NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2012 AND 2011

Note 1 **Description of Plan**

The following brief description of the Hahn Automotive Warehouse, Inc. 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all of the employees of Hahn Automotive Warehouse, Inc. and its subsidiaries (Hahn) who meet certain length of service and age requirements. Effective March, 2012, the Plan was amended to allow the employees of Norwood Auto Parts LLC (Norwood), a company under common ownership, to participate in the Plan. For purposes of these financial statements, Hahn and Norwood are collectively referred to as the "Company." The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration

Principal Trust Company (the Trustee) is the Plan's trustee, custodian, and third-party administrator.

Eligibility

The Plan covers employees of the Company who are at least twenty-one years of age and who have completed at least 1,000 hours of service within any 12-month period. Leased employees or employees covered by any collective bargaining agreement are excluded.

Contributions

Each year, participants may contribute up to 20% of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 1% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. Contributions are subject to certain limitations. The Company made matching contributions equal to 15% of participant contributions, up to a maximum of 15% of each participant's compensation in 2012 and 2011. The Company may also make discretionary profit-sharing contributions to the Plan. No discretionary contributions were made in either 2012 or 2011.

Participant Accounts

Participants direct the investment of their contributions and the Company's matching and profit-sharing contributions into various investment options offered by the Plan. Each participant's account is credited with the participant's contributions, the Company matching contributions, an allocation of profit-sharing contributions, and actual earnings thereon. Each participant's account is charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Profit-sharing contributions are allocated to participants based on their compensation as a percentage of the total compensation of all participants.

NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2012 AND 2011

Note 1 **Description of Plan - Continued**

Participant Accounts - Continued
Administrative expenses are allocated to participants based on their account balances as a percentage of the total of all participant account balances.

Forfeitures
Forfeitures of non-vested account balances are used to reduce the Company's matching contributions to the Plan. The amount used to reduce the Company's matching contribution was approximately $400 and $200 in 2012 and 2011, respectively.

Vesting
Participants are immediately vested in their elective deferral contributions plus actual earnings thereon. The Company contributions vest 20% per year, starting in the second year of service. Participants are fully vested in the Company contributions after six years of service.

Participant Loans
Participant loans are not permitted by the Plan.

Benefit Payments
Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or fixed period and fixed payment installments. Withdrawals for hardship and upon attainment of age 59½ are permitted by the Plan, provided that the participant is still employed by the Company at that time. Hardship withdrawals can be distributed only from elective deferrals.

Plan Termination
Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, all participants would become fully vested in their account balances.

Note 2 **Summary of Significant Accounting Policies**

Basis of Accounting
The Plan's financial statements are prepared in conformity with accounting principles generally accepted in the United States.

Subsequent Events
In preparing the financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through July 8, 2013, the date that the financial statements were available to be issued.

Note 2 **Summary of Significant Accounting Policies - Continued**

Investment Contracts
Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. The statements of net assets available for benefits present the fair value of the investment in the common/collective trust as well as the adjustment of the investment in the common/collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates
The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Benefit Payments
Benefit payments are recorded when paid.

Administrative Expenses
Administrative expenses consist primarily of service provider and audit fees and are paid by the Plan.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan follows the fair value measurement guidance required by accounting principles generally accepted in the United States of America for financial and non-financial assets and liabilities. This guidance defines fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Note 2 **Summary of Significant Accounting Policies - Continued**

Investment Valuation and Income Recognition - Continued

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2012 and 2011.

Mutual Funds: These investments are valued using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Common/Collective Trust: Valued at NAV based on information provided by the investment advisor using the audited financial statements of the common/collective trust at year end. There are no restrictions on redemptions of this investment.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

The Plan invests in investment securities, which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with these securities, it is at least reasonably possible that changes in their values will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2012 AND 2011

Note 3 **Certified Information**

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee of the Plan has certified to the completeness and accuracy of the investments reflected on the accompanying statements of net assets available for benefits as of September 30, 2012 and 2011, schedule of assets (held at end of year) as of September 30, 2012, and the related investment income (including interest and dividend income and net appreciation in fair value of investments) reflected in the statement of changes in net assets available for benefits for the year ended September 30, 2012. The common/collective trust was included in the certification at contract value.

Note 4 **Investments**

The fair value of individual investments that represent 5% or more of the Plan's net assets available for benefits as of September 30, 2012 and 2011 are as follows:

	2012	**2011**
Aston/TAMRO Small Cap N Fund	**$ 1,813,393**	$ 1,252,325
Pimco Total Return A Fund	**1,781,234**	1,386,218

Invesco Van Kampen Comstock A Fund	**897,740**	781,799
Aston/Montag & Caldwell Balanced N Fund	**861,188**	667,714
Principal Large Cap S&P 500 Index R5 Fund	**733,357**	671,345

*This investment was named ABN Amro Income Plus D fund in 2011.

During 2012, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,673,705.

Note 5 **Tax Status**

The Plan adopted a prototype plan sponsored by Principal Life Insurance Company. The Internal Revenue Service has determined and informed the prototype plan by a letter dated March 31, 2008 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the determination letter. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

Note 5 **Tax Status - Continued**

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 6 **Party-In-Interest Transactions**

Certain Plan investments are managed by the Trustee of the Plan. As such, transactions involving these investments qualify as party-in-interest transactions.

Note 7 **Corrective Distributions**

Corrective distributions are the result of excess contributions to the Plan by highly compensated employees. The excess contributions are refunded to the employees after the non-discrimination tests are completed.

Participant contributions in 2012 and 2011 have been reduced by payments to certain participants to return a portion of their contributions to satisfy the relevant non-discrimination provisions of the Plan in the amount of $23,344 and $16,452, respectively.
