Independent Auditor's Report

To the Plan Administrator of the
Five Star Parking 401(k) Plan
Los Angeles, California

We were engaged to audit the accompanying statements of net assets available for benefits of Five Star Parking 401(k) Plan as of December 31, 2011 and 2010, the related statement of changes in net assets available for benefits and the supplemental schedules for the year ended December 31, 2011. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in the notes to the financial statements, which was certified by State Street Bank and Trust, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and the supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the custodian as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information in the Plan's financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

Description of plan:

The following description of the Five Star Parking 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering all full-time employees of The L&R Group of Companies (the Company) who have at least three months of service, are age twenty-one or older, and do not qualify as excluded employees as defined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Each year, participants may elect to defer up to 90% of pre-tax annual compensation up to $16,500 for the years ended December 31, 2011 and 2010 respectively, as defined in the Plan. However, participants who will be at least 50 years of age by the end of the plan year may make an additional "catch-up" contribution of up to $5,500. Participants may also contribute amounts distributed from other qualified plans (rollover contributions). The Company has the option of making a discretionary matching or profit sharing contribution, but has not opted to do so for the year ended December 31, 2011.

Participant accounts:

Each participant's account is credited with the participant's contribution, any Company matching contribution, an allocation of the Plan earnings and is charged with any withdrawals and directly allocated fees for loans and withdrawals. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are vested immediately in their contributions plus actual earnings thereon.

The Company historically has not made discretionary contributions. Any that are made however, are subject to a vesting schedule based on years of continuous service as follows:

Years of service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participant loans:

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000, or 50 percent of their vested account balance. Loan terms range from 1 to 5 years or up to 30 years for the purchase of a principal residence. A $95 loan set-up fee is deducted from loan proceeds. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 7.50%, and are established at 1% above the Wall Street Journal prime rate at the time of the loan. Principal and interest is paid ratably through bi-monthly payroll deductions.

Notes to Financial Statements (continued)

Description of plan (continued):

Participant loans (continued): In accordance with FASB ASC 820, participant loans are classified as notes receivable and valued at their outstanding principal amount, plus accrued but unpaid interest.

Interest earned on participant loans was $11,009 for the year ended December 31, 2011.

Payment of benefits: Upon termination of employment a participant can elect to receive distribution of their account balance as defined in the Plan agreement including a lump sum cash payout and various forms of annuities. $17,831 of excessive contributions refunded to the participants is included in the benefits paid to participants for the year ended December 31, 2011.

Forfeited accounts: Forfeitures of Company discretionary contributions are created when employees terminate employment before being fully vested in the plan. Forfeitures are allocated to remaining participants in the plan and can be used to reduce the employer's matching contribution. There were no forfeitures for the year ended December 31, 2011.

Plan expenses: Administrative expenses, such as the annual audit are paid by the Company. Fees relating to distributions and participant loan processing are paid from the individual participant's accounts.

Summary of accounting policies:

Basis of accounting: The Plan's financial statements are prepared using the accrual method of accounting. Benefits are recorded when paid.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Plan termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100% vested in the Company's discretionary contributions, if any.

Tax status: The Plan utilizes a prototype plan document and relies on the opinion letter issued to the prototype document sponsor. The prototype document sponsor received an opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since the prototype document sponsor received the opinion letter. However, the Company believes that the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and that, therefore, the Plan qualifies under Section 401(a) and the related trust is tax exempt as of December 31, 2011 and 2010. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Notes to Financial Statements (continued)

Benefit claims payable: There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not yet been paid at December 31, 2011 and 2010, respectively. At December 31, 2011, the Plan includes 19 terminated participants whose balances totaled $340,389.

Other income: The Plan occasionally has other income. The other income in the current year is contributions of assets from a plan that was merged into the Plan in 2010. The prior record keeper and asset custodian held on to the assets as they were term restricted. Upon expiration of the term restriction, the assets were contributed into the Plan.

Fair value of investments:

Investment valuation: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

See note in Fair Value Measurements for further discussion.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds are stated at fair value as determined by quoted market prices, which represent the net asset value.

Most of the common collective trust investments are valued at the net asset value per unit based upon ownership interest in the fund as based on information reported by the investment advisor using the audited financial statements of the collective trusts at year end.

One common collective trust investment is a stable value fund that is fully benefit responsive and valued at contract value. Contract value approximates fair value and is a relevant measurement attribute because that is the amount participants in the trust would receive if they were to initiate permitted transactions.

Fair value measurements: The Financial Accounting Standards Board has issued Fair Value Measurements, which establishes a framework for measuring and reporting fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Notes to Financial Statements (continued)

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Fair value of investments: The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, the plan's fair value measurements as of December 31:

Guaranteed investment contract with State Street Bank & Trust Company:

The Plan has a fully benefit-responsive investment contract with State Street Bank & Trust Company (State Street). State Street maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by State Street. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2011 and 2010 was $858,219 and $1,227,241, respectively. The crediting interest rate is based on a formula agreed upon by the issuer, but it may not be less than 0 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Notes to Financial Statements (continued)

Guaranteed investment contract with State Street Bank & Trust Company:

As described above, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by State Street, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

Information prepared and certified by the custodian of the plan:
