Plan Administrator
Tampico Beverages Inc.
Profit Sharing Savings Plan
Chicago, Illinois

We were engaged to audit the accompanying statements of net assets available for benefits (modified cash basis) of the Tampico Beverages Inc. Profit Sharing Savings Plan (Plan) as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits (modified cash basis) for the years then ended and the accompanying supplemental schedule. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*, the Plan administrator instructed us not to perform, and we did not perform, auditing procedures with respect to the information summarized in Note 3, which was certified by ING Life Insurance and Annuity Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the custodian as of and for the years ended December 31, 2009 and 2008, that the information provided to the Plan administrator by the custodian is complete and accurate.

As described in Note 2, the financial statements were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*.

Note 1: Description of the Plan

The following description of the Tampico Beverages Inc. Profit Sharing Savings Plan (Plan) provides only general information. Participants should refer to the Plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan administrator, Tampico Beverages Inc. (Company).

General

The Plan is a defined contribution plan sponsored by the Company covering substantially all full-time employees who have attained age 21 and who are not considered highly compensated employees. Related employers who also participate in the Plan include Tampico USA Sales, Inc. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Dawn Stanislaw and Pedro DeJesus are the trustees of the Plan. ING Life Insurance and Annuity Company (ING) serves as Plan custodian.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to 100% of eligible compensation. Employee catch-up and Roth contributions are also permitted. The Company made matching contributions of 100% of employees' salary deferral amounts on the first 4% of employees' compensation until August 31, 2008. Effective September 1, 2008, employer matching contributions to the Plan were discontinued. Company profit-sharing contributions are discretionary as determined by the Company's board of directors. Contributions are subject to certain limitations.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his or her contributions into any of the separate investment accounts and may change the allocation daily.

The Plan document also includes an automatic deferral feature whereby a participant is treated as electing to defer a certain percentage of eligible compensation unless the participant made an affirmative election otherwise.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Participants are also immediately vested in safe harbor matching contributions plus earnings thereon. Employer matching and discretionary contributions made prior to January 1, 2006, vest based on years of continuous service. A participant is fully vested after five years of continuous service. The nonvested balance is forfeited upon termination of service. Forfeitures are used to reduce Plan expenses or employer contributions.

Payment of Benefits

Upon termination of service, an employee may elect to receive a lump-sum amount equal to the vested value of his or her account.

Forfeited Accounts

At December 31, 2009 and 2008, forfeited nonvested accounts totaled $1,764 and $1,345, respectively. These accounts will be used to reduce future Plan expenses.

Participant Loans

The Plan document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the Plan administrator.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100% vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Consequently, certain revenue and the related assets are recognized when received rather than earned, and certain expenses are recognized when paid rather than when the obligation is incurred.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contract, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statements of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to market investments. Pooled separate accounts are valued at estimated fair value as determined by ING. The fair value of the investment contract is calculated by discounting the related cash flows, based on current yields of similar instruments with comparable durations, considering the creditworthiness of the issuer. Participant loans are valued at amortized cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Tax Status

The Plan obtained its latest determination letter on August 4, 2004, in which the Internal Revenue Service stated the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code (IRC) and, therefore, not subject to tax.

The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC. With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2006.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Note 3: Investments

The following table presents the Plan's investments. Investments that represent 5% or more of total Plan assets are separately identified.

	2009	2008
Investments at Fair Value as Determined by ING		
Pooled separate accounts		
Fidelity VIP Contrafund Portfolio	$ 507,709	$ 375,816

ING Fixed Account	238,560	189,498
Participant loans	176,206	158,967
Total investments	$ 3,630,784	$ 3,293,714

During the years ended 2009 and 2008, the Plan's investments (including gains and losses on investments bought, sold and held during the year) appreciated (depreciated) in value by $571,920 and $(1,323,809), respectively, as follows:

	2009	2008
Pooled separate accounts	$ 571,920	$ (1,323,809)

Interest and dividends realized on the Plan's investments for the years ended 2009 and 2008, were $10,618 and $10,342, respectively.

Information on the fully benefit-responsive investment contract carried at fair value is as follows:

	2009	2008
Average yield	3.00%	3.15%
Crediting interest rate at December 31	3.00%	3.15%
Fair value	$ 238,560	$ 189,498
Contract value	$ 241,493	$ 179,211

Note 4: Investment Contract With Insurance Company

The Plan has entered into a fully benefit-responsive investment contract with ING. ING maintains the contribution in a fixed account. The account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in the basis of accounting disclosure, the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rate is reviewed on an annual basis for resetting by the issuer but cannot be less than 3.0%.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial termination of the Plan or the Plan's merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement.

Note 5: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

Fees paid by the Plan for professional and administrative services for the years ended December 31, 2009 and 2008, were $2,125 and $17,609, respectively. The Company provides certain administrative services at no cost to the Plan.

Note 6: Fair Value of Plan Assets and Liabilities

ASC Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits. as well as the general classification of such assets pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. The Plan holds no investments that are classified within Level 1 of the hierarchy. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. The inputs used to determine fair value may include one or a combination of observable inputs such as benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities. bids, offers and market research publications, and the related investments are classified within Level 2 of the valuation hierarchy. Level 2 investments include pooled separate accounts. In certain cases where Level 1 or Level 2 inputs are not available. investments are classified within Level 3 of the hierarchy and include the investment contract and participant loans. Inputs used to determine fair value of the investment contract include the identified market values of the assets in the fixed account of ING in which the contributions are held considering any market adjustment items. Participant loans are valued at amortized cost, which approximates fair value.

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31:

	2009			
		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Pooled separate accounts	$ 3,216,018	$ -	$ 3,216,018	$ -
Investment contract	$ 238,560	$ -	$ -	$ 238,560
Participant loans	$ 172,206	$ -	$ -	$ 172,206

	2008			
		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Pooled separate accounts	$ 2,945,249	$ -	$ 2,945,249	$ -
Investment contract	$ 189,498	$ -	$ -	$ 189,498
Participant loans	$ 158,967	$ -	$ -	$ 158,967

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	Investment Contract	Participant Loans
Balance, January 1, 2008	$ 88,319	$ 124,833
Purchases	127,869	-
Issuances	-	98,508

Settlements	(28,818)	(58,356)
Balance, December 31, 2009	$ 238,560	$ 176,206

Note 7: Significant Estimates and Concentrations

Current Economic Conditions

The current protracted economic decline continues to present employee benefit plans with difficult circumstances and challenges which, in some cases, have resulted in large and unanticipated declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9: Plan Amendment

Effective September 1, 2008, the Plan was amended to discontinue any future matching or discretionary profit-sharing contributions, as well as disallow any future employee rollover contributions. In addition, highly compensated employees will no longer be able to make any salary reduction contributions or receive any other contributions in the Plan.

Effective January 1, 2009, the Plan was amended and restated primarily in order to incorporate all previous amendments to the Plan.

Note 10: Subsequent Events

Subsequent events have been evaluated through June 3, 2010, which is the date the financial statements were available to be issued.
