NOTE A – DESCRIPTION OF PLAN

The following description of the North American Risk Services, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan was formed January 1, 2008 as a result of the sale of North American Risk Services, Inc. (the "Company") by its parent company, Clarendon National Insurance Company, to Global Risk Holdings.

The Plan is a participant directed defined contribution plan covering substantially all of the Company's employees.

Employees are eligible to participate in the Plan on their date of hire. Eligible employees do not qualify for employer contributions until the first day of the Plan year quarter after they attain the age of 21 and complete six months of service.

The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

2. Contributions

Participants may elect to defer up to 50 percent of total compensation each year up to the maximum allowed by law which was $17,000 in 2012. Participants who are age 50 or older may make catch-up contributions up to $5,500 in 2012.

The Company, at its discretion, may contribute up to 6% of each participant's compensation determined at the end of the Company's fiscal year. The Company's practice has been to match participant contributions dollar for dollar up to 6%. Any participant who completed 6 months of service in accordance with the Plan entry date criteria set forth in the aforementioned "General" section and was actively employed during the Plan year shall be eligible for the matching contributions.

Participants, with the consent of the Plan, may make rollover contributions from another qualified plan to the Company Plan.

The Company may also make annual discretionary profit sharing contributions in an amount to be determined at the end of the Company's fiscal year by the Company's Board of Directors. To receive such employer profit sharing contributions, employees must have completed one year of service and be employed as of the last day of the Company's fiscal year. There are certain hardship exceptions that can be used to qualify for the contribution if not employed on the last day of the fiscal year.

The discretionary contribution is allocated to eligible participants based on a formula that takes into account the participants' wages and Company's contributions to Social Security. The contribution is allocated to participants in the same proportion that their compensation plus compensation in excess of the Social Security taxable wage base (also called excess compensation) bears to the total compensation plus "excess compensation" of all eligible

NOTE A – DESCRIPTION OF PLAN (continued)

participants. However, the maximum amount which can be allocated to each participant in this first step is 5.7% of the participant's compensation plus the participant's excess compensation.

If after the first step of the allocation process there still remains a portion of the contribution which has not yet been allocated, then the remainder will be allocated to the participants in the same proportion that each participant's compensation bears to the total compensation of all compensation of all participants.

The Company has not elected to make a discretionary profit sharing contribution for the 2012 fiscal year.

3. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of: (a) the Company's contributions, (b) the Company's profit sharing contributions, and (c) Plan earnings or losses. Allocations are based on participant contributions, earnings on participant account balances, as defined in the Plan document. The benefit in which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

4. Vesting and Forfeitures

Participants are immediately vested in their own contributions and earnings and losses thereon. Participants vest 20% per year at the end of each year of service in the Company's matching contributions, plus any related earnings or losses thereon. Profit sharing contributions vest 20% per year at the end of each year of service. Full vesting also occurs in the event of retirement, death or disability.

Forfeitures shall be used to pay any administrative expenses of the Plan and any remaining forfeitures will be used to reduce employer contribution. The forfeitures available at December 31, 2012 and 2011 were $2,250 and $49,887, respectively. During 2012, the Plan used $79,518 of the forfeiture balance, of which $5,409 was used to pay administrative fees.

5. Participant Loans

Under the Plan provisions, a participant may borrow up to the lesser of 50% of his or her vested account balance or $50,000, subject to a minimum amount of $1,000. Participant loans are required to be repaid within five years except for loans to purchase the principal residence of the participant which are required to be repaid within 20 years. Interest is charged at a fixed rate based upon the prevailing prime rate at the time of loan plus one percentage point.

6. Distribution of Benefits

Payment of the Participant's entire account balance under the Plan is available only upon retirement, termination of employment, the attainment of age 59 ½, death or total disability. The only available form of distribution is a lump sum payment. Beneficiaries of participants who die while participating in the Plan, or before all benefits are paid, will be entitled to receive the entire

NOTE A – DESCRIPTION OF PLAN (continued)

remaining account balance. In the event of death or permanent and total disability, the full value of the Participant's account balance will be available to be distributed in a single lump sum.

Upon attainment of age 59 ½ employees may elect to withdraw all or a portion of their entire account balance without penalty while still employed by the Company.

The Plan's provisions provide for hardship withdrawals for certain qualifying events as more specifically described in the Plan document.

7. Investments

The Plan is participant directed and participants may invest their contributions in any of the investment funds offered by the Plan. The Plan's trustee is Reliance Trust Company (Reliance).

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The accompanying financial statements of the Plan have been prepared under the accrual basis of accounting.

As described in FASB ASC 962-325-35, *Plan Accounting – Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of plan assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of investments as the Plan holds no fully benefit-responsive investment contracts. The statement of Changes in Net Assets Available for Benefits is accordingly prepared on a fair value basis.

2. Payment of Benefits

Benefits are recorded when paid.

3. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates and assumptions.

4. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Investments in mutual funds are valued based on quoted prices. Investments in the commingled fund are valued at the net asset value as

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

determined using the estimated fair value of the investments in the respective fund on the last day of the Plan year.

Purchases of sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Earnings from the Morley Stable Value Fund are reinvested in the fund and are reflected in dividends on the Statement of Changes in Net Assets Available for Benefits.

The Plan follows the provisions of FASB ASC 820-10-50*, Fair Value Measurements*, which establishes the authoritative definition of fair value, sets out a framework for measuring fair value and expands the required disclosures about fair value measurements (See Note C).

5. Notes Receivable

In accordance with Financial Accounting Standards Board (FASB) Accounting Standard Update (ASU) No. 2010-25, reporting loans to participants by Defined Contribution Pension Plans, the Plan has classified loans to participants as notes receivable. The loans are recorded at principal plus any accrued and unpaid interest. Interest income is recorded when earned.

6. Administrative Expenses

Most administrative expenses are paid by the Plan. During 2012, the Plan used forfeitures of Company match to pay all administrative fees.

7. Subsequent Events

The Plan has evaluated subsequent events through June 7, 2013, the date the financial statements were available to be issued.

NOTE C – FAIR VALUE MEASUREMENTS

FASB ASC 820-10-50, *Fair Value Measurements,* establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

1. Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

NOTE C – FAIR VALUE MEASUREMENTS (continued)

2. Level 2 Fair Value Measurements

The fair value of the commingled trust fund for which a quoted market price is not available is valued based on the net asset value as determined using the estimated fair value of the investments in the respective fund on the last day of the Plan year.

3. Level 3 Fair Value Measurements

There are no Level 3 funds.

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit.

NOTE E – CORRECTIVE DISTRIBUTIONS

Contributions received from participants in 2012 are net of payments of $3,057 made in 2013 to certain participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. That amount is also included in the Plan's statement of net assets available for benefits as excess contributions payable at December 31, 2012. At December 31, 2011, the Plan had excess contributions payable of $4,845.

NOTE F – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes of risk associated with certain investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE G – PLAN TERMINATION

It is the intention of the Company to continue the Plan; however, the Company has the right to terminate the Plan at any time, subject to the provisions and penalties set forth by ERISA and the Internal Revenue Code. In the event of plan termination participants would become 100% vested in the Company's contributions.

NOTE H – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of amounts reported in the 2012 financial statements to amounts reported in the 2012 Form 5500.

Distributions per the Form 5500	$ 1,531,561

Investment income per the Statement of Changes in Net Assets Available for Benefits agrees to investment income per the Form 5500.

NOTE I – TAX STATUS

The plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The Plan is no longer subject to income tax examination for years prior to 2009.
