Depew, New York

We were engaged to audit the accompanying statement of net assets available for benefits of the Joe Basil Chevrolet Inc. 401(k) Plan (the "Plan") as of December 31, 2011, and the related statement of changes in net assets available for benefits for the year then ended, and the related supplementary schedule H, line 4i – schedule of assets (held at end of year). These financial statements and supplementary information are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Massachusetts Mutual Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and the supplementary information. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2011, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplementary information taken as a whole. The supplementary information is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. The form and content of the information included in the financial statements and supplementary information, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

We have compiled the accompanying statement of net assets available for benefits of the Plan as of December 31, 2010 in accordance with Statements on Standards for Accounting Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying statement of net assets available for benefits as of December 31, 2010 and, accordingly, do not express an opinion or any other form of assurance on it.

Joe Basil Chevrolet Inc.
401(k) Plan
Notes to Financial Statements

1. Description of the Plan

The following description of the Joe Basil Chevrolet Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan sponsored by Joe Basil Chevrolet, Inc. (the "Plan Sponsor"). Employees must be at least 21 years of age and complete one year of service with a minimum of 1,000 hours in order to become a participant in the Plan and begin making elective deferrals.

The Plan was established effective December 16, 1986 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Effective January 1, 2010, the Plan was amended and restated, in order to adopt a non-standardized prototype plan.

Contributions – Participants may elect to contribute between 1% and 100% of their annual compensation, limited by the amount imposed by law. Additionally, participants age 50 or older may elect to make a catch-up contribution limited to the amount imposed by law. The Plan Sponsor makes a matching contribution equal to 50% of the first 2% and 25% of the next 4% of compensation contributed to the Plan by each participant. The Plan also allows the Plan Sponsor to make additional discretionary contributions to the Plan. There were no additional discretionary contributions made by the Plan Sponsor for the year ended December 31, 2011. In order to receive Plan Sponsor discretionary contributions, participants must be actively employed by the Plan Sponsor on the last day of the Plan year.

Participant Accounts – Individual accounts are maintained for each Plan participant. Participant accounts are increased by participant contributions, employer contributions, and the participant's share of Plan earnings. Participant accounts are decreased by participant distributions and the participant's share of Plan expenses and losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their salary deferral and rollover contributions and actual earnings thereon. Participants vest in Plan Sponsor matching contributions and Plan Sponsor discretionary contributions at the rate of 20% per year of service and become fully vested after five years. Forfeitures from non-vested Plan Sponsor discretionary contributions are used to reduce administrative expenses or any type of future Plan Sponsor contributions. Forfeitures totaled $3,310 for the year ended December 31, 2011.

1. Description of the Plan (continued)

Payment of Benefits – Upon termination of service due to retirement, death, disability, or as required by law, a participant may elect to receive a lump-sum distribution in an amount equal to the vested value of their account. The Plan permits in-service distributions for participants age 59½ and older and financial hardships, as defined in the Plan documents.

Notes Receivable from Participants – In accordance with Plan provisions, participants are permitted to borrow a minimum of $1,000 up to a maximum amount equal to the lesser of 50% of their account balance, reduced by any outstanding loan balance, or $50,000 reduced by the highest outstanding loan balance during the one-year period ending on the day before the loan is made. Participants may only have one loan outstanding at any time. Loans are repayable over a period of up to five years, or longer if used for the purchase of a primary residence. Notes receivable from participants in the accompanying statements of net assets available for benefits are measured at their unpaid principal balances plus accrued but unpaid interest, if any.

Income Taxes – The Plan Sponsor received its latest determination letter dated March 31, 2008 in which the Internal Revenue Service ("IRS") stated that the prototype plan, as then designed, is in compliance with the applicable requirements of the IRS. Adopting employers may rely upon that letter with respect to qualification of its plan under Section 401(a) of the Internal Revenue Code (the "Code"). The Plan has been amended subsequent to the IRS determination letter. However, the Plan Administrator believes that the Plan is operating in compliance with the requirements of the Code. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management is not aware of any uncertain tax positions that would cause the Plan to lose its tax status or to otherwise be subject to other taxes or penalties

Plan Termination – Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan agreement to discontinue its contributions at any time and to terminate its participation in the Plan, subject to the provisions of ERISA. In the event of partial or complete Plan termination, participants will become fully vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The accompanying statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value.

Valuation of Investments – The Plan's investments in both pooled separate accounts and the guaranteed interest account are stated at fair value, as determined by Massachusetts Mutual Life Insurance Company ("Mass Mutual"). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of the pooled separate accounts is based upon quoted market prices of the underlying investments. The fair value of the guaranteed interest account represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed contract crediting rates.

The Plan presents in the statement of changes in net assets available for benefits the net (depreciation) in the fair value of its investments which consists of the realized gains (losses) and the unrealized appreciation (depreciation) in the fair value of those investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Life insurance contracts are reported at cash surrender value, which approximate fair value.

Plan Expenses – Certain accounting and administrative expenses of the Plan are paid by the Plan Sponsor. Expenses relating to investment activity are paid by the Plan.

Benefit Payments – Benefits are recorded when paid.

Party-in-Interest Transactions – Plan investments in the guaranteed interest account and life insurance contracts are managed by Mass Mutual. Mass Mutual is the custodian as defined by the Plan and, as such, transactions with the custodian qualify as party-in-interest transactions. Fees paid to the custodian for services amounted to $3,345 for the year ended December 31, 2011.

2. Summary of Significant Accounting Policies (continued)

Risks and Uncertainties – Investments are exposed to various risks, such as interest rate and market risk. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amount reported in the accompanying financial statements.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Subsequent Events – The Plan administrator has evaluated subsequent events, for recognition and disclosure, through October 9, 2012, the date the accompanying financial statements were available to be issued.

3. Information Certified by the Custodian (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Mass Mutual has certified that the following data included in the accompanying financial statements and supplementary information is complete and accurate. Individual investment securities that have met or exceeded 5% of the Plan's net assets available for benefits at December 31, 2011 have been separately identified.

Guaranteed Interest Account	$	364,518
Pooled Separate Accounts:		
MFS Total Return Separate Account		605,534
Oppenheimer Global Strategic Income Separate Account		448,644
Oppenheimer Premier International Equity Separate Account		357,859
Oppenheimer Premier Capital Appreciation Separate Account		321,224
Oppenheimer Premier Global Separate Account		303,753
T. Rowe Select Blue Chip Growth Separate Account		276,080
Davis Select Large Cap Value Separate Account		272,141
Other		1,878,339
		4,828,092
Notes receivable from participants		112,831
	$	4,940,923

3. Information Certified by the Custodian (Unaudited) (continued

Additionally, Mass Mutual has certified interest and dividend income of $17,413 and net depreciation in fair value of investments of ($122,850) for the year ended December 31, 2011.

4. Investment Contract with Insurance Company

The Plan has a fully benefit-responsive group annuity insurance contract with Mass Mutual. Mass Mutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the Plan's ability to transact at contract value. Such events include the following: (a) temporary absence, (b) change in position or other occurrence qualifying as a temporary break in service under the Plan, (c) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer, (d) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the Plan Sponsor's business, (e) removal from the Plan of one or more groups or classifications of participants, (f) partial or complete Plan termination, or (g) Plan disqualification.

The average yield earned by the Plan and yield credited to participants for these investments was 2.9% for the year ended December 31, 2011. The credit ratings given by Moody's Investor Services to the issuer of these investments, Mass Mutual, was Aa2 for insurance financial strength and A1 for surplus notes.

5. Fair Value Measurements

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value of the Plan's assets. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

5. Fair Value Measurements (continued)

- Level 1 Inputs – Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that are accessible at the measurement date. There were no assets held by the Plan as of December 31, 2011 that utilized Level 1 inputs as its primary measure of fair value at December 31, 2011.

- Level 2 Inputs – Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in markets that are not active. This level also includes inputs other than quoted prices that are observable, either directly or indirectly, for substantially the full term through corroboration with observable, independent market data. This includes investments valued at quoted prices adjusted for legal or contractual restrictions specific to the security.

- Level 3 Inputs – Pricing inputs are unobservable for the asset or liability. That is, inputs that reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

Level 2:	
Pooled separate accounts	$ 4,463,574
Life insurance contracts	205,121
Level 3:	
Guaranteed interest account	374,699
	$ 5,043,394

5. Fair Value Measurements (continued)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2011:

	Guaranteed Interest Account
Balance, December 31, 2010 (unaudited)	$ 403,681
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	22,265
Purchases	88,588
Settlements	(139,835)
Balance, December 31, 2011	$ 374,699

6. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the increase in net assets reported in the accompanying financial statements to the Form 5500 for the year ended December 31, 2011:

	2011
Net increase reported in the accompanying financial statements	$ 364,670
Transfer of assets to the Plan	(205,826)
Transfer of assets from the Plan	29,800
Net income reported in the Form 5500	$ 188,644

