INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees of
Ball Horticultural Company
Profit Sharing Retirement Plan

We have audited the accompanying financial statements of BALL HORTICULTURAL COMPANY PROFIT SHARING RETIREMENT PLAN, which comprise the statements of net assets available for benefits as of September 30, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule as of September 30, 2012, as listed in the accompanying contents page. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information referred to in Note 6, which was certified by Charles Schwab Bank, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended September 30, 2012 and 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

BALL HORTICULTURAL COMPANY
PROFIT SHARING RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the Ball Horticultural Company Profit Sharing Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all domestic employees of Ball Horticultural Company (the "Company") who have six months of service and are at least 18 years of age. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended by subsequent legislation.

Contributions – Each employee shall be automatically enrolled in the Plan with a contribution percentage of 4% of pretax annual compensation, unless an alternate election is made prior to the participant's entry date. Participants may contribute up to 35% of pretax annual compensation, as defined in the Plan. The Company may, however, limit the amount of pretax annual compensation contributed by highly compensated participants, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants can also make Roth contributions to the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes 50% of each participant's contribution to the Plan, with the Company's contribution not to exceed 2% of each participant's compensation. The Company, at its discretion, may also make additional profit sharing contributions to the Plan. Contributions are subject to certain limitations. Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and common/collective trusts as investment options for participants.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their voluntary contributions and Company-matching contributions of their accounts plus actual earnings thereon. Vesting in the Company's profit sharing contribution portion of their accounts plus actual earnings thereon is based on continuous years of service. Participants remain unvested until three years of service have been completed at which time participants become 100% vested in the profit sharing contribution portion of their account balances.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest rates that are commensurate with local prevailing rates. Principal and interest is paid ratably through payroll deductions. The maximum term of a loan will be five years with the exception of a loan request for the acquisition of a principal residence. The maximum repayment period for a principal residence loan will be determined by reference to the bank loan, not to exceed ten years. A participant may have only one Plan loan outstanding at any time. A participant that demonstrates an immediate and heavy financial need may be permitted to have a second loan outstanding.

1. Description of Plan (Cont.)

Payment of Benefits – On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or in installments, as provided for in the Plan. If a participant's account balance does not exceed $5,000, a single-sum distribution will be paid as soon as administratively feasible after the participant has ceased employment. In the event that the participant's account balance exceeds $1,000, the participant has not attained age 65, and the participant does not elect to receive the distribution directly or to have the distribution paid directly to an eligible retirement plan, then the plan administrator will pay the distribution in a direct rollover to an individual retirement plan designated by the plan administrator.

Forfeitures – When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures are utilized to reduce the Company's contributions for the plan year. During 2012 and 2011, employer contributions were reduced by $7,969 and $5,202, respectively, from forfeited nonvested accounts.

Expenses – All expenses of the Plan are paid by the Company or by utilizing excess contributions generated by the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements have been prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Fully Benefit-Responsive Investment Contract – As required by U.S. Generally Accepted Accounting Principles, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through collective trusts. The statement of net assets available for benefits presents the fair value of the investment in the collective trusts as well as the adjustment of the investment in the collective trusts from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on the contract value basis. For the year ended September 30, 2010, for the Charles Schwab Stable Value Fund, the average yield of the underlying investment contracts was 2.26% and the average yield credited to participants was 2.73%. For the year ended September 30, 2011, for the Galliard Retirement Income Fund, the average yield of the underlying investment contracts was 1.53% and the average yield credited to participants was 4.59%

2. Summary of Significant Accounting Policies (Cont.)

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan. The Plan's interest in common/collective trusts is stated at fair value, which represents the fair value of the underlying securities, and is adjusted to contract value for the fully benefit responsive investment contracts. The common/collective trusts invest primarily in guaranteed investment contracts, money market instruments, separate account structures and alternative investment contracts. The Funds are credited with earnings on underlying investments and charged for Plan withdrawals and administrative expenses. The value of the Fund's portfolio is not guaranteed and there is no assurance that the value of units in the Fund will not fluctuate or decline. The realized gains or losses on the sale of securities are based upon average cost. Income (loss) from investment is recorded as earned on the accrual basis. Investments in stable value funds are carried at contract value provided by the contract issuer and are comprised of fully benefit responsive investment contracts. For 2012, the Galliard Retirement Income Fund comprises of purchases and redemptions of shares that may only be affected with the investee fund at contract value. As a result, the Trustee considers contract value to be fair value.

The Plan provides for investments that, in general, are exposed to various risks such as interest rates, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions.

Fair Value Measurements – In January 2010, the Financial Accounting Standards Board (FASB) issued guidance in Accounting Standards Update No. 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements* (ASU No. 2010-06). ASU No. 2010-06 amended disclosure requirements related to recurring and nonrecurring fair value measurements. For fiscal years beginning after December 15, 2010, ASU No. 2010-06 requires separate presentation of purchases, sales, issuances and settlements in the Level 3 reconciliation table. The Plan has adopted these disclosure requirements in 2011.

