To the Trustee and Participants
MICA Corporation Profit
Sharing Retirement Plan and Trust

We have audited the accompanying financial statements of MICA Corporation Profit Sharing Retirement Plan and Trust (the Plan) which comprise the statements of net assets available for benefits as of January 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the MICA Corporation Profit Sharing Retirement Plan and Trust as of January 31, 2013 and 2012, and the changes in its financial status for the years then ended in accordance with accounting principles generally accepted in the United States of America.

MICA CORPORATION
PROFIT SHARING RETIREMENT PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

In accordance with the Plan, the Trust maintains its accounting records on the accrual basis.

Federal Income Taxes

The Plan obtained its latest determination letter on August 5, 2009, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Uncertain Tax Positions

The Plan recognizes the financial effect of a tax position, if that position is more likely than not to be sustained upon examination, including resolution of any appeals or litigation processes, based upon the technical merits of the position. Tax positions taken related to the Plan's tax exempt status for federal tax purposes and state filing requirements have been reviewed, and management is of the opinion that material positions taken by the Plan would more likely than not be sustained by examination. Accordingly, the Plan has not recorded an income tax liability for uncertain tax benefits. As of January 31, 2013, the Plan's tax years 2011 and thereafter remain subject to examination.

Valuation of Trust Investments

The Trust assets are revalued each year to reflect fair value using quoted market prices. Any appreciation or depreciation in fair value is reflected in the statement of changes in net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Subsequent Events

The Plan evaluated all events or transactions that occurred after January 31, 2013 through June 24, 2013, the date these financial statements were available to be issued. The Plan did not have any material recognizable subsequent events.

NOTE 2. DESCRIPTION OF PLAN AND TRUST

The MICA Corporation Profit Sharing Retirement Plan and Trust was established February 1, 1978 for the exclusive benefit of eligible employees of MICA Corporation. An individual, who is selected and designated by the Board of Directors of MICA Corporation, administers the Plan.

The Plan is a defined contribution plan that covers any employee who completes one hour of active service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

For each of its taxable periods, the employer shall contribute to the Trust (from its current or accumulated profits) an amount determined by its Board of Directors, provided, however, that the amount contributed shall not exceed the amount constituting an allowable deduction under Section 404(a)(3) of the Internal Revenue Code of 1986, as amended.

At each anniversary date (February 1) the employer contributions and forfeitures of the Trust are allocated to all participants in the ratio that their total salary bears to the total salaries of all the participants. The earnings of the Trust are allocated to each participant on the ratio of his beginning account balance to the beginning account balance of total participants.

Each participant shall have a vested interest in his proportionate share of employer contributions, trust earnings and forfeitures as follows:

a. Upon completion of two years of service, he shall have a vested interest of 20%. This vested interest shall increase 20% in each of the following four years. After six years of service, the participant shall be fully vested.

b. In the event of death or disability of a participant such amounts shall be fully vested.

NOTE 2. DESCRIPTION OF PLAN AND TRUST – CONTINUED

A participant, upon reaching his normal retirement date (age 65) or his early retirement date (age 62), provided that the participant has at least six years of credited service, shall be fully vested in his proportionate share of the Trust. The amount may be paid as follows:

a. A single lump-sum payment.

b. In periodic payments of substantially equal amounts for a specified number of years not in excess of fifteen (15), in which event the unpaid balance as of each valuation date shall not receive allocations of employer contributions or forfeitures.

c. In a combination of the above.

The Plan has been amended effective February 1, 2012, to allow in-service distributions from a participant's capital accumulation account upon attainment of full retirement age for social security purposes. The participant must have participated in the Plan for sixty months, and this provision shall not include any part of the participant's accrued benefit that is not vested.

The employer absorbs substantially all of the administrative expense of the Plan.

NOTE 3. INVESTMENTS

The following table presents the fair values of investments at January 31, 2013 and 2012:

Texas Cap Bancshares Inc. 30,000 shares of common stock	585,780	1,242,000	585,780	951,600

All investments are non-participant directed.

NOTE 4. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account.

NOTE 5. RECONCILIATION TO FORM 5500

Amounts allocated to participants who have withdrawn from the Plan but who have not been paid are included as a liability in Form 5500, Line 1g. United States generally accepted accounting principles require these amounts to be included in net assets available for benefits.

	2013		2012	
	Participants Payable	Net Assets Value	Participants Payable	Net Assets Value
Amount per financial statements	$ 5,000	$6,514,853	$ 4,303	$5,800,618
Participant distributions (unpaid)	619,587	(619,587)	549,276	(549,276)
Amount per Form 5500	$ 624,587	$5,895,266	$ 553,579	$5,251,342

The following is a reconciliation of benefits paid to participants per the financial statements for the years ended January 31, 2013 and 2012 to Form 5500:

	2013	2012
Benefits paid to participants per the financial statements	$ 409,299	$ 323,905
Amounts allocated to withdrawing participants	70,312	84,639
Amount per Form 5500	$ 479,611	$ 408,544

NOTE 6. FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models are applied. These valuation techniques involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the instruments or market and the instruments' complexity.

NOTE 6. FAIR VALUE MEASUREMENTS – CONTINUED

Generally accepted accounting principles establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs). The three levels of the fair value hierarchy are described below:

Level 1 inputs – Unadjusted, quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 inputs – Inputs (other than quoted market prices included within Level 1) that are either directly or indirectly observable for the asset or liability through correlation with market data at the measurement date and fair value is determined through the use of models or other valuation techniques.

Level 3 inputs – Prices or valuations that require unobservable inputs that are both significant to the fair value measurement and unobservable. Fair values for these investments are determined using valuation methodologies that consider a range of factors including but not limited to the nature of the investment, market conditions, current and projected operating performance and changes in operating characteristics of the investment.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Mutual funds, common stock and exchange-traded funds are valued at the last sales prices on the largest securities exchange in which such securities have been traded on the valuation date.

The valuation methods used by the Trust have been consistently applied during the year.

The Trust may have risk associated with its concentration of investments. The following summarizes the Trust's portfolio investments using the fair value hierarchy by geographic region, type of investment, and industry, representing identified risk to the portfolio at January 31:
