SALARY REDUCTION PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS AND SCHEDULES
DECEMBER 31, 2009 AND 2008

NOTE A - DESCRIPTION OF PLAN

The following description of the Three Way Chevrolet Company Salary Reduction Plan and Trust provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Three Way Chevrolet Company Salary Reduction Plan and Trust Plan (the "Plan") was established to provide retirement benefits for employees of Three Way Chevrolet Co. (the "Company"). Eligible employees become participants in the Plan following one year of continuous service and attainment of age 21, as defined in the Plan agreement. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (the "ERISA").

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan and subject to limitations by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions as well as employer matching contributions into various investment options offered by the Plan. Profit sharing amounts may be contributed at the option of the Company's board of directors; as of December 31, 2009 no profit sharing amounts have been contributed to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Plan earnings, and charged with allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded as paid.

Date of Management's Review

Subsequent events were evaluated through August 13, 2010, which is the date the financial statements were available to be issued.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

SFAS No. 157, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair values of mutual funds and money market funds are based on the closing price reported in the active market where the individual securities are traded, when available.

NOTE C – FAIR VALUE MEASUREMENTS (concluded)

Level 2 Fair Value Measurements

Assets classified as Level 2 are valued using inputs other than quoted prices. The purchase or redemption price of units in common/collective trusts are determined periodically by the trustee, based on the current market values of the underlying assets of the Fund. Thus, the Plan's common/collective trust accounts are valued using Level 2 inputs.

Level 3 Fair Value Measurements

Participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance.

The following table provides further details of the Level 3 fair value measurements:

	Participant Loans

Beginning balance	$ 241,443
Total gains or losses (realized or unrealized) included in changes in net assets available for benefits	-0-
