a. General - The Plan, is a defined contribution plan, amended May 28, 2004, effective January 1, 2004 covering all employees of the Company including employees of certain related businesses, who are 21 years of age or older, and have completed one year of service; and excludes all professionals and para-professionals in the field force covered by a collective bargaining agreement of Bestcare, Inc., Bestcare Home Health Services LLC d/b/a Western-Eden Medical Services, and Bestcare, Inc. d/b/a All City Care. Employees immediately vest in their contributions, plus earnings less losses thereon and vest in the Company's matching contribution upon completing three years of service. Forfeited employer contributions may be allocated to active Plan participants at the end of the year or applied to administrative expenses. For the years ending December 31, 2012 and 2011 the amount of forfeited employer contributions was immaterial.

c. Participant accounts – Company and participant contributions are accounted for separately in individual participant's accounts. In addition, each participant account is credited (charged) with its proportionate share of each fund's investment earnings and other income (losses).

d. Investment options – The Plan provides for contributions to be invested in any of fifty-eight different Pooled Separate Accounts and three Guaranteed Interest Accounts managed by John Hancock. The Company's contributions are invested in the manner stipulated by each participant.

1. Description of the Plan (continued)

on the Company's commercial bank's prime rate of interest plus 1.5% at the time the loan is made. Such notes are limited to the lesser of $50,000 or 50% of their account balance. Principal and interest are paid ratably through payroll deductions. Interest rates range from 4.75% to 6.5%. Repayment of the entire balance is permitted at any time. Outstanding notes at December 31, 2012 and 2011 were $92,642 and $142,098 respectively.

f. Benefits – Unless a participant elects to the contrary, lump sum distributions of benefits are made as soon as practicable following a participant attaining normal retirement (age 65) or terminates employment. Should a participant terminate due to becoming disabled while employed, that participant is entitled to 100% of the value of his or her account based upon the Plan's vesting schedule as determined on the actual date of distribution. The death benefit of a participant shall be equal to 100% of the value of the participant's account based upon the Plan's vesting schedule as determined on the actual date of distribution.

If a participant terminates employment for reasons other than retirement, disability or death, he or she is entitled to receive a distribution of the vested portion of his or her account, net of certain fees related to the administration of the Plan.

At December 31, 2012 and 2011 the amount of benefits payable to participants whose employment has been terminated was $559,671 and $529,483 respectively.

2. Summary of significant accounting policies

a. Basis of accounting and presentation - The financial statements of the Plan are prepared under the accrual method of accounting.

b. Use of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes therein during the reporting period. Actual results could differ from those estimates.

c. Investment valuation and income recognition – ASC 962 *Plan Accounting – Defined Contribution Pension Plans* specifies that guaranteed interest funds which are fully benefit-responsive investment contracts (Contracts) shall be reported at fair value on the statement of net assets available for plan benefits. However, Contract Value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined contribution plan attributable to a fully benefit-responsive investment contract because Contract Value is the amount

participants would receive if they were to initiate permitted transactions under the terms of the Plan. ASC 962 requires that the Statement of Net Assets Available for Plan Benefits present fair value of investments, as well as an adjustment to Contract Value for Contracts. The Statement of Changes in Net Assets Available for Plan Benefits is prepared on a Contract Value basis for Contracts. The Guaranteed Interest Accounts in the Plan do not meet the basic criteria to be considered fully benefit responsive under ASC 962 and accordingly are presented at Contract Value which is fair value. The Pooled Separate Accounts in the Plan are valued at fair value based upon the net asset value of the respective funds as of the close of business on the valuation date and represents their market value on that date. The completeness and accuracy of all investment information has been certified by the Custodian (note 3).

Purchases and sales of securities are recorded on a trade date basis. Interest income is accrued when earned. Dividends are recorded on the ex-dividend date. The Plan presents, in the Statements of Changes in Net Assets Available for Plan Benefits, investment income which includes interest and dividend income and the net appreciation or (depreciation) in fair value of its investments, which consist of the realized gains or (losses) and unrealized appreciation or (depreciation) on investments.

d. Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

e. Payment of benefits – Benefits are recorded when paid.

f. Risks and uncertainties – The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Plan Benefits.

Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and short-term liquidity associated with certain investments held by the Plan, which could impact the value of the investments after the date of these financial statements.

(continued)

2. Summary of significant accounting policies (continued)

g. Reclassifications - Certain reclassifications have been made to the financial statements for prior years to conform to the current year presentation.

h. Administrative expenses – The Plan's administration costs are partially paid by the Company.

3. Information certified by Custodian

The Plan Administrator has received from the Custodian certification of the financial information and data in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The data certified includes all financial information related to investments, including income, gains and losses there from, reflected in the Statements of Net Assets Available for Plan Benefits at December 31, 2012 and 2011, and the Statements of Changes in Net Assets Available for Plan Benefits for the years then ended, as well as the investment information included in notes 4 and 7 and the accompanying schedule to these financial statements.

4. Fair value measurements

The Plan reports investments in accordance with ASC 820, *Fair Value Measurements* that establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

(continued)

4. Fair value measurements (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

There have been no changes in the methodologies used at December 31, 2012 or 2011.

Pooled Separate Accounts: Valued at the underlying fair values of the investments in the Pooled Separate Accounts based on quoted market values, available bid prices, or from a bond pricing service of a major dealer of bonds.

Guaranteed Interest Accounts: Valued at fair value of the underlying investments based on current yields of similar instruments considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

	Investments at fair value as of December 31, 2012

5. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts.

6. Federal income taxes

The Internal Revenue Service (IRS) has determined and informed the Plan by letter dated July 23, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related Trust is exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions: however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax for years prior to 2009.
