REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Plan Trustee and Administrator
Flying Food Fare, Inc.
401(k) Plan

We were engaged to audit the accompanying statement of net assets available for benefits of the Flying Food Fare, Inc. 401(k) Plan (the Plan) as of December 31, 2011, the related statement of changes in net assets available for benefits for the year then ended, and the supplemental schedules as of or for the year ended December 31, 2011, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management. The financial statements of the Plan as of and for the year ended December 31, 2010, were reported upon by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed the other auditors not to perform, and they did not perform, any auditing procedures with respect to information certified by the custodian. Their report, dated October 13, 2011, indicated that (1) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (2) the form and content of the information included in the financial statements, other than that derived from the information certified by the custodian, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note F, which was certified by Transamerica Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the 2011 financial statements and supplemental schedules. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and participant notes receivable and executes related transactions. The Plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2011, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information in the Plan's 2011 financial statements and supplemental schedules that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2011 financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for purposes of additional analysis and are not a required part of the financial statements, but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the 2011 financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Flying Food Fare, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Flying Food Fare, Inc., Flying Food Catering, Inc., Flying Food Services, Inc., Flying Food Midway, L.L.C., Flying Food Group, LLC and New Management, Ltd. (the Employer) who have met the eligibility requirements to participate in the Plan, unless they elect to waive participation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Participation

Employees who are at least 21 years old and have completed six months of service are eligible to participate in the Plan. Eligible employees may become Plan members on the first day of each Plan quarter, after attainment of eligibility.

Contributions

Plan participants may elect to contribute to the Plan through regular payroll deductions from 1% to 25% of compensation, as defined by the Plan, subject to the limitations imposed by the Internal Revenue Code (IRC). The Plan also provides for automatic enrollment at 2% of compensation for participants who become eligible to participate in the Plan, unless otherwise elected by the participant. Participants may also roll over amounts representing distributions from other qualified employee benefit or deferred contribution plans.

The Employer may make matching contributions equal to 50% of employee contributions, up to 4% of qualified compensation, as well as an additional discretionary contribution on behalf of all eligible employees whether or not they made elective contributions for the Plan year. Both the matching contribution, as well as the additional discretionary contribution, are at the option of the Employer's board of directors. Matching contributions totaled $619,928 and $574,112 for the years ended December 31, 2011 and 2010, respectively. There were no additional discretionary Employer contributions for the years ended December 31, 2011 and 2010.

Participants' Investment Options

The assets of the Plan are held by Transamerica Life Insurance Company (Transamerica), the custodian of the Plan. The Plan permits participants to direct the investment of their accounts into their choice of an investment contract or several pooled separate accounts. Participants may change their investment options daily.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Employer's contributions, and allocations of Plan earnings. Allocations are based on participant compensation or account balances, as

defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and any rollover contributions plus actual earnings thereon. Vesting in Employer contribution portions of their accounts plus actual earnings thereon is based on years of continuous service. A participant becomes 20% vested following two years of service and increases 20% for each year of service thereafter, until fully vested after six years of service. The non-vested balance is forfeited upon termination of service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years, except loans for the purchase of a primary residence that may be extended to a maximum of 20 years. The loans are secured by the balance in the participant's account and bear a fixed interest rate that ranges from 4.25% to 9.25%, as determined by the Plan administrator, equal to 1% over the prime interest rate at the time of the loan's issuance. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, retirement on or after normal retirement age, or other reasons as provided by the Plan, a participant may elect to receive the value of the vested interest in his or her account as an annuity or lump-sum payment. The Plan's provisions also provide for in-service withdrawals or withdrawals in the event of financial hardship, as defined by the Plan.

Forfeited Accounts

At December 31, 2011 and 2010, forfeited non-vested accounts totaled approximately $49,500 and $26,500, respectively. The non-vested accounts at December 31, 2011, will be used to reduce future Employer discretionary contributions. Forfeitures were used to reduce Employer matching contributions by $-0- and $35,586 for the years ended December 31, 2011 and 2010, respectively.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributed to fully benefit-responsive investment contacts because contact value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits present the fair value of the investment contracts as

well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract-value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that reflect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Adoption of New Accounting Guidance

In January 2010, the Financial Accounting Standards Board (FASB) amended the fair value measurements and disclosures guidance by adding new disclosure requirements for Level 1 and Level 2, separate disclosures of purchases, sales, issuances and settlements relating to Level 3 measurements, and clarification of existing fair value disclosures. This amended guidance is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances and settlements on a gross basis, which is effective for fiscal years beginning after December 15, 2010. The guidance did not have a material impact on the financial statements.