To the Plan Sponsor and Participants of the
Joe Basil Chevrolet Inc. 401(k) Plan
Depew, New York

We were engaged to audit the accompanying statement of net assets available for benefits of the Joe Basil Chevrolet Inc. 401(k) Plan (the "Plan") as of December 31, 2011, and the related statement of changes in net assets available for benefits for the year then ended, and the related supplementary schedule H, line 4i – schedule of assets (held at end of year). These financial statements and supplementary information are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Massachusetts Mutual Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and the supplementary information. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2011, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplementary information taken as a whole. The supplementary information is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. The form and content of the information included in the financial statements and supplementary information, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

We have compiled the accompanying statement of net assets available for benefits of the Plan as of December 31, 2010 in accordance with Statements on Standards for Accounting Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying statement of net assets available for benefits as of December 31, 2010 and, accordingly, do not express an opinion or any other form of assurance on it.

Joe Basil Chevrolet Inc.
401(k) Plan
Notes to Financial Statements

1. Description of the Plan

The following description of the Joe Basil Chevrolet Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan sponsored by Joe Basil Chevrolet, Inc. (the "Plan Sponsor"). Employees must be at least 21 years of age and complete one year of service with a minimum of 1,000 hours in order to become a participant in the Plan and begin making elective deferrals.

The Plan was established effective December 16, 1986 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Effective January 1, 2010, the Plan was amended and restated, in order to adopt a non-standardized prototype plan.

Contributions – Participants may elect to contribute between 1% and 100% of their annual compensation, limited by the amount imposed by law. Additionally, participants age 50 or older may elect to make a catch-up contribution limited to the amount imposed by law. The Plan Sponsor makes a matching contribution equal to 50% of the first 2% and 25% of the next 4% of compensation contributed to the Plan by each participant. The Plan also allows the Plan Sponsor to make additional discretionary contributions to the Plan. There were no additional discretionary contributions made by the Plan Sponsor for the year ended December 31, 2011. In order to receive Plan Sponsor discretionary contributions, participants must be actively employed by the Plan Sponsor on the last day of the Plan year.

Participant Accounts – Individual accounts are maintained for each Plan participant. Participant accounts are increased by participant contributions, employer contributions, and the participant's share of Plan earnings. Participant accounts are decreased by participant distributions and the participant's share of Plan expenses and losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their salary deferral and rollover contributions and actual earnings thereon. Participants vest in Plan Sponsor matching contributions and Plan Sponsor discretionary contributions at the rate of 20% per year of service and become fully vested after five years. Forfeitures from non-vested Plan Sponsor discretionary contributions are used to reduce administrative expenses or any type of future Plan Sponsor contributions. Forfeitures totaled $3,310 for the year ended December 31, 2011.

1. Description of the Plan (continued)

Payment of Benefits – Upon termination of service due to retirement, death, disability, or as required by law, a participant may elect to receive a lump-sum distribution in an amount equal to the vested value of their account. The Plan permits in-service distributions for participants age 59½ and older and financial hardships, as defined in the Plan documents.

Notes Receivable from Participants – In accordance with Plan provisions, participants are permitted to borrow a minimum of $1,000 up to a maximum amount equal to the lesser of 50% of their account balance, reduced by any outstanding loan balance, or $50,000 reduced by the highest outstanding loan balance during the one-year period ending on the day before the loan is made. Participants may only have one loan outstanding at any time. Loans are repayable over a period of up to five years, or longer if used for the purchase of a primary residence. Notes receivable from participants in the accompanying statements of net assets available for benefits are measured at their unpaid principal balances plus accrued but unpaid interest, if any.

Income Taxes – The Plan Sponsor received its latest determination letter dated March 31, 2008 in which the Internal Revenue Service ("IRS") stated that the prototype plan, as then designed, is in compliance with the applicable requirements of the IRS. Adopting employers may rely upon that letter with respect to qualification of its plan under Section 401(a) of the Internal Revenue Code (the "Code"). The Plan has been amended subsequent to the IRS determination letter. However, the Plan Administrator believes that the Plan is operating in compliance with the requirements of the Code. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management is not aware of any uncertain tax positions that would cause the Plan to lose its tax status or to otherwise be subject to other taxes or penalties

Plan Termination – Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan agreement to discontinue its contributions at any time and to terminate its participation in the Plan, subject to the provisions of ERISA. In the event of partial or complete Plan termination, participants will become fully vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The accompanying statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value.

