401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

1. Description of plan

The following description of the Redlee/SCS, Inc. (the "Company") 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have completed twelve months of service, are age twenty-one or older, and have completed 1,000 hours of service during the twelve month eligibility computation period. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

In 2009, participants can contribute up to 100 percent of their compensation not to exceed IRS limits. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). The Company, at its discretion, may match a percentage of a participant's deferred salary contribution. The actual percentage of the match is decided each year by the Company. The percentage for the year ended 2009 is 50 percent of deferrals limited to 6 percent of a participant's compensation. An additional amount, a discretionary profit sharing contribution, may be contributed at the option of the Company's board of directors. Contributions are subject to certain limitations. In 2009, the Company did not contribute a discretionary profit sharing contribution.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings, and (c) an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Investment Options

Upon enrollment in the Plan, a participant may direct employee and employer contributions into any of 30 investment options. Those investment options representing 5 percent or more of the Plan's net assets as of December 31, 2009 and 2008 are described below.

Money Market Fund – The Fund seeks the maximum current income that is consistent with maintaining liquidity and preserving capital. The fund intends to maintain a stable $1 share price.

JH Lifestyle Moderate Fund – Invests only in the shares of The Manufacturers Investment Trust (MIT), which is managed by JH Global Investment Management (U.S.A.) Limited. The investment objective of the Trust is to provide a balance between a high level of current income and growth of capital with a greater emphasis given to high income.

JH Short-Term Federal Fund – Invests solely in shares of the Vanguard Short-Term Federal Fund. The Vanguard Short-Term Federal Fund seeks to provide an attractive level of current income and moderate price volatility by investing solely in short-term U.S. Government and agency securities and by maintaining an average maturity of two to three years.

JH Lifestyle Growth Fund – Invests approximately 80 percent of its assets in underlying funds that invest primarily in equity securities and approximately 20 percent in underlying funds that invests primarily in fixed-income securities.

JH PIMCO Total Return Fund – Invests solely in PIMCO Total Return Fund (Administrative Class). The PIMCO Total Return Fund seeks maximum total return.

JH Mutual Beacon Fund – Invests solely in shares of the Mutual Beacon Fund (Class A). The Mutual Beacon Fund seeks capital appreciation. Income is secondary.

JH Lifestyle Balanced – A fund of funds that invests approximately 60 percent of its assets in underlying funds that invests primarily in equity securities and approximately 40 percent in underlying funds that invests primarily in fixed income securities

Guaranteed 3 Year Composite Account – Guaranteed the return of principle plus compound interest over a three year period, provided all contributions remain in the guaranteed account until the end of the guaranteed period.

JH Franklin Balance Sheet Investment Fund – Invests solely in shares of Franklin Balance Sheet Investment Fund (Class A). The Franklin Balance Sheet Fund seeks long-term return, of which capital appreciation and income are components.

Participants may change their investment options twice monthly.

Participant Loans Receivable

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loan fund. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan sponsor. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, an annuity (regular income over a stated period of time) based on his or her vested account balance less any expenses and state premium taxes, for the life of the participant, or the participant and spouse, or the participant and a designated beneficiary. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

Forfeited non-vested accounts are used first to reduce expenses billed to the Company, and then to reduce the Company's contributions. Amounts forfeited for 2009 and 2008 total $1,550 and $1,031, respectively.

2. Summary of significant policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan sponsor to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

The plan sponsor absorbs a significant portion of the operating costs of the Plan.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, management has reviewed subsequent events through August 13, 2010, the date that the financial statements were available to be issued.

3. Information prepared and certified by John Hancock Retirement Plan Service

The plan sponsor has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan sponsor instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by John Hancock Retirement Plan Service ("John Hancock"), except for comparing such information certified by the trustee to information included the Plan's financial statements and supplemental information.

The following table presents the fair value of investments in the Plan which was certified by John Hancock. Single investments representing 5 percent of the Plan's net assets as of December 31, 2009 and 2008 are separately identified.

	2009	2008
Money Market	$ 357,232	$ 282,564

Net investment income on pooled separate accounts	$ 292,564	
Interest, particpant loans	$ 4,917	
Other income	$ 3,174	

**Values do not represent 5% or more of the Plan's net assets in the respective year.

4. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the plan agreement to discontinue its contributions at any time and to terminate the Plan subject to the

provisions of ERISA. In the event of the Plan's termination, participants will become 100 percent vested in their accounts.

5. Tax status

Effective January 1, 2002, the Plan was restated for legislative changes. The plan sponsor adopted a plan which received volume submitter approval from the Internal Revenue Service dated September 4, 2001. The employer did not request a determination letter. Instead, the employer relied on the volume submitter approval to comply with the applicable requirements of the Internal Revenue Code. However, the plan sponsor and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

As of January 1, 2009, the Plan has adopted FASB ASC 740, *Accounting for Uncertainty in Income Taxes*. The Plan has evaluated its uncertain tax positions and has not identified any positions that require disclosure. Accordingly, no provision for uncertainties in income taxes has been made in the accompanying financial statements.

6. Inactive participants with account balances

The value of the accounts held by participants separated from employment with the plan sponsor and electing to withdraw from the Plan but not paid at December 31, 2009 and 2008 totals $74,040 and $64,994, respectively. For the year ended December 31, 2009, one participant requested a distribution of $2,640 that was not paid until January 19, 2010.

7. Fair value measurements

FASB ASC 820-10, *Fair Value Measurements and Disclosures* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level l measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

Insurance contracts and pooled separate accounts: Valued at the closing net asset value of the shares on December 31, 2009.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Investments	$ 2,310,932	$ -	$ -	$ 2,310,932
Participant loans	-	-	81,890	81,890
Total assets at fair value	$ 2,310,932	$ -	$ 81,890	$ 2,392,822

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2008:

	Assets at Fair Value as of December 31, 2008			
	Level 1	Level 2	Level 3	Total
Investments	$ 2,048,310	$ -	$ -	$ 2,048,310
Participant loans	-	-	58,834	58,834
Total assets at fair value	$ 2,048,310	$ -	$ 58,834	$ 2,107,144

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009.

	Level 3 Assets
	Year Ended December 31, 2009
	Participant loans
Balance, beginning of year	$ 58,834
Realized gains/(losses)	-
Purchases, sales, issuances and settlements (net)	23,056
Balance, end of year	$ 81,890

8. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