In May 2011, the FASB issued guidance clarifying how to measure and disclose fair value. This guidance amends the application of existing fair value measurement requirements, while other amendments change a particular principle in existing fair value measurement guidance. In addition, this guidance requires additional fair value disclosures, although certain of these new disclosures will not be required for non-public entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of the amended guidance will have on the Plan's financial statements.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for discussion of fair value measurements. Investments in insurance company pooled separate accounts are reported at the value reported to the Plan by the insurance company, which approximates fair value. Investments in the investment contract are stated at estimated fair values determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Purchases and sale of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans, if any, are reclassified as distributions based on the terms of the Plan agreement.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

The Employer absorbs certain administrative costs of the Plan. Although the Employer has elected to pay some administrative costs, it is not obligated to do so. If the Employer ceases to pay all or part of these costs in the future, they will be paid out of the assets of the Plan.

NOTE C - INVESTMENTS

The fair value of individual investments that represent 5% or more of the Plan's net assets as of December 31, 2011 and 2010, are as follows:

	2011	2010
Transamerica Stable Value Option	$5,405,446	$4,826,146
Loomis Sayles Bond	N/A	800,860
Fidelity Advisor Small Cap	N/A	786,847
Transamerica Partners Stock Index	1,230,119	1,184,626
American Funds Growth Fund of America	915,981	928,654
Vanguard Target Return 2010	NA	780,575
Vanguard Target Return 2030	1,100,893	912,169
Vanguard Target Return 2040	N/A	775,072
Vanguard Target Return 2050	949,731	853,306

NOTE D - FAIR VALUE MEASUREMENTS

The FASB has issued guidance that defines fair value, establishes a framework for measuring fair value under current accounting pronouncements that require or permit fair value measurements, and enhances disclosure about fair value measurement. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology, including the following:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used to measure assets at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled separate accounts - Valued based on the net asset value provided by the administrator of the fund. The net asset value is based on the value of the underlying assets owned by the fund, minus liabilities, and then divided by the number of shares/units held by the Plan at year-end. The net asset value is quoted on a private market and the underlying assets owned by the fund are traded on active markets. No restrictions apply to these funds and the investments may be redeemed daily. Pooled separate accounts are considered Level 2 investments.

Investment contract with insurance company - Valued at fair value, which has been determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see note E). The investment contract is considered a Level 3 investment.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2011

Total assets at fair value	$ -	$ 9,894,769	$4,826,146	$14,720,915

(a) International equity - The international equity portfolio is managed using a passive or indexing investment approach by which the fund manager tries to match, before expenses, the performance of the index. The underlying securities are often the same securities, in the same proportions, as the securities comprising the index.

(b) Target maturity - Target date and retirement income portfolios provide a diversified exposure to stocks, bonds and cash for those investors who have a specific date in mind for retirement or another goal. These portfolios aim to provide investors with an optimal level of return and risk based solely on the target date. Over time, management adjusts the allocation among asset classes to more conservative mixes as the target date approaches.

(c) Long-term bond - The long-term bond portfolio seeks high total investment return through both current income and capital appreciation. The portfolio seeks to attain its objective by normally investing substantially all of its assets in debt securities, although 20% may be invested in preferred stocks. At least 80% of the total assets will normally be invested in bonds, with no more than 35% in below investment-grade quality bonds.

(d) Balanced - The balanced portfolio seeks long-term growth of capital consistent with preservation of capital and balanced by current income. This portfolio normally invests 35% to 65% of assets in equity securities selected primarily for their growth potential and the remaining assets in fixed income securities and cash equivalents. The portfolio normally invests at least 25% of assets in fixed income senior securities. The portfolio may invest in foreign equity and debt securities, which may include investments in emerging markets.

(e) Small company equity - The small company equity portfolio seeks to replicate the returns and characteristics of the Russell 2000 Index or the Standard and Poor's (S&P) SmallCap 600 Index. This portfolio buys and holds securities, trading only when there is a change to the composition of the index or when cash flow activity occurs. The portfolio invests in domestic and foreign issuers, as well as growth stocks, value stocks or a combination of both.

