Company ("ING") whereby the assets of the Plan are part of the general assets of ING. This contract is identified and accounted for as a guaranteed interest account. The guaranteed interest account provides guaranteed interest rates for specified periods of time as determined or allowed by the contract. The rate credited is the rate in effect on the day when each deposit is directed to the funds. The guarantee made with regard to the guaranteed interest account is supported by ING's general account. The general account is invested mostly in private market bonds, commercial mortgages and mortgage backed securities. There are no reserves against contract value for credit risk of contract issuer or otherwise. The guaranteed interest account promises contract value for a benefit event (termination, death, disability and retirement), however, there are possible market value adjustments when funds are withdrawn prior to their maturity.

Note C – Insurance Contracts (continued)

Pooled Separate Accounts

The Plan participates in contracts with ING whereby the assets of the Plan are pooled with those of other unrelated plans. The Plan owns units of participation in the fair value of the account's underlying assets. ING holds these assets in trust for the participating plans.

Note D - Fair Value Measurements

ASC 820 establishes a framework for measuring fair value as it relates to financial assets and liabilities and to nonfinancial assets and liabilities measured at fair value on a recurring basis. That framework provides a three-level valuation hierarchy based upon observable and unobservable inputs, with preference given to observable inputs. The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Observable inputs such as quoted prices for identical assets or liabilities;

Level 2 Observable inputs such as (i) quoted prices for similar assets or liabilities in active markets; (ii) quoted prices for identical or similar assets or liabilities in markets that are not active and do not require significant adjustments based on unobservable inputs; or (iii) valuations based on pricing models, discounted cash flow methodologies or similar techniques where significant inputs (e.g. interest rates, yield curves, etc.) are derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities; and

Level 3 Unobservable inputs, including valuations based on pricing models, discounted cash flow methodologies or similar techniques where at least one significant model assumption or inputs in unobservable. Unobservable inputs are used to the extent that observable inputs are not available and reflect the Plan's own assumptions about the assumptions the market participants would use in pricing the assets or liabilities. Unobservable inputs are based on the best information available in the circumstances which might include the Plan's own data.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
Pooled separate accounts	$ -	$ 4,135,964	$ -	$ 4,135,964

Total	$ -	$ 7,048,671	$ 274,611	$ 7,323,282

Note D - Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2011 and 2010:

Note E – Investments (continued)

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the years) depreciated in value by $52,612 and appreciated $689,200 in 2011 and 2010, respectively.

Note F - Related Party Transactions

Certain Plan investments in registered investment companies are managed by ING Life Insurance and Annuity Company, the custodian of the Plan. Any purchases and sales of these funds are performed in the open market at fair value and qualify as party-in-interest transactions. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Note G - Federal Income Taxes

The Plan has received an updated post-Tax Reform Act of 1986 favorable determination letter from the Internal Revenue Service indicating that the Plan is a qualified plan under Section 401(a) and 401(k) of the Internal Revenue Code (the "IRC") and the Plan is exempt from federal income taxes under Section 501(a) of the IRC. Although the plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note H - Termination of the Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In such event, all participants would become fully vested in their account balances.

Note I – Prohibited Transactions

The plan sponsor inadvertently failed to deposit participant deferrals in the amount of $6,223 within the required timeframe for the year ended December 31, 2010 as stated by the U.S. Department of Labor ("DOL"). These deferrals were deposited beyond the earliest expected date on which assets could be segregated from the employer's assets. Late deposits are considered as prohibited transactions by the DOL. The plan sponsor is required to file Form 5330 and pay the excise tax relating to the prohibited transaction from the plan sponsor's assets and not from assets of the Plan, in addition to calculating the lost earnings on these deferrals. The plan sponsor deposited lost earnings of $230 in September 2011. Form 5330 is required for both the year the prohibited transaction occurred (2010) and the year corrected (2011). The plan sponsor filed Form 5330 and paid an excise tax of $12 for 2010. The plan sponsor filed a subsequent form 5330 for 2011 when due and pay an excise tax of $30 for this prohibited transaction.

Note J - Subsequent Events

The Company has evaluated all subsequent events to the statements of net assets available for benefits date of December 31, 2011 through the date that the financial statements were issued on October 12, 2012 under FASB Accounting Standards Codification Topic 855, *Subsequent Events*.
