Independent Auditors' Report

The Administrator of
Mike Thompson Recreational Vehicles Retirement Plan
Santa Fe Springs, California

Report on the Financial Statements

We were engaged to audit the accompanying financial statements and supplemental schedules of Mike Thompson Recreational Vehicles 401(k) Plan ("the Plan"), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, as listed in the accompanying index.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified accrual basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principals; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the custodian as of December 31, 2012 and 2011 and for the year ended December 31, 2012, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

MIKE THOMPSON RECREATIONAL VEHICLES RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2012

1. Description of the plan:

The following description of the Mike Thompson Recreational Vehicles 401(k) Retirement Plan (the "Plan") provides general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is an employee contribution plan covering all employees of Mike Thompson Recreational Vehicles (the "Company"). The Plan was initiated on January 1, 1989. Employees who have three months of service and are age eighteen or older are eligible. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Income taxes:

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Contributions:

Eligible employees may elect to contribute a percentage of their gross compensation as defined by the Plan. For the year ended December 31, 2012, elective deferral amount allowed under IRC Code Section 402(g) was $17,000, and catch-up contribution allowed for participants age 50 or older, under IRC Code Section 414(v) was $5,500. Employer makes matching contributions equal to 25% of participants' elective deferrals and only gross compensations up to 4% is considered for the matching contribution calculation. The employer discontinued its matching contributions effective with all payrolls after July 5, 2008, but is resuming its discretionary match as of January 1, 2013.

Maximum annual addition to each participant's account is subject to the limitation set by IRC Code Section 415(d), which was the lesser of $50,000 or 100% of the participant's compensation for the year ended.

Vesting:

Participants are immediately 100% vested in their 401(k) deferred contributions. Participants' proportional Plan earnings related to deferred contributions less monthly administrative fees are also included in their vested balance.

1. **Description of the plan (continued):**

Vesting (continued):

Vesting in the Company's matching contributions, plus earnings thereon, is based on the following vesting schedule:

Vesting Years of Service	Vested Percentage
0	0%
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participant accounts:

Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution, Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on each participant's individual investment balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of benefits:

Upon retirement, death, disability, or termination of service, participant (or participant's beneficiary in the event of death) may elect to receive a lump-sum payment equal to his or her vested balance in the Plan. Other forms of benefit payments, such as annuities or a series of flexible income payments to the participant until the vested account balance equals zero, are also allowed under the Plan provisions.

Forfeitures:

Forfeitures are first used to pay administrative expenses, then used to reduce future employer matching contributions. Forfeiture amounts available as of December 31, 2012 and 2011 were $68,853 and $59,366, respectively. The Company began matching effective January 1, 2013 and is allocating the forfeitures accumulated in prior years.

1. **Description of the plan (continued):**

Notes receivable from participants:

Participant loans are available under the Plan. Only one loan may be granted during any one-year period, and only one loan may be outstanding at a time. The loan may not be more than the lesser of 50% of participant's vested balance, or $50,000 (reduced by the highest outstanding loan balance, if any, during the one-year period ending on the day before the new loan is made). The loans bear interest at rates that range from 5.25% to 9.25%, which are commensurate with local prevailing rates as determined by the Plan Administrator. Payment due dates and length of the repayment period will be set out in the promissory note. The balance of any outstanding loan is due when participant ceases to be an employee, or the Plan terminates.

2. **Summary of accounting policies:**

Basis of accounting:

The financial statements of the Plan are prepared under the modified accrual basis of accounting. That is, the asset amounts are reflected on a cash basis except for the contributions receivable. The contributions are reported on a Plan year accrual basis.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the Investment advisers, custodians, and insurance company. See Note 3 for discussion of fair value measurements.

2. **Summary of accounting policies (continued):**

Investment valuation and income recognition (continued):

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates:

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amount of assets, liabilities, and change therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Payment of benefits:

Benefits are recorded when paid.

Date of Management's review:

Subsequent events were evaluated through June 17, 2013, which is the date the financial statements were available to be issued.

Notes receivable from participants:

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Total registered investment companies	313,228	193,849
Grand total	$ 8,598,773	$ 7,505,286

3. Investments (continued):

During 2012, the plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $774,226 as follows:

Pooled separate accounts	$ 745,146
Registered investment companies	29,080
	$ 774,226

4. Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statement of net assets available for benefits.

5. Related-party transactions:

During the year ended December 31, 2012, there were no related-party transactions which are prohibited by ERISA for which there are no statutory or administrative exemptions.

6. Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at anytime subject to the provisions of ERISA. In the event of Plan termination, participants will be 100% vested in their accounts.

7. Concentration of credit risk:

Financial instruments, which potentially subject the Plan to concentrations of credit risk, consist primarily of cash contributed and investment funds.

Since all cash is allocated to investment funds within a diversified portfolio, there are no significant concentrations of risk. In addition, the contributions and funds are owned by individual participants, therefore limiting any risk of loss.

8. Reportable transactions:

There were no aggregate transactions that represented 5% or more of the fair value of net assets available for Plan benefits for the year ended December 31, 2012.

9. Fair value measurements:

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs were only used when Level 1 inputs were not available, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 inputs

The fair value of the mutual funds held by the Plan are based on quoted market prices on an active market. There are no adjustments from the quoted prices to come up with the values reported by the Plan.

9. Fair value measurements (continued):

Level 2 inputs

The pooled separate accounts invest in single mutual funds, domestic and international stock, fixed securities such as asset backed securities and residential and commercial mortgage backed securities, and commercial real estate. Except for the real estate investments under the Principal U.S. Property Separate Account, the fair value of the these securities is determined using level 1 or 2 pricing inputs, including quoted prices for similar assets in active or non-active markets. While the underlying assets values are quoted prices, the net asset value ("NAV") of a separate account is not publicly quoted. However, Accounting Standards Codification ("ASC") 820 allows NAV per share to serve as a practical expedient to estimate the fair value as long as certain requirements are met. ASC 820 goes on to state that where NAV is allowed to be used as an estimate of fair value, if the reporting entity has the ability to redeem it's investment at NAV as of the measurement date, that investment shall be categorized as a level 2 fair value measurement.

The fair value of the underlying real estate held by the U.S. Property Separate Account is estimated using discounted cash flow valuation models that utilize public real estate market data inputs such as transaction prices, market rents, vacancy levels, leasing absorption, market cap rates and discounted rates. In addition, each property is appraised annually by an independent appraiser. Effective March 25, 2011, the temporary withdrawal restrictions were lifted with respect to this investment. The trustee and custodian believe that the NAV per share serves as a basis for determining fair value and have determined that Level 2 is the correct designation for this investment.

Level 3 inputs

The fair value of the guaranteed interest account is the amount plan participants would receive if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination or retirement. The fair value represents contract value adjusted to reflect current market interest rates only to the extent such market interest rates exceed crediting rates. The are no unfunded commitments.
