Report of Independent Auditors

To The Miner Corporation 401(k) Plan and Participants:

We were engaged to audit the financial statements of The Miner Corporation 401(k) Plan (the "Plan") as of December 31, 2010 and the supplemental schedules as of and for the year ended December 31, 2010 as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 4, all of which was certified by Charles Schwab Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2010, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have compiled the accompanying statement of net assets available for benefits of The Miner Corporation 401(k) Plan as of December 31, 2009 in accordance with the Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying statement of net assets available for benefits and, accordingly, do not express an opinion or any other form of assurance on it.

The Miner Corporation 401(k) Plan
Notes to Financial Statements

1. Significant Accounting Policies

Basis of Accounting. The financial statements of The Miner Corporation 401(k) Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Payment of Benefits. Benefits are recorded when paid.

Use of Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and schedules. Actual results could differ from those estimates.

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Management's Review of Subsequent Events. Management has evaluated subsequent events through October 10, 2011, the date on which the financial statements were available to be issued. There were no subsequent events through October 10, 2011, that required adjustment to or disclosure in the financial statements.

2. Description of the Plan

General. The Plan is a salary reduction, defined contribution plan (a "401(k) arrangement") and is available to all employees who have completed one year of service and have attained age 21. The Plan includes the employees of the plan sponsor, Miner Ltd., dba The Miner Corporation (the "Company") as well as the employees of its wholly owned subsidiaries, Miner El Paso, Ltd., Miner North Texas, Ltd., Miner Florida, Ltd., Miner Fleet Management Group, Ltd., Miner Houston, Ltd. and Miner Southwest, L.L.C. Employees are eligible to enter the Plan at the first day of the Plan Year or the first day of the seventh month of the Plan Year coinciding with or next following the date employees satisfy the eligibility requirements. The Plan's original effective date is January 1, 2005. The amended and restated provisions of the Plan became effective on January 1, 2009.

Contributions. Participants may elect to reduce their compensation by a specific percentage or dollar amount and have that amount contributed to the Plan on a pre-tax basis as a salary deferral. The participant salary reductions may not exceed the lesser of $16,500 for 2010 or 100% of compensation for any plan year. Participants who attain age 50 by the end of the plan year may make a "catch-up" contribution of up to $5,500 for 2010.

2. Description of Plan (continued)

Under the terms of the Plan, the Company may make an additional profit sharing contribution. The Company also has the option each year to make a discretionary matching contribution equal to a uniform percentage of salary deferrals. The discretionary matching contribution for any plan year may not exceed 4% of a participant's compensation.

Vesting. Prior to normal retirement age, the employee becomes vested in the Company matching as follows: 0% vested for less than two y ears of service, 20% vested upon completion of two years of service, 40% vested upon completion of three years of service, 60% vested upon completion of four years of service, 80% vested upon completion of five years of service and 100% vested upon completion of six years of service. Participants also become 100% vested in the event of disability, death, the attainment of normal retirement age or the termination of the Plan by the Company.

Participants are immediately vested in their voluntary contributions.

Forfeitures. Forfeited nonvested account balances may be used to pay administrative expenses or reduce required Company contributions. There were no forfeited nonvested account balances at December 31, 2010 and 2009 and no nonvested account balances were forfeited during 2010.

Normal Retirement. Normal retirement is age 65.

Termination. Upon termination of employment, on the normal retirement date or due to disability, the participant's vested account balance is available to be paid in a single lump-sum payment.

Hardship Withdrawals. Prior to termination of employment, participants may elect to withdraw money for financial hardship if participants satisfy certain conditions.

Investment Options. The Plan permits participants to direct the investment held in their account balance according to options provided to the participants.

Administrative Expenses. Administrative expenses are paid by either the Company or the Plan at the Company's discretion.

2. Description of Plan (continued)

Notes Receivable from Participants. The Plan has a provision that permits loans to participants and their beneficiaries. The rate of interest on the loans during 2010 ranged from 4.25% to 9.25%. Loans generally shall not be greater than the lesser of $50,000 or one-half of the vested account balance of the participant. Certain other provisions apply if previous loan balances are held. Loans generally may not extend for more than five years.

For further description of the Plan, refer to the Plan document.

3. Income Taxes

The Internal Revenue Service has determined and informed the Company by a letter dated June 27, 2006, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore believe that the plan is qualified and the related trust is tax-exempt. The Plan is required to file annual reports with the Internal Revenue Service. Generally, these reports remain open to potential examination by the Internal Revenue Service for a period of three years after the reports are filed.

4. Information Certified by the Trustee (unaudited)

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by Charles Schwab Trust Company, the trustee of the Plan (the "Trustee").

		2010
Assets as of December 31:		
Investments	$	2,034,885
Common collective trust (fair value)		18,459
Notes receivable from participants		50,615
Additions/(deductions) to/from fund balances for the year ended December 31, 2010:		
Net appreciation in fair value of investments	$	210,505
Dividends and interest income	$	26,840

5. Investments

The contract value of the Wells Fargo Stable Value Fund J (a common collective trust) is determined by the issuer based on the amount invested plus earnings less amounts withdrawn to pay benefits. The fair value of the Wells Fargo Stable Value Fund J is calculated based on the fair value of the underlying investments. All other investments are valued by the Trustee at their fair values determined using quoted market prices or rates. See Note 7 for a discussion of fair value measurements.

In the statement of changes in net assets available for benefits, the net appreciation in fair value of investments includes realized and unrealized gains and losses from investments. Investment management fees are included in the net investment gain or loss.

The following presents investments that represent 5% or more of the Plan's net assets available for benefits.

7 Fair Value Measurements

FASB Accounting Standards Codification 820, *Fair Value Measurements and Disclosures* (FASB ASC 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted market prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

7. Fair Value Measurements (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Cash equivalents: Valued at cost, which is equivalent to fair value.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year end.

Common Collective Trust: Valued at the Plan's percentage of the total market value of the underlying investments. Underlying investments mainly consist of investments in guaranteed investment contracts and security backed contracts. Guaranteed investment contracts are valued using discounted cash flow models. Security backed contracts are valued at the fair values of the underlying debt securities and wrap contracts. The fair value of a wrap contract is the present value of the difference between the current wrap fee and the contracted wrap fee.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

7. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:
