REPORT OF INDEPENDENT AUDITORS

Beckman Coulter, Inc.
Benefits Finance and Administration Committee
Brea, California

We have audited the accompanying statements of net assets available for benefits of the Beckman Coulter, Inc. Savings Plan as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the year ended December 31, 2009, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule H, Line 4i - Schedule of Assets (Held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic 2009 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic 2009 financial statements taken as a whole.

BECKMAN COULTER, INC. SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Beckman Coulter, Inc. Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General: Beckman Coulter, Inc. (the Company) established and adopted the Plan effective August 1, 1989. The Plan is a defined-contribution plan covering substantially all Company employees who have completed a three-month period of employment with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Benefits Finance and Administration Committee (the Committee), whose members are appointed by the board of directors of the Company.

Contributions: Participants may elect to contribute up to 45% of their eligible pay in a combination of pretax and after-tax withholdings. Each participant's pretax contributions in the calendar year may not exceed \$16,500 in 2009. Additionally, participants age 50 or older may contribute up to \$5,500 in 2009, as a catch-up contribution.

The Company matches 50% of participants' contributions, up to 7% of participants' total compensation. Forfeitures are applied to reduce the Company's contributions.

Retirement Plus employer contributions were established for the benefit of employees of Coulter Corporation and are not applicable to other employees of the Company, except for certain employees of Beckman Coulter Puerto Rico Inc. Employees of Coulter Corporation as of the acquisition date of October 31, 1997, and hired through April 30, 2000, participate (or are eligible for participation) upon completing one year of service. Also, employees in Puerto Rico who are hired on or after January 1, 2007 participate in Retirement Plus on the January 1 following their date of hire. Annually, the Company makes contributions to participants' Retirement Plus accounts. These contributions consist of a basic contribution which ranges from 3% to 9% of eligible pay for the year and an excess contribution which ranges from 0% to 4% of eligible pay that is above the Social Security taxable wage base for the year. Both ranges are based on the participant's age.

Upon commencement of benefit payments, participants are subject to federal income tax on the receipt of participant pretax contributions, Company contributions, and earnings on all contributions.

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Investment Options: Participants have a choice of various core investment funds for their contributions. Participants may transfer their account balances among the different investment funds. Participants may also transfer up to a maximum of 50% of their overall plan balance, less any outstanding loan amounts, to a Tradelink+ account, which is a self-directed brokerage account that offers discount brokerage services for securities not offered under the Plan. The self-directed brokerage account currently holds predominantly common stocks, preferred stocks, bonds, and mutual funds.

Company contributions may be directed to any of the core investment funds. Participants have the right to elect investment options upon enrollment or reenrollment into the Plan. Additionally, participants may elect to change their investment options and to transfer their account balances among the different investment funds on a daily basis. The Plan also allows participants to invest in the common stock of the Plan Sponsor, Beckman Coulter, Inc.

Income on investment funds is allocated to participants' accounts based on the participants' investment fund balance as a percentage of the total investment fund balance.

Participant Loans: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Repayment is generally required within 5 years or up to 15 years for the purchase of a principal residence. The loans are secured by the balance in the participant's account and bear interest at prime rate plus 1%. Principal and interest are paid ratably through payroll deductions.

Participant Accounts: Each participant's account is credited with: (a) the participant's contributions, (b) the Company's contributions, and (c) Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested balance.

Vesting and Benefits: Participants immediately vest in the value of their own contributions. Participants' interests in the Company's non-Retirement Plus contributions, and the related gains and losses, are fully vested if hired before 2007. Participants hired in 2007 or after become 100% vested in the Company's non-Retirement Plus contributions after the earlier of completion of 3 years of service, layoff, retirement, death, or age 65. Retirement Plus contributions vest ratably over five years of employment. Participants also become fully vested in Retirement Plus contributions upon reaching normal retirement age, death, or permanent disability.

On termination of service, retirement, permanent layoff, permanent disability, or death, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account; a partial distribution if his or her account balance exceeds \$1,000; or installment payments to be paid monthly, quarterly, semiannually or annually over the participant's life expectancy, but not to exceed 30 years. If the total vested value is greater than \$1,000, the participants may elect to postpone their distribution until the year following the year they attain age 70½.

December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Forfeitures: All forfeitures of benefits reduce total cash contributions made by the Plan sponsor. As of December 31, 2009 and 2008, forfeited nonvested accounts totaled \$105,451 and \$92,197, respectively. These amounts will be used to reduce future employer contributions.

Continuation of the Plan: The Company anticipates and believes the Plan will continue without interruption but reserves the right to discontinue the Plan. If the Plan is terminated by the Company, the accounts of all affected participants become 100% vested and non-forfeitable without regard to the years of service of participants.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

Administrative Expenses: Beginning in 2008, substantially all of the Plan's administrative expenses are paid by the Plan. The Company paid no expenses on the Plan's behalf for the year ended December 31, 2009.

Payment of Benefits: Benefits are recorded when paid.

Risks, Concentrations, and Uncertainties: The Plan provides for various investment options including equity, fixed-income, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, liquidity and credit. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan allows participants to invest in the common stock of the Plan Sponsor, Beckman Coulter, Inc. The Plan's investment in the common stock of the Plan Sponsor was 11.4% and 9.6% of plan net assets as of December 31, 2009 and 2008, respectively.

Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statements of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statements of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds a direct interest in fully benefit-responsive contracts through its investment in the Stable Value Fund (Note 3).

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

- Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
- Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds and publicly traded common and preferred stocks (including Company common stock): The fair values of mutual fund and common and preferred stock investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Collective trusts: The fair values of participation units held in collective trusts, other than stable value funds, are based on the net asset values as reported by the fund managers as of the financial statement dates and recent transaction prices (level 2 inputs). The underlying investments of the collective trusts which are bond funds include corporate bonds and notes, asset-backed securities, mortgage-backed securities, U.S. Government Treasury and agency securities, collateralized mortgage obligations, international debt, and short term investments. The investment objective of these funds is to provide returns equal to or better than AAA quality bond indices for securities with comparable durations. The short term investment collective trust seeks to provide a reasonable rate of return by investing in a full range of high-quality, short-term money market securities. Each collective trust provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement. The fair value of the interest in the stable value fund is based upon the net asset values of the fund after an adjustment to reflect all investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported by the fund manager (level 2 inputs). The fund invests in guaranteed investment contracts and synthetic investment contracts issued by life insurance companies and other financial institutions, with the objective of providing a high level of return that is consistent with also providing stability of investment return, preservation of capital and liquidity to pay benefits. The fund provides for daily redemptions by the Plan at reported net asset value per share, with no advance notification requirements.

U.S. Treasury and agency securities: Fair values reflect the closing price reported in the active market in which the security is traded (level 1 inputs).

Corporate Bonds: Certain corporate bonds are valued at the closing price reported in the active market in which the bond is traded (level 1 inputs). Other corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings (level 2 inputs). When quoted prices are not available for identical or similar bonds, the bond is valued using matrix pricing, a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (level 2 inputs).

Wrapper contracts: Fair values of wrapper contracts associated with synthetic investment contracts are based on current bid rates for similar contracts (level 3 inputs).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Participant loans: Participant loans are reported at their outstanding balances, as the fair value of the loans is not practicable to estimate due to restrictions placed on the transferability of the loans.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis which are held by the Plan as of December 31, 2009 and 2008 are summarized below:

NOTE 3 - STABLE VALUE FUND

The Stable Value Fund includes investments in collective trusts and synthetic guaranteed investment contracts (GICs). The synthetic GICs in this fund may be comprised of cash, collective trusts, U.S. Treasury

and agency securities, corporate bonds, and wrapper contracts. The fund is reported at fair value which is based on the fair value of the underlying investments and wrapper contracts at December 31, 2009 and 2008.

Withdrawals resulting from events initiated by the Company, such as Plan or contract termination, are not typically considered participant-initiated transactions. With such an event, some of the contracts contain contingencies that could lead to withdrawal penalties. Certain events that would allow the contract issuers to terminate the contracts and result in the execution of participant transactions at other than contract value include loss of the Plan's qualified status, plan merger or spin-off, bankruptcy of the Plan sponsor, or closing of units of the Company. However, since no such events are being contemplated at this time and management is not aware of any events that would cause the Plan to transact at less than contract value, these "potential" limitations are determined not to be probable and do not jeopardize the contract value reporting for these investments.

Synthetic GICs operate similarly to a guaranteed investment contract, except that the assets are placed in a trust with ownership by the Plan rather than a general account of the issuer and a financially responsible third party issues a wrapper contract that provides that participants can, and must, execute Plan transactions at contract value.

As of December 31, 2009 and 2008, the average yield earned on amounts invested in the synthetic investment contracts was 3.54% and 5.96%, respectively. As of December 31, 2009 and 2008, the average yield based upon the crediting interest rates to participants on such contracts was 2.30% and 4.19%, respectively. There were no valuation reserves recorded to adjust contract amounts. The crediting rates of the contracts are based on an agreed-upon formula with the issuer but can not be less than zero. Rates are reviewed on a quarterly basis for resetting. Crediting rate resets are applied to specific investment contracts, as determined at the time of purchase. The reset values for security-backed investment rates are a function of contract value, market value, yield, and duration. The Plan's allocable share of the resulting gains and losses in the fair value of the investment contracts relative to the contract value is reflected as an adjustment from fair value to contract value on the statements of net assets as of December 31, 2009 and 2008.

NOTE 5 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter, dated August 28, 2002, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and currently being operated in compliance with applicable requirements of the IRC.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain Plan investments are shares of mutual funds managed by T. Rowe Price. T. Rowe Price Trust Company is the Plan trustee and an affiliate of T. Rowe Price, therefore these transactions qualify as party-in-interest transactions. Dwight Asset Management Company (Dwight) is the investment advisor for the Stable Value Fund. This fund holds certain investments managed by Dwight, and therefore these investments qualify as party-in-interest transactions. The Plan also allows loans to plan participants, which qualify as party-in-interest transactions. The Plan also paid administrative fees to T. Rowe Price Trust Company and T. Rowe Price Retirement Services (plan recordkeeper) during 2009 which qualify as party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The Plan also held 1,774,552 and 1,809,650 shares of Company common stock as of December 31, 2009 and 2008, respectively. The Plan received dividends of \$1,250,198 on Company common stock during 2009.