In May 2011, the FASB issued guidance in Accounting Standards Update No. 2011-04, *Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S.GAAP and IFRSs* (ASU No. 2011-04). ASU No. 2011-04 was issued to improve comparability of fair value application, measurements and disclosures between U.S. GAAP reporting and IFRS reporting. ASU No. 2011-04 clarifies fair value definitions and enhances fair value measurement guidance with respect to highest and best use measurements, equity instrument measurements, and measurement of financial instruments that are managed within a portfolio. Additionally, ASU No. 2011-04 expands disclosures for unobservable inputs used in Level 3 fair value

measurements. ASU No. 2011-04 is effective for annual periods beginning after December 15, 2011. The Plan is currently evaluating the impact of ASU No. 2011-04 on its fair value measurements and disclosures and intends on adopting the guidance in the year ending September 30, 2013.

Payment of Benefits – Benefits are recorded when paid.

3. Tax Status

The Plan obtained its latest determination letter on May 2, 2011, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

4. Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	September 30,	
	2012	2011
Schwab Managed Retirement 2020	$ 7,364,515	$ 7,434,650
Schwab Managed Retirement 2030	9,313,861	7,230,434

Galliard Retirement Income Fund	9,019,136	*
Thornburg International Value R5	4,374,432	*

* Investment does not represent 5% or more of Plan's net assets.

During 2012 and 2011, the Plan's investments (including gains and losses on investments bought, sold and held during the year) appreciated (depreciated) in value as follows:

	2012	2011
Registered investment companies	$ 5,605,573	$ (2,146,923)
Common/collective trusts	4,535,260	(122,385)
	$ 10,140,833	$ (2,269,308)

5. Fair Value Measurement

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on

5. Fair Value Measurement (Cont.)

the measurement date. The financial accounting standards establish a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted market prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted market prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2012 and 2011.

The fair value of registered investment companies is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The net asset value of the common/collective trust investments in the Schwab Managed Retirement Accounts are based on the market value of the underlying investments. These funds contain synthetic investment contracts comprised of both underlying investment and contractual components which have observable Level 1 and Level 2 pricing inputs, including quoted prices for similar assets in active and non-active markets.

As of September 30, 2011, the Schwab Stable Value Fund holds investments in guaranteed investment contracts which are considered fully benefit-responsive. It is included in the financial statements at contract value which represents contributions made under the contracts, plus earnings, less withdrawals and administrative expenses. This fund is presented in investments at fair value with the adjustment to contract value reported separately. This fund contains synthetic investment contracts comprised of both underlying investment and contractual components which have observable Level 1 and Level 2 pricing inputs, including quoted prices for similar assets in active and non-active markets.

As of September 30, 2012, the Galliard Retirement Income Fund holds investments in guaranteed investment contracts which are considered fully benefit-responsive. Purchases and redemptions of shares may only be affected with the investee fund at contract value. As a result, the Trustee considers contract value to be fair value. This fund contains synthetic investment contracts comprised of both underlying investment and contractual components which have observable Level 2 pricing inputs, including quoted prices for similar assets in active and non-active markets.

5. Fair Value Measurement (Cont.)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2012 and 2011:

(a) The Target Funds invest in equity and fixed income funds according to asset allocation strategies designed for specific investment time horizons and can be redeemed on a daily basis with no notice period required.

(b) Under the Fund's organizational documents, each trustee, officer, employee and agent of the Trust is indemnified, to the extent permitted by law, against certain liabilities that may arise in the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had prior claims or losses pursuant to these contracts, and the Fund believes the risk of loss to be remote.

(c) The Fund invests in a diversified portfolio of stable assets which include, but are not limited to, units of collective trust funds consistent with the Fund's objective of stable value, bonds, notes, and alternative, synthetic and separate account guaranteed investment contracts. The net asset value for each unit class of the Fund is calculated daily by dividing the net assets applicable to each unit class by the respective number of units outstanding for that class. Deposits to and withdrawals from the Fund may be made daily at the current net asset value per unit.

6. Information Certified by the Plan's Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Charles Schwab Bank, the trustee of the Plan, has certified to the completeness and accuracy of all investments, at fair value, and notes receivable from participants reflected in the accompanying statements of net assets available for benefits as of September 30, 2012 and 2011, and investments, at fair value, and participant loans reflected on the supplemental schedule of assets (held at end of year) as of September 30, 2012, and the investment income (loss) and interest from participant notes receivable reflected in the statements of changes in net assets available for benefits for the years ended September 30, 2012 and 2011.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

8. Risks and Uncertainties

The Plan maintains investments in securities which are not insured. These investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with these investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Transactions with Parties-in-Interest

The Plan's investments are held and managed by the trustee of the Plan. These transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan during 2012 and 2011 for legal, accounting, and other professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.

10. Subsequent Events

The Plan's management has evaluated subsequent events through April 19, 2013, the date these financial statements were available for issuance.
