## NOTE 1 DESCRIPTION OF PLAN

The following description of the Wayne Automatic Fire Sprinklers, Inc. 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

***General*** – The Plan is a defined contribution plan covering all full-time employees of Wayne Automatic Fire Sprinklers, Inc. (the Company) who have three months of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

***Contributions*** – Each year, participants may contribute from 1% up to 50% of pretax annual compensation, as defined in the Plan. Unless the participant elects otherwise, an automatic deferral of 3% will apply. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their account into various investment options offered by the Plan. The Plan currently offers various mutual funds and a common/collective trust as investment options for participants. The Company may make discretionary matching and/or profit sharing contributions. During 2009, the Company did not make any contributions to the Plan. Contributions are subject to certain limitations.

***Participant Accounts*** – Each participant's account is credited with the participant's contributions and allocations of (a) the Company's discretionary matching and profit sharing contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Participants who do not have at least 1,000 hours of service during the plan year or who are not employed on the last working day of the plan year are not eligible for an allocation of Company contributions. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

***Vesting*** – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remaining portion of their accounts is based on years of continuous service. A participant does not begin to vest until year two (20%) and increases ratably until fully vested in year six.

***Hardship Withdrawals*** – Hardship withdrawals are available if the participant meets certain criteria. Loans are not permitted.

NOTE 1 DESCRIPTION OF PLAN – Continued

***Payment of Benefits*** – Upon termination of service due to retirement, death, or permanent disability, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or installment payments over a specified period of time. Upon termination of service for any other reason, a participant may elect to receive a lump-sum amount equal to the value of the participant's elective deferrals in his or her account or installment payments over a specified period of time. Vested employer contributions are subject to various distribution requirements based on the amount of vested employer contributions in a participant's account at the date of termination. For accounts with vested employer contributions less than $1,000, the participant will automatically receive a distribution as soon as administratively practical. For accounts with vested employer contributions greater than $1,000 but less than $5,000, the participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installments over a specified period of time beginning as soon as administratively practicable. For accounts with vested employer contributions greater than $5,000, the participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installments over a specified period of time beginning as soon as administratively practicable on the first distribution date of the fourth plan year beginning after the participant's termination of employment.

***Forfeited Accounts*** – Forfeitures are allocated to participant accounts based on compensation. At December 31, 2009 and 2008, unallocated forfeitures totaled approximately $532,000 and $348,000, respectively. For the year ended December 31, 2009, the Company allocated forfeitures of $378,000 to participant accounts.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

***Use of Estimates*** – The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

***Basis of Accounting*** – The Plan's financial statements have been prepared on the accrual basis of accounting.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. Contract value for this collective trust is based on the net asset value of the fund as reported by the investment advisor. The Statements of Net Assets Available for Benefits present the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

***Investment Valuation and Income Recognition*** – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

The investments in segregated accounts consist of certain nonliquid investments held for two participants. At December 31, 2009 and 2008, the investments in the segregated accounts include vacant land and an investment in a limited partnership. The value of the land is $1,920,000 and $1,670,000 at December 31, 2009 and 2008, respectively, based on a recent appraisal and management's estimates. The value of the limited partnership investment is $875 and $4,000 at December 31, 2009 and 2008, respectively, based on management's estimates and a subsequent disposal of the investment.

***Payment of Benefits*** – Benefits are recorded when paid.

***Operating Expenses*** – Most expenses of maintaining the Plan are paid by the Company.

***Subsequent Events*** – The Plan has evaluated subsequent events through August 10, 2010, the date which the financial statements were available to be issued.

NOTE 5 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in an active market; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 5 FAIR VALUE MEASUREMENTS – Continued

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

*Common/collective trust:* Valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year end.

*Mutual funds:* Valued at the net asset value (NAV) of shares held by the Plan at year end.

*Land:* The land is valued based on a recent appraisal performed by an unrelated third party.

*Limited partnership interest*: The investment in a limited partnership is valued based on management's estimates.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 FAIR VALUE MEASUREMENTS – Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

NOTE 5 FAIR VALUE MEASUREMENTS – Continued

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009.

| | Land | Limited Partnership Interest |
|---|---|---|
| Balance, beginning of year | $ 1,670,000 | $ 4,000 |

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation of fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

NOTE 6 RELATED PARTY TRANSACTIONS

Mutual funds and the common/collective trust are managed by the Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, the trustee of such investments; therefore, these transactions qualify as party-in-interest. Fees paid by the Plan to the trustee amounted to $18,128 for the year ended December 31, 2009.

