NOTE 1 - PLAN DESCRIPTION

The following description of The Communications Group 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

a) General

The Plan was adopted effective January 1, 1998, and is a defined contribution plan covering all eligible employees of Speech Pathology Group, Inc. (the Company) and The MARCOM Group, except union and non-resident employees, who have completed three months or 100 hours per month of qualifying service (one year or 1,000 hours for profit sharing) and have attained the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b) Contributions

Each year, participants must contribute at least 4% of pre-tax annual compensation including bonuses, as defined in the Plan, unless they elect not to defer into the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes a matching contribution equal to 25% of employee deferrals, not to exceed 4% of participant’s compensation, to the Plan. In addition, the Company may make a discretionary profit sharing contribution to the Plan. Participants direct the investment of company matching contributions and profit sharing contributions. Contributions are subject to certain limitations.

c) Participant Accounts

Each participant’s account is credited with the participant's contribution and allocations of: (a) the Company’s contributions, (b) plan earnings, and (c) forfeitures of terminated participants’ non-vested accounts, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - PLAN DESCRIPTION (Continued)

d) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching and profit sharing contribution portions of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six continuous years of credited service. The Employer vesting schedule for plan participants is as follows:

End of year 1	0%
End of year 2	20%
End of year 3	40%
End of year 4	60%
End of year 5	80%
End of year 6	100%

e) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the vested balance in the participant’s account and bear interest at the prime rate (as published in the Wall Street Journal) plus 1 percent. Principal and interest payments must be made ratably through payroll reductions.

f) Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, annuity benefit payments, or systematic withdrawals. For termination of service due to other reasons, a participant will receive the value of the vested interest in his or her account as a lump-sum distribution.

g) Forfeited Accounts

At December 31, 2011 and 2010, total forfeitures were $3,788 and $5,715 respectively. These accounts will first be used to reduce administrative expenses of the Plan, and then any remaining forfeitures will reduce future employer contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d) Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

e) Payment of Benefits

Benefits are recorded when paid.

f) Administrative Expenses

Except for loan origination fees associated with notes receivable from participants, all significant investment management services are paid by the Plan. Other professional fees related to the Plan, including audit fees, are paid by the Plan Sponsor.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

g) Subsequent Events

The Plan has evaluated subsequent events through October 11, 2012, the date the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

The following presents investments at December 31, 2011 and 2010, and represents 5% or more of the Plan's net assets.

	December 31, 2011	December 31, 2010
American Balanced Fund	$ 290,653	$ 148,080
Lifestyle Balanced	255,552	155,541

Oppenheimer Developing Markets	169,010	181,043
The Growth Fund of America	294,497	318,419
Totals	$ 1,242,921	$ 978,437

During the plan year, the Plan’s investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $(106,156) as follows:

Pooled separate accounts	$ (106,156)

See Independent Auditors' Report.

NOTE 4 - FAIR VALUE MEASUREMENTS

Generally accepted accounting principles (GAAP) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled Separate Accounts: Investments in the underlying mutual funds are valued at the net asset value per share at the close of each business day as reported by each Fund, which value their securities at fair value. These funds are valued on a closed exchange.

Insurance Company General Accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

Assets at Fair Value as of December 31, 2011

NOTE 5 - FINANCIAL INFORMATION CERTIFIED BY QUALIFYING INSTITUTION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications from John Hancock Life Insurance Company (U.S.A.) (for the year ending December 31, 2011) and John Hancock Retirement Plan Services (for the year ending December 31, 2010), the qualifying institutions, that all of the information provided by them is complete and accurate. Information included in the accompanying financial statements as to investments in the trust fund, interest income, and all information in the supplemental schedule is presented in reliance solely upon those certifications, and has not been audited by the independent auditors.

See Independent Auditors' Report.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

During the plan years ended December 31, 2011 and 2010, the Plan purchased investments in the John Hancock Life Insurance Company (U.S.A.) (2011) and John Hancock Retirement Plan Services (2010). John Hancock Life Insurance Company (U.S.A.) and John Hancock Retirement Plan Services are the qualifying institutions as defined by the Plan for the years ended December 31, 2011 and 2010 respectively, and; therefore, these transactions qualify as party-in-interest transactions.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Company contribution portion of their account.

NOTE 8 - TAX STATUS

The Plan adopted John Hancock Life Insurance Company (U.S.A.) standardized basic prototype 401(k) plan, effective March 31, 2008. The Internal Revenue Service (IRS) issued a clean opinion letter that stated this prototype plan qualified under the applicable provision of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The December 31, 2011, Form 5500 was prepared under the accrual method of accounting and, thus, the asset and liability amounts reported on the 5500, as well as the net changes in assets, are in agreement in total with the amounts included in the accompanying financial statements. There are classification differences between the December 31, 2011, financial statements and Form 5500, but as a result of the totals agreeing, a reconciliation to Form 5500 has not been prepared.

The December 31, 2010, Form 5500 was prepared under the accrual method of accounting and, thus, the asset and liability amounts reported on the 5500 are in agreement in total with the amounts included in the accompanying financial statements.

NOTE 11 - CHANGE TO FUND OPTIONS