(f) Mid-value equity - The mid-value equity portfolio seeks long-term capital appreciation. This portfolio normally invests at least 80% of net assets in equity securities of companies that have market capitalizations in the range of companies in the Russell Midcap Value Index at the time of purchase that the portfolio manager believes are undervalued and have the potential for long-term growth. The portfolio may invest up to 20% of total assets in foreign securities. The portfolio normally invests in common stocks and may also invest in real estate investment trusts.

(g) Large growth equity - The large growth equity portfolio seeks capital growth by investing in common stocks. This portfolio seeks to invest in companies that appear to offer superior opportunities for growth of capital. The portfolio may invest a portion of its assets in securities of issuers domiciled outside of the United States. The portfolio may also hold cash or money market instruments.

(h) Intermediate-term bond - The intermediate-term bond portfolio seeks total return with a high level of current income and a moderate degree of share price fluctuation. This portfolio is best suited for long-term investors who want a higher income than shorter-term securities generally provide. The portfolio will invest at least 90% of its assets in U.S. government securities, with the balance being invested in other investment-grade debt obligations. It is anticipated that the normal average portfolio maturity will be between five and ten years.

(i) Large blend equity - The large blend equity portfolio seeks to match the performance of the S&P 500 Index by investing in stocks that make up the index. Investing in large-capitalization stocks is the most efficient way to participate in earnings from large U.S. companies. This portfolio has the potential from more stable earnings than that of small- or mid-capitalization stocks, and their prices tend to be less volatile. This portfolio is intended for long-term investors seeking to capture the earnings and growth potential of large U.S. companies.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2011:

Investment contract with insurance company	
Balance, beginning of year	$4,826,146
Purchases	1,295,969
Sales	(716,669)
Balance, end of year	$5,405,446

NOTE E - INVESTMENT CONTRACT WITH INSURANCE COMPANY

As of December 31, 2011 and 2010, the Plan retains an investment in a benefit-responsive investment contract with Transamerica. Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate. The effective credited interest rate is set monthly and effective on the first day of the month. There is no stated minimum or maximum interest rate. The contract is included in the financial statements at its fair value, which approximates contract value as reported to the Plan by Transamerica.

As described in note B, because the contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the contract. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on the earnings of the underlying assets in the entire portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Such interest rates are reviewed on a monthly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2011	2010
Average yields on this contract		
Based on actual earnings	2.45%	2.73%
Based on interest rate credited to participants	2.45	2.86

NOTE F - SUMMARY OF INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Transamerica has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments, at fair value, as shown in the statements of net assets available for benefits as of December 31, 2011 and 2010, respectively.
- Net investment loss, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2011.
- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2011.

NOTE G - PARTY-IN-INTEREST TRANSACTIONS

Plan investments are managed by Transamerica. Transamerica is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees are paid by certain funds for investment management services and paid by participants for the processing of their distributions and loans.

NOTE H - PLAN TERMINATION

The Employer reserves the right to alter, amend or terminate the Plan. In the event of Plan termination, participants will become 100% vested in their accounts. Presently, there is no intention on the part of the Employer to terminate the Plan.

NOTE I - TAX STATUS

Effective July 1, 2004, the Plan has adopted the Tax-Favored Savings and Discretionary Contribution Plan and Trust Agreement, a Volume Submitter Plan prepared by Transamerica. The Internal Revenue Service (IRS) has determined and informed Transamerica by a letter dated March 31, 2008, that the Volume Submitter Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance in all material respects with the applicable provisions of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE J - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE K - DELINQUENT PARTICIPANT CONTRIBUTIONS

Certain participant contributions were temporarily held by the Company and not deposited into participant accounts maintained by the trustee within the time frame mandated by the Department of Labor's regulations.

NOTE L - SUBSEQUENT EVENTS

Effective in October 2012, participant assets and accounts of the International In-Flight Catering Company, Ltd. 401(k) Profit Sharing Plan I and the International In-Flight Catering Company, Ltd. 401(k) Profit Sharing Plan II will be merged into the Plan. The assets that will be transferred to the Plan total approximately $8,000,000.

Plan management evaluated subsequent events through October 15, 2012, the date the financial statements were available to be issued. Except as described above, Plan management is not aware of any subsequent events that would require recognition or disclosure in the financial statements.