For the year ended December 31, 2009, the Plan also paid fees totaling $57,597 to other service providers who qualify as parties-in-interest.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

## NOTE 8 TAX STATUS

The Internal Revenue Service has determined and informed the company by letter dated March 2, 2010, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

## NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

## NOTE 1 DESCRIPTION OF PLAN

The following description of the Wayne Automatic Fire Sprinklers, Inc. 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

***General*** – The Plan is a defined contribution plan covering all full-time employees of Wayne Automatic Fire Sprinklers, Inc. (the Company) who have three months of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

***Contributions*** – Each year, participants may contribute from 1% up to 50% of pretax annual compensation, as defined in the Plan. Unless the participant elects otherwise, an automatic deferral of 3% will apply. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their account into various investment options offered by the Plan. The Plan currently offers various mutual funds and a common/collective trust as investment options for participants. The Company may make discretionary matching and/or profit sharing contributions. During 2009, the Company did not make any contributions to the Plan. Contributions are subject to certain limitations.

***Participant Accounts*** – Each participant's account is credited with the participant's contributions and allocations of (a) the Company's discretionary matching and profit sharing contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Participants who do not have at least 1,000 hours of service during the plan year or who are not employed on the last working day of the plan year are not eligible for an allocation of Company contributions. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

***Vesting*** – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remaining portion of their accounts is based on years of continuous service. A participant does not begin to vest until year two (20%) and increases ratably until fully vested in year six.

***Hardship Withdrawals*** – Hardship withdrawals are available if the participant meets certain criteria. Loans are not permitted.

NOTE 1 DESCRIPTION OF PLAN – Continued

***Payment of Benefits*** – Upon termination of service due to retirement, death, or permanent disability, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or installment payments over a specified period of time. Upon termination of service for any other reason, a participant may elect to receive a lump-sum amount equal to the value of the participant's elective deferrals in his or her account or installment payments over a specified period of time. Vested employer contributions are subject to various distribution requirements based on the amount of vested employer contributions in a participant's account at the date of termination. For accounts with vested employer contributions less than $1,000, the participant will automatically receive a distribution as soon as administratively practical. For accounts with vested employer contributions greater than $1,000 but less than $5,000, the participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installments over a specified period of time beginning as soon as administratively practicable. For accounts with vested employer contributions greater than $5,000, the participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installments over a specified period of time beginning as soon as administratively practicable on the first distribution date of the fourth plan year beginning after the participant's termination of employment.

***Forfeited Accounts*** – Forfeitures are allocated to participant accounts based on compensation. At December 31, 2009 and 2008, unallocated forfeitures totaled approximately $532,000 and $348,000, respectively. For the year ended December 31, 2009, the Company allocated forfeitures of $378,000 to participant accounts.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

***Use of Estimates*** – The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

***Basis of Accounting*** – The Plan's financial statements have been prepared on the accrual basis of accounting.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. Contract value for this collective trust is based on the net asset value of the fund as reported by the investment advisor. The Statements of Net Assets Available for Benefits present the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

***Investment Valuation and Income Recognition*** – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

The investments in segregated accounts consist of certain nonliquid investments held for two participants. At December 31, 2009 and 2008, the investments in the segregated accounts include vacant land and an investment in a limited partnership. The value of the land is $1,920,000 and $1,670,000 at December 31, 2009 and 2008, respectively, based on a recent appraisal and management's estimates. The value of the limited partnership investment is $875 and $4,000 at December 31, 2009 and 2008, respectively, based on management's estimates and a subsequent disposal of the investment.

***Payment of Benefits*** – Benefits are recorded when paid.

***Operating Expenses*** – Most expenses of maintaining the Plan are paid by the Company.

***Subsequent Events*** – The Plan has evaluated subsequent events through August 10, 2010, the date which the financial statements were available to be issued.

NOTE 5 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in an active market; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 5 FAIR VALUE MEASUREMENTS – Continued

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

*Common/collective trust:* Valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year end.

*Mutual funds:* Valued at the net asset value (NAV) of shares held by the Plan at year end.

*Land:* The land is valued based on a recent appraisal performed by an unrelated third party.

*Limited partnership interest*: The investment in a limited partnership is valued based on management's estimates.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 FAIR VALUE MEASUREMENTS – Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

NOTE 6 RELATED PARTY TRANSACTIONS

Mutual funds and the common/collective trust are managed by the Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, the trustee of such investments; therefore, these transactions qualify as party-in-interest. Fees paid by the Plan to the trustee amounted to $18,128 for the year ended December 31, 2009.

For the year ended December 31, 2009, the Plan also paid fees totaling $57,597 to other service providers who qualify as parties-in-interest.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

## NOTE 8 TAX STATUS

The Internal Revenue Service has determined and informed the company by letter dated March 2, 2010, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

## NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