Valuation of Investments – The Plan's investments in both pooled separate accounts and the guaranteed interest account are stated at fair value, as determined by Massachusetts Mutual Life Insurance Company ("Mass Mutual"). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of the pooled separate accounts is based upon quoted market prices of the underlying investments. The fair value of the guaranteed interest account represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed contract crediting rates.

The Plan presents in the statement of changes in net assets available for benefits the net (depreciation) in the fair value of its investments which consists of the realized gains (losses) and the unrealized appreciation (depreciation) in the fair value of those investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Life insurance contracts are reported at cash surrender value, which approximate fair value.

Plan Expenses – Certain accounting and administrative expenses of the Plan are paid by the Plan Sponsor. Expenses relating to investment activity are paid by the Plan.

Benefit Payments – Benefits are recorded when paid.

Party-in-Interest Transactions – Plan investments in the guaranteed interest account and life insurance contracts are managed by Mass Mutual. Mass Mutual is the custodian as defined by the Plan and, as such, transactions with the custodian qualify as party-in-interest transactions. Fees paid to the custodian for services amounted to $3,345 for the year ended December 31, 2011.

2. Summary of Significant Accounting Policies (continued)

Risks and Uncertainties – Investments are exposed to various risks, such as interest rate and market risk. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amount reported in the accompanying financial statements.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Subsequent Events – The Plan administrator has evaluated subsequent events, for recognition and disclosure, through October 9, 2012, the date the accompanying financial statements were available to be issued.

3. Information Certified by the Custodian (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Mass Mutual has certified that the following data included in the accompanying financial statements and supplementary information is complete and accurate. Individual investment securities that have met or exceeded 5% of the Plan's net assets available for benefits at December 31, 2011 have been separately identified.

Guaranteed Interest Account	$	364,518
Pooled Separate Accounts:		
MFS Total Return Separate Account		605,534
Oppenheimer Global Strategic Income Separate Account		448,644
Oppenheimer Premier International Equity Separate Account		357,859
Oppenheimer Premier Capital Appreciation Separate Account		321,224
Oppenheimer Premier Global Separate Account		303,753
T. Rowe Select Blue Chip Growth Separate Account		276,080
Davis Select Large Cap Value Separate Account		272,141
Other		1,878,339
		4,828,092
Notes receivable from participants		112,831
	$	4,940,923

3. Information Certified by the Custodian (Unaudited) (continued

Additionally, Mass Mutual has certified interest and dividend income of $17,413 and net depreciation in fair value of investments of ($122,850) for the year ended December 31, 2011.

4. Investment Contract with Insurance Company

The Plan has a fully benefit-responsive group annuity insurance contract with Mass Mutual. Mass Mutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the Plan's ability to transact at contract value. Such events include the following: (a) temporary absence, (b) change in position or other occurrence qualifying as a temporary break in service under the Plan, (c) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer, (d) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the Plan Sponsor's business, (e) removal from the Plan of one or more groups or classifications of participants, (f) partial or complete Plan termination, or (g) Plan disqualification.

The average yield earned by the Plan and yield credited to participants for these investments was 2.9% for the year ended December 31, 2011. The credit ratings given by Moody's Investor Services to the issuer of these investments, Mass Mutual, was Aa2 for insurance financial strength and A1 for surplus notes.

5. Fair Value Measurements

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value of the Plan's assets. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

5. Fair Value Measurements (continued)

- Level 1 Inputs – Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that are accessible at the measurement date. There were no assets held by the Plan as of December 31, 2011 that utilized Level 1 inputs as its primary measure of fair value at December 31, 2011.

- Level 2 Inputs – Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in markets that are not active. This level also includes inputs other than quoted prices that are observable, either directly or indirectly, for substantially the full term through corroboration with observable, independent market data. This includes investments valued at quoted prices adjusted for legal or contractual restrictions specific to the security.

- Level 3 Inputs – Pricing inputs are unobservable for the asset or liability. That is, inputs that reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

Level 2:	
Pooled separate accounts	$ 4,463,574
Life insurance contracts	205,121
Level 3:	
Guaranteed interest account	374,699
	$ 5,043,394

5. Fair Value Measurements (continued)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2011:

	Guaranteed Interest Account
Balance, December 31, 2010 (unaudited)	$ 403,681
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	22,265
Purchases	88,588
Settlements	(139,835)
Balance, December 31, 2011	$ 374,699

6. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the increase in net assets reported in the accompanying financial statements to the Form 5500 for the year ended December 31, 2011:

	2011
Net increase reported in the accompanying financial statements	$ 364,670
Transfer of assets to the Plan	(205,826)
Transfer of assets from the Plan	29,800
Net income reported in the Form 5500	$ 188,644
